January 12, 2022

Program Overview

*"We have been able to retain all of our employees for the same hours as pre-pandemic."
- Restaurant Participant*

Restaurant Recovery:

Paid \$10/meal.

Provide a nutritious, balanced meal - using USDA MyPlate

VT Farms and Food Producers:

Provide at least 10% of ingredients for VEE meals
Paid market rate by restaurants

VEE Integrates emergency food assistance <--> local economic development <--> viable local agriculture.

Emergency Food Support:

Meal Recipients attest that their access to food has been negatively impacted by COVID-19 or otherwise are experiencing food insecurity

Network Connections

Operations cost \$2.50/meal

3 State Agencies
14 Community Hubs
20 Task Force Members
100's of Distribution Partners

*"[I've been] lonely. This program is social and makes me so proud of our community"
- Meal Recipient*

VEE Program Goals

- Provide nutritious meals to specific populations of Vermonters who are in need of additional food assistance at this challenging time, including: Sheltered vulnerable populations; Families and individuals with loss of income or difficulty accessing food due to COVID-19; Homebound seniors/families.
- Provide a source of income to restaurants in need, including meaningful employment opportunities for food service workers over the program period.
- Provide Vermont farmers and value added food producers with an opportunity to increase sales through restaurants participating in the program. A minimum of 10% of the value of ingredients used must be purchased from Vermont farms and food producers.
- Provide funding for “community hubs” to organize and execute planning and coordination of meal preparation, distribution, and the flow of funds to restaurant partners.
- Provide accurate and positive information to people served by VT Everyone Eats about food and nutrition resources that compliment the VT Everyone Eats, and how to access them including federal nutrition programs (3SquaresVT, WIC, school meals, and Meals on Wheels), local food shelves and other food distribution options.
- Create a community of practice among community hubs to share best practices and learning to evolve the program over time

Everyone Eats Statewide Task Force

Guide program development

Support outreach with goal of achieving statewide access

Advise project selection and award (committee)

VT ACCD

Define program compliance

Disburse funds to SEVCA

Report to Legislature

SEVCA

Facilitate Task Force

Promote program & receive RFP's

Facilitate project awards with Task Force (committee)

Oversee program compliance

Administer funds to community hubs

Aggregate reporting data

Convene a community of practice for sharing lessons learned and identifying opportunities beyond 2020

Community Hubs

Coordinate stakeholders at community level (hunger relief, restaurants, farms, individuals).

Submit proposals

Manage project at community level

Administer funds to restaurants and other vendors

Collect program data

Vermont Restaurants

Make nourishing, balanced meals at \$10/meal to fit hub project model (fresh, frozen, or hot).

Follow safe handling and food safety requirements & best practices.

Purchase >10% ingredients from local producers.

Follow reporting/invoicing protocol.

FEMA

As of November 28, 2021

- \$24M reimbursed by FEMA = 1.92M meals @ \$12.50/meal
- 260 restaurants have earned \$19.2M @ \$10/meal
- 300+ VT farms and food producers have earned \$2.4M (37% of all ingredients)
- Program administration, operations, and promotion have cost less than 20% of the total budget.

"The program helped me get to know restaurants that I may eat at later" - Meal Recipient

Projections and Near-Term Program Plans

Planning for Winter 21-22

- Current contract set to expire April 1, 2022.
- All Community Hubs are reporting increased demand as winter economic pressures mount for households and restaurant partners.
- Currently distributing 25,000 meals/week (down from 40,000 in July 2021).
- FEMA 100% reimbursement authority extended to April 1, 2022.

***“We are still in the midst of a pandemic that continues to infect, hospitalize and, sadly, kill far too many people. Our organization does not have effective ventilation, nor do we have adequate staffing, to safely serve in house meals.*”**

Our restaurant provider has been a Godsend and has been able to stay afloat thanks to VEE. Please do not let this program end at the harshest time of the year. Thank you for what we hope will be your compassionate consideration for all.” Distribution Partner

Lasting Impacts

VT Everyone Eats - Virtuous Cycle of Community Resilience

VEE Origins:

Grassroots community response

Innovation *and* collaboration

A networked approach

Business, philanthropy, non-profits, and government working together

Not heavily means tested/participants self-attest to need

Combines economic development with community support

VEE Outcomes:

Highlights the importance and ongoing need for prepared meals as a community food resource.

Builds local supply chain relationships.

Willingness of people to use the resource/reduced stigma.

Lots of pride and eager participation from all stakeholders

"I'm hoping that this entire process gets turned into a business school case study, because the level of commitment at every level, the level of problem solving, and how to solve things together, is replicable, and can be done." - Restaurant Participant

Post - Pandemic Impacts

- **Continue to leverage program innovations and lessons learned**
 - Work with federal, state, and community stakeholders to identify resources to support ongoing programming.
 - Work across silos: VEE Statewide Task Force (see appendix) and Cross agency collaboration (AHS, ACCD, and AAFM)
 - Reinforce local purchasing relationships between restaurants and farmers through TA.
 - Support community scale innovations.
- **Pandemic revealed gaps in prepared meals**
- **Document program process and build the “playbook” for future use**
- **Evaluate Program Impact**
 - [Qualitative impact analysis](#) conducted by JSI. Completed December 2020
 - Survey evaluation of [restaurant](#), meal recipient, farmer, and distribution site partners. Anticipated completion: Jan 2022
 - UVM Masters Thesis exploring VEE’s impact on Task Force participants. Anticipated completion: Spring 2022
 - Economic impact evaluation. In development.
- **solutions for vulnerable Vermonters and created opportunities to explore more systemic solutions that lift all boats:**
 - Are existing supplemental food resources stable? How can the VEE community build support and resources for keystone programs like Meals on Wheels?
 - Can we leverage the resources of private industry to feed ourselves in a way that is economically beneficial for everyone?

THANK YOU!

VERMONT EVERYONE EATS!
