**Annual Report on  
Patients Seeking  
Mental Health Care in Hospital Settings**

**As required by Act 200, Sec. 7 (2018)**

**Submitted to: Senate Committee on Health and Welfare  
House Committee on Healthcare**

**Submitted by: Emily Hawes  
Commissioner, Department of Mental Health**

**Prepared by: Daisy Berbeco  
Senior Policy Advisor**

**Report Date: January 28, 2022**

## Patients Seeking Mental Health Care in Hospital Settings

---

(a) Pursuant to the authority granted to the Commissioner of Mental Health under 18 V.S.A. § 7401, the Commissioner shall collect the following information from hospitals in the State that have either an inpatient psychiatric unit or emergency department receiving patients with psychiatric health needs:

(1) the number of individuals seeking psychiatric care voluntarily and the number of individuals in the custody or temporary custody of the Commissioner who are admitted to inpatient psychiatric units and the corresponding lengths of stay on the unit;

(2) the lengths of stay in emergency departments for individuals seeking psychiatric care voluntarily and for individuals in the custody or temporary custody of the Commissioner; and

(b) On or before January 15 of each year between 2022-2023, the Commissioner of Mental Health shall submit a written report to the House Committee on Health Care and to the Senate Committee on Health and Welfare containing the data collected pursuant to subsection (a) of this section during the previous calendar year.

## PATIENTS SEEKING MENTAL HEALTH CARE IN HOSPITAL SETTINGS

### Orientation to the Data

The time period for this report is Federal Fiscal Year 2021, which runs from October to September. VAHHS continues to see the impacts of COVID-19 on both our system capacity and utilization.

(1) The Number of Individuals Seeking Psychiatric Care Voluntarily and The Number of Individuals in Custody or Temporary Custody of The Commissioner who are Admitted to Inpatient Psychiatric Units and Corresponding Lengths of Stay on Unit.

**Table 1: Adult Inpatient Stays on Psychiatric Units – FFY 2021 (October 1, 2020 – September 30, 2021)**

Legal Status	Total # Admissions	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
Involuntary	573	587	18,276	34
Voluntary	1,928	2,028	21,483	11
<b>Grand Total</b>	<b>2,501</b>	<b>2,615</b>	<b>39,759</b>	<b>15</b>

**Table 2: Youth Inpatient Stays on Psychiatric Units – FFY 2021 (October 1, 2020 – September 30, 2021)**

	Total # Admissions	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
<b>Grand Total</b>	<b>220</b>	<b>233</b>	<b>3,701</b>	<b>16</b>

#### Data Notes

- *Data Source: Vermont Association of Hospitals and Health Systems-Network Services Organization (NSO), psychiatric inpatient data and the Vermont Uniform Hospital Discharge Data Set. VAHHS-NSO did not engage with hospitals to perform a patient level reconciliation.*
- *Total bed days and lengths of stay are calculated for discharged patients only.*
- *Legal status based on reported legal status at admission.*

(2) Length of Stay in Emergency Departments for Individuals Seeking Psychiatric Care Voluntarily and For Individuals in Custody or Temporary Custody of The Commissioner.

**Table 3: All Emergency Room Waits for Mental Health – FFY 2021 (October 1, 2020 – Sept. 30, 2021)**

Patient Type	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
Inpatient ED	1,427	1,569	1
Outpatient ED	7,886	8,390	1
<b>Grand Total</b>	<b>9,313</b>	<b>9,959</b>	<b>1</b>

Data on Adult Patients

**Table 4: Adult Emergency Room Waits for Mental Health – FFY 2021 (October 1, 2020 – Sept.30, 2021)**

Patient Type	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
Inpatient ED	1,427	1,569	1
Outpatient ED	6,448	6,195	1
<b>Grand Total</b>	<b>7,875</b>	<b>7,764</b>	<b>1</b>

**Table 5: Adult Emergency Room Waits for Mental Health – FFY 2021 (October 1, 2020 – Sept. 30, 2021) Involuntary Legal Status**

Patient Type	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
Inpatient ED	204	443	2
Outpatient ED	469	1,645	4
<b>Involuntary Total</b>	<b>673</b>	<b>2,088</b>	<b>3</b>

**Table 6: Adult Emergency Room Waits for Mental Health – FFY 2021 (October 1, 2020 – Sept 30, 2021) Voluntary Legal Status (Estimated)**

Patient Type	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
Inpatient ED	1,223	1,126	1
Outpatient ED	5,979	4,550	1
<b>Voluntary Total</b>	<b>7,202</b>	<b>5,676</b>	<b>1</b>

Total reported bed days for “inpatient” patients waiting in emergency departments also includes bed days for the inpatient psychiatric stay. To estimate the number of actual emergency department days, bed days were recalculated by subtracting reported Room and Board units from each case. For example, if the recorded admission and discharge date indicate a 5-day length of stay but only 3 Room and Board units are reported, it is assumed that the patient spent 3 days in an inpatient psychiatric unit and 2 days in the emergency department.

Therefore, the total reported bed days for “inpatient” patient types represents our best estimate of the total days people wait in emergency departments before receiving inpatient care at that hospital.

Data Notes

- *Data Source: Vermont Association of Hospitals and Health Systems – Network Services Organization (VAHHS-NSO), Vermont Uniform Hospital Discharge Data Set. This is aggregate data pulled from the discharge data warehouse as received from Vermont Hospitals. VAHHS-NSO did not engage with hospitals to perform a patient level reconciliation.*
- *“Inpatient ED” patient types are those that waited in an emergency room and were admitted to the psychiatric unit of the same hospital in which they waited. “Outpatient ED” patient types are those that waited in an emergency room and were admitted to the psychiatric unit of a different hospital or were discharged back to the community.*
- *Total bed days and lengths of stay are calculated for discharged patients only.*
- *Voluntary figures for emergency room wait times numbers are estimated by subtracting reported totals from reported figures in “involuntary.” Voluntary length of stay is estimated by dividing the estimated number of voluntary bed days by the estimated number of voluntary discharges.*

Data on Youth Patients

**Table 7: Youth Emergency Room Waits for Mental Health – FFY 2021 (October 1, 2020 – Sept. 30, 2021)**

Patient Type	Total # Discharges	Total # Bed Days	Length of Stay in Days (Mean)
Involuntary	78	296	4
Voluntary	1,360	1,899	1
<b>Grand Total</b>	<b>1,438</b>	<b>2,195</b>	<b>2</b>

All emergency room waits for youth are outpatient ED records, since Brattleboro Retreat is the only inpatient hospital for youth and does not have an emergency room.

Data Notes

- *Data Source: Vermont Association of Hospitals and Health Systems – Network Services Organization (VAHHS-NSO), Vermont Uniform Hospital Discharge Data Set. This is aggregate data pulled from the discharge data warehouse as received from Vermont Hospitals. VAHHS-NSO did not engage with hospitals to perform a patient level reconciliation.*
- *“Inpatient ED” patient types are those that waited in an emergency room and were admitted to the psychiatric unit of the same hospital in which they waited. “Outpatient ED” patient types are those that waited in an emergency room and were admitted to the psychiatric unit of a different hospital or were discharged back to the community.*
- *Total bed days and lengths of stay are calculated for discharged patients only.*
- *Voluntary figures for emergency room wait times numbers are estimated by subtracting reported totals from reported figures in “involuntary.” Voluntary length of stay is estimated by dividing the estimated number of voluntary bed days by the estimated number of voluntary discharges.*
