Hi Alex,

After the additional testimony from VEHI and other stakeholders on the potential cost increases as a result of language in Section 4, the Department is recommending that all language in Section 4 of the bill be incorporated into the report under Section 5. This is allow us to make sure we're creating an environment that is as beneficial to consumers as possible, and that is fully informed by all potential the healthcare costs or savings which could result from these changes.

I would be happy to join the zoom meeting if that would be helpful.

Thanks for your time,

Emily

Good morning,

DFR has an additional suggestion regarding Section 4 of H. 353 that we would like to discuss. We realize this is short notice given the Committee's agenda, and would be happy to provide the suggested change in written form or via zoom testimony this morning if possible. Please let us know.

Thank you,
