Subject: [External] Broadband Recovery - Campaign for Vermont Proposal

[External]

Good Morning members of the Senate Finance Committee,

Knowing that you have taken testimony all week on H.360, I wanted to get you a draft copy of an economic recovery paper that Campaign for Vermont is putting out over the next couple weeks. Swift broadband expansion is a key piece of the recovery strategy that we have outlined. It is critical that we act now and decisively to get Vermonters connected.

The broadband-specific section starts at the bottom of page three, but if you have time the whole thing is worth reading for context.

I am happy to answer any questions you might have!
