

Vermont State Colleges System

Senate Committee on Institutions

March 17, 2022

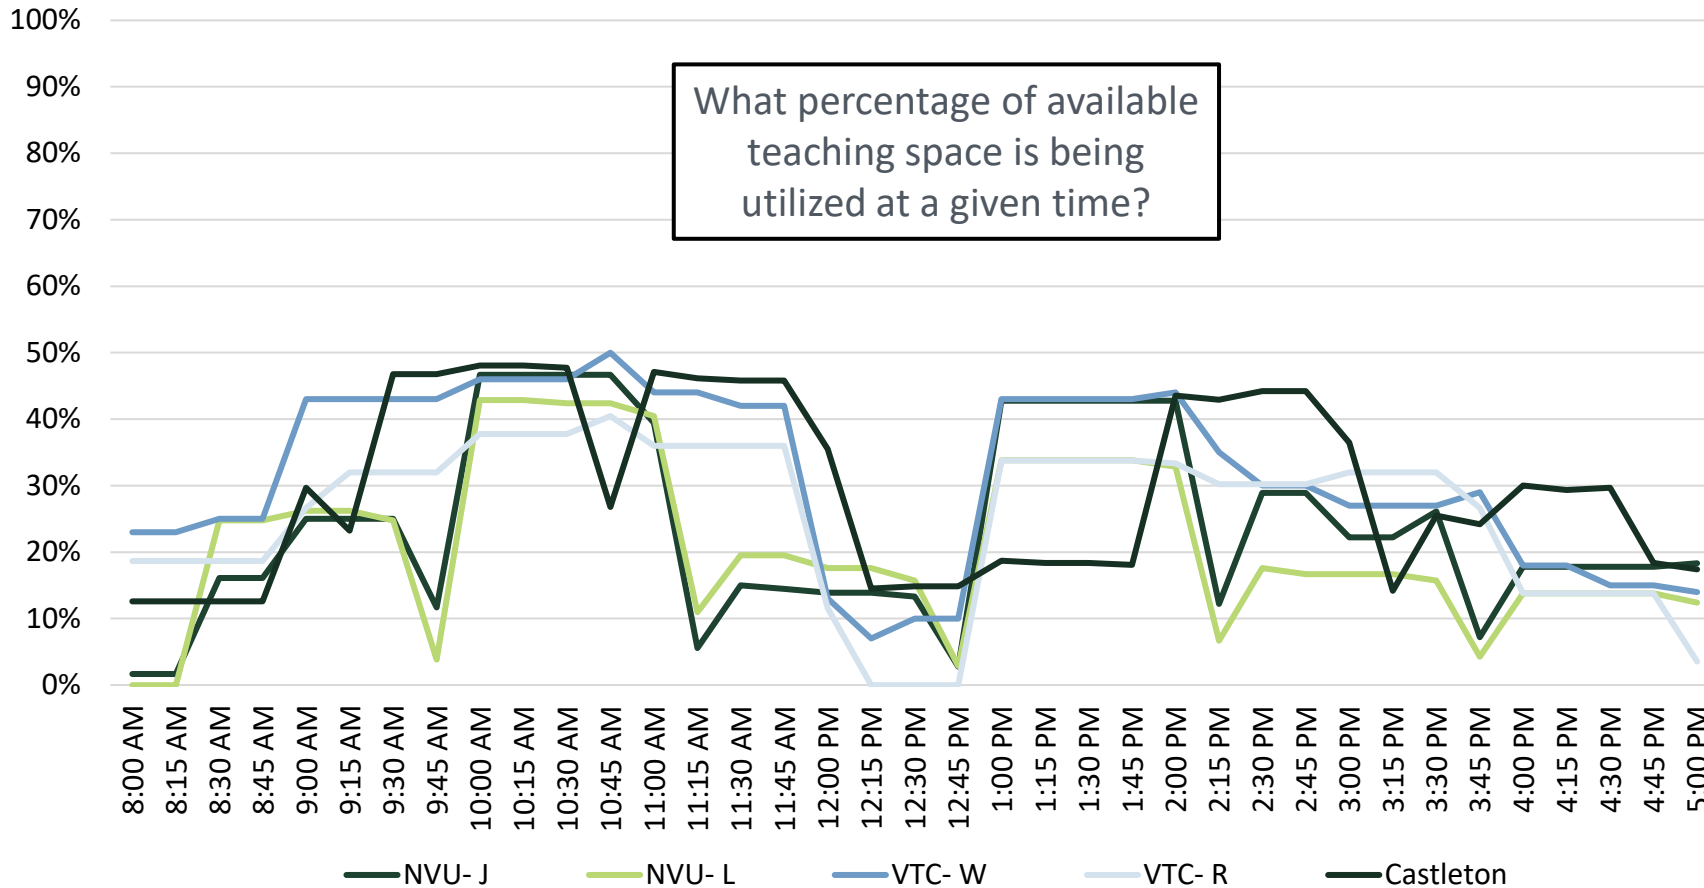

For the benefit of Vermont

Academic Space Utilization

Teaching Space Utilization

All VSC locations have a Room Utilization rate < 35%, with no more than 5 of 10 spaces used at a time

Fall 2021 VSC Room Utilization by Location

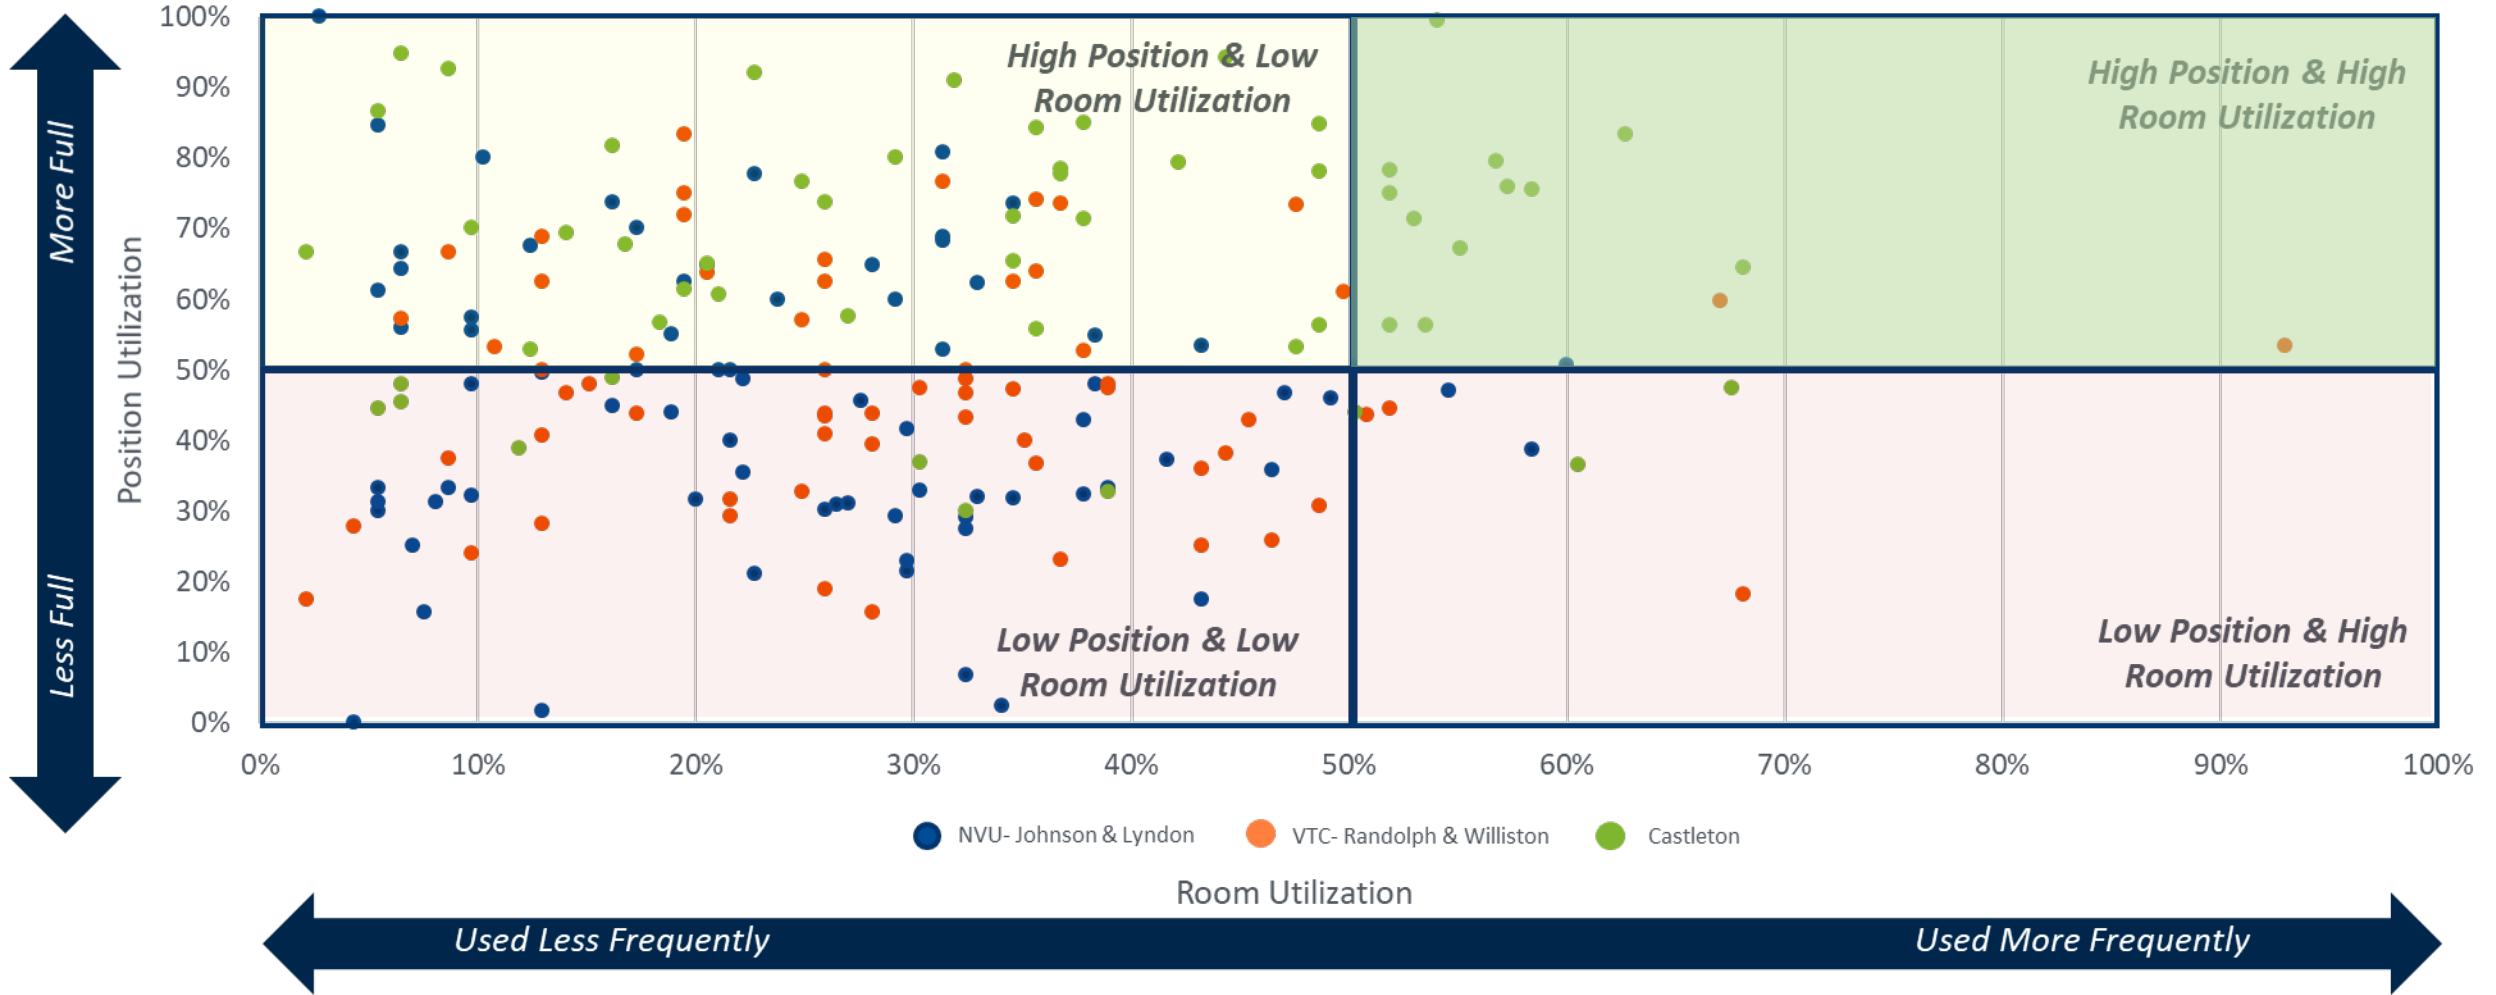

VSC Average:
8AM-5PM
Monday - Friday

26%

Average by Location

NVU-Johnson: 24%
NVU-Lyndon: 21%
VTC-Williston: 32%
VTC-Randolph: 26%
Castleton: 30%

Low Space Utilization Across all Campuses

For the benefit of Vermont

Return on Physical Assets

Defining an Annual Investment Target

Gordian recommends an Annual Investment Target of **\$8.4M** into existing space for FY21

Facilities Planning

Castleton, NVU, Vermont Tech

Supplemental Data

Design Principles & Timelines

Building Usage Principles

- The campus facility plan will be **grounded in data and financial analysis** that supports **financial sustainability** and **meets the academic, student life, and co-curricular needs** of the institution
- The facility master plan will **lower the total cost of ownership** of our facilities and/or **increase revenue potential**. This may include repurposing, selling, leasing, razing, or partnering with organizations
- Academic, student life, and co-curricular spaces will be designed to **enhance the experience of learners**
- Our buildings and spaces will be **accessible and inclusive** to all learners

Maintenance & Renovation Principles

- Campus facilities plan will **identify projects that reduce our deferred maintenance** and shift our daily operations from **reactionary to more preventative**. Budgetary saving will amplify by incorporating both strategies
- **Consistent systems** will be installed to allow for **better data** when budgets are allocated
- Seize the opportunity to **increase accessibility when implementing renovation**

Energy Consumption Principles

- An **Energy Management Plan** will set future goals and measures results
- A **Utilities Master Plan** that ensures systems are **upgraded prior to failure** and are driven by technological advances that bring efficiencies
- **Engage Efficiency Vermont** in a way that uses their industry knowledge to guide us in energy reduction steps as well as proper asset investment which provide better return on investment
- **Utilize the utility data** assembled by Gordian along with the detailed site assessments provided by SAS **to guide project selection**
