## Stem Cell Centers

Cutting Edge Treatments, Amazing Results

As a national leader in stem cell therapy, we have successfully treated tens of thousands of patients suffering from chronic pain and other conditions.

- PINS and NEEDLES
- TINGLING and BURNING
- OVER SENSITIVITY or REDUCED SENSATION
- CRAMPING and MUSCLE WEAKNESS
- POOR BALANCE and COORDINATION
- SLOW REFLEXES

Our network of top medical providers utilizes stem cells that are ethically and safely collected. Our advanced treatment process includes rigorous testing and processing of the stem cells in a GMP approved laboratory.

**NEUROPATHY**  
"My first treatment at Stem Cell Centers, I saw a dramatic change in the way I could walk. I didn't feel like I would be over-exercised. I felt very stable. I didn't have any sort of falling. After my second treatment, the results seem to get even better. I'm going to recommend it to anybody who I think needs some stem cell therapy." - Gary

**NEUROPATHY**  
"I want to be a normal and I wanted to feel walking to the end of my driveway. I started the stem cell treatment and it's been almost a month now and I can walk in 1000 steps. I could never walk the leg up high enough to get it into the car without having to just my leg up to get in. And now I don't have to do that either. I just think I'm improving every single day." - Nancy

**COPD**

"My lungs don't feel the same. I'm having a hard time breathing. I haven't played golf in four years. I had to quit smoking 10 years back." - Ted

**COPD**

"Two weeks after my first treatment and I was breathing better. I went to see the rehabber every 15 to 30 minutes. I was down 20 lbs in my first year with two weeks. I just feel better."
