

H.157

An act relating to registration of construction contractors

The Senate proposes to the House to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. FINDINGS

The General Assembly finds that:

(1) There is currently no master list of residential construction contractors operating in the State.

(2) There is no standard process for determining or adjudicating construction contract fraud complaints either on the part of contractors or consumers.

(3) Public authorities have no mechanism to contact all contractors when necessary to provide updates to public health requirements, safe working protocols, codes and standards, and available trainings and certifications.

(4) Wide dissemination of information on codes, standards, and trainings is vital to improving construction techniques throughout the State's construction industry. Since building thermal conditioning represents over one-quarter of the State's greenhouse gas emissions, improving energy performance is a key strategy for meeting the requirements of the Global Warming Solutions Act, 2020 Acts and Resolves No. 153.

(5) While registration is not licensure and confers no assurance of competence, consumers have no way of knowing whether a contractor is operating legally or has been subject to civil claims or disciplinary actions.

(6) A noncommercial, standardized public listing will provide contractors an opportunity to include in their record optional third-party, State-sanctioned certifications.

Sec. 2. 3 V.S.A. § 122 is amended to read:

§ 122. OFFICE OF PROFESSIONAL REGULATION
