The University of Vermont

Funding Sources for Facilities Improvements

Key Points

- UVM has 5.4 million square feet of space in 280 buildings
- 64% of UVM's buildings were built before 1975 and several were built before 1900
- UVM has made significant investments to address maintenance and repair needs, as well as new construction to replace obsolete buildings
- State capital appropriations were \$2M/year for several years but were reduced to \$1.3 - \$1.4M in recent years
- The Governor's recommendation for FY 22 is \$1M/year, the House version of the bill calls for \$1.5M and UVM is requesting that it be increased to \$2M/year
