19 **Sec. 2.** FINDINGS

20 The General Assembly finds that:

21 (1) Prosperous, sustainable, inclusive communities are critical to  
22 Vermont’s economic health and the well-being of its residents.

23 (2) Housing affordability and availability challenges require elected  
24 officials, community leaders, and developers making community investments  
25 to consider all options to increase the supply of housing.

1           (3) The State designation programs underpin Vermont’s land use goals  
2           and provide numerous economic, health, quality of life, and environmental  
3           benefits.

4           (4) Increased housing choices in State designated centers advance  
5           statewide goals to encourage housing affordability, inclusion, and equity;  
6           conserve energy; decrease greenhouse gas emissions; provide a variety of  
7           transportation choices; promote the efficient use of transportation and other  
8           public infrastructure and services; protect the working landscape and natural  
9           areas from fragmentation; and foster healthy lifestyles.

10          (5) Small-scale and infill developers are critical to rural and community  
11          revitalization in locations where development is not occurring and is necessary  
12          to meet the full range of Vermont’s housing needs.

13          (6) Strategies, policies, programs, and investments that advance  
14          Vermont’s smart growth principles, complete streets principles, and planning  
15          and development goals pursuant to 24 V.S.A. § 4302 make communities more  
16          equitable and sustainable and improve the long-term fiscal, economic, and  
17          environmental viability of the State.

18          **Sec. 2a.** 24 V.S.A. § 2793e is amended to read:

19          § 2793e. NEIGHBORHOOD PLANNING AREAS; DESIGNATION OF  
20                                  NEIGHBORHOOD DEVELOPMENT AREAS

1 (a) Purpose. This section is intended to encourage a municipality to plan  
2 for new and infill housing in the area including and immediately encircling its  
3 designated downtown, village center, new town center, or within its designated  
4 growth center in order to provide needed housing and to further support the  
5 commercial establishments in the designated center. To support this goal, this  
6 section sets out a two-component process.

7 \* \* \*

8 (b) Definitions.

9 (1) “Neighborhood planning area” means an automatically delineated  
10 area including and encircling a downtown, village center, or new town center  
11 designated under this chapter or within a growth center designated under this  
12 chapter. A neighborhood planning area is used for the purpose of identifying  
13 locations suitable for new and infill housing that will support a development  
14 pattern that is compact, oriented to pedestrians, and consistent with smart  
15 growth principles. To ensure a compact settlement pattern, the outer boundary  
16 of a neighborhood planning area shall be located entirely within the boundaries  
17 of the applicant municipality, unless a joint application is submitted by more  
18 than one municipality, and shall be determined:

19 \* \* \*

1 (c) Application for designation of a neighborhood development area. The  
2 State Board shall approve a neighborhood development area if the application  
3 demonstrates and includes all of the following elements:

4 \* \* \*

5 (5) The proposed neighborhood development area consists of those  
6 portions of the neighborhood planning area that are appropriate for new and  
7 infill housing, excluding identified flood hazard and fluvial erosion areas,  
8 except those areas containing preexisting development in areas suitable for  
9 infill development as defined in § 29-201 of the Vermont Flood Hazard Area  
10 and River Corridor Rule. In determining what areas are most suitable for new  
11 and infill housing, the municipality shall balance local goals for future land  
12 use, the availability of land for housing within the neighborhood planning area,  
13 and the smart growth principles. Based on those considerations, the  
14 municipality shall select an area for neighborhood development area  
15 designation that:

16 (A) Avoids or ~~that~~ minimizes to the extent feasible the inclusion of  
17 “important natural resources” as defined in subdivision 2791(14) of this title.  
18 If an “important natural resource”<sup>2</sup> is included within a proposed neighborhood  
19 development area, the applicant shall identify the resource, explain why the  
20 resource was included, describe any anticipated disturbance to such resource,  
21 and describe why the disturbance cannot be avoided or minimized. If the

1 neighborhood development area includes flood hazard areas or river corridors,  
2 the local bylaws shall contain provisions consistent with the Agency of Natural  
3 Resources’ rules required under 10 V.S.A. § 754(a) to ensure that new infill  
4 development within a neighborhood development area occurs outside the flood  
5 hazard area and will not cause or contribute to fluvial erosion hazards within  
6 the river corridor. If the neighborhood development area includes flood hazard  
7 areas or river corridors, local bylaws shall also contain provisions to protect  
8 river corridors outside the neighborhood development area consistent with the  
9 Agency of Natural Resources’ rules required under 10 V.S.A. § 754(a).

10 \* \* \*

11 ~~(6) The neighborhood development area is served by:~~

12 ~~(A) municipal sewer infrastructure; or~~

13 ~~(B) a community or alternative wastewater system approved by the~~

14 ~~Agency of Natural Resources. [Repealed.]~~

15 (7) The municipal bylaws allow minimum net residential densities  
16 within the neighborhood development area greater than or equal to four ~~single-~~  
17 ~~family detached~~ dwelling units per acre for all identified residential uses or  
18 residential building types, exclusive of accessory dwelling units, or ~~no~~ not  
19 fewer than the average existing density of the surrounding neighborhood,  
20 whichever is greater. The methodology for calculating density shall be

1 established in the guidelines developed by the Department pursuant to  
2 subsection 2792(d) of this title.

4 **Sec. 2b.** 24 V.S.A. § 2793b is amended to read:

5 § 2793b. DESIGNATION OF NEW TOWN CENTER DEVELOPMENT  
6 DISTRICTS

7 \* \* \*

8 (b) Within 45 days of receipt of a completed application, the State Board  
9 shall designate a new town center development district if the State Board finds,  
10 with respect to that district, the municipality has:

11 \* \* \*

12 (2) Provided a community investment agreement that has been executed  
13 by authorized representatives of the municipal government, businesses and  
14 property owners within the district, and community groups with an articulated  
15 purpose of supporting downtown interests, and contains the following:

16 \* \* \*

17 (B) Regulations enabling ~~high~~ densities that are ~~greater~~ not less than  
18 four dwelling units, including all identified residential uses or residential  
19 building types, per acre and not less than those allowed in any other part of the  
20 municipality not within an area designated under this chapter.
