

Public Higher Education Needs Us at the Table

To Governor Scott and the Vermont General Assembly:

Shared governance, combined with adequate state support, would enable us to meet our statute of serving the state.

Our residential campuses are economic engines for the state.

Through providing a high-quality education at an affordable cost for our students, we can provide workforce development to ensure the health and well-being of the people of Vermont.

We can transform our public higher education system to meet the needs of Vermonters by ensuring that students, staff and faculty have a voice and a seat at the policy-making table.

We call on you to address the crisis in Vermont public higher education by:

1. Adding student, staff and faculty representation to the UVM and VSCS Boards of Trustees.
2. Increasing funding for public higher education to at least 34 percent, the national average.

Signed,
