

Jennifer M. V. Fitch, P.E., was appointed Commissioner of Buildings and General Services in January 2021 by Governor Philip B. Scott. Mrs. Fitch began her career with the Vermont Agency of Transportation (VTrans) in the fall of 2004, serving as the Research Program Manager for the Materials and Research Section until the fall of 2011 when she became a project manager in the newly established Accelerated Bridge Program (ABP) within the Structure Section. Mrs. Fitch was promoted to lead the Project Initiation and Innovation Team (PIIT) in 2014. In April of 2016, she was appointed the Deputy Commissioner of Buildings and General Services (BGS) and reappointed in January 2019.

Mrs. Fitch graduated with a B.S. in Civil Engineering from the University of Vermont in 2002 and received Vermont's Young Engineer of the Year Award in 2014, and the VTrans Secretary's Innovation Award in 2015. Mrs. Fitch is a licensed professional engineer, Lean Six Sigma greenbelt, and serves on the board for the Vermont Society of Engineers and Board of Advisors for the UVM Civil and Environmental Engineering program. Known for her collaborative leadership, drive, hard work ethic, and positive energy, Mrs. Fitch is passionate about workforce development, continuous improvement, building effective teams, and growing future leaders.
