

Subject: We demand clean water

Date: Mar 11, 2021 at 9:13:28 AM EST

To: cbray@leg.state.vt.us

Dear Representative,

As residents and taxpayers we demand that you stop destroying our rivers and degrading our drinking water supplies and that you issue no more permits for development until municipalities and developers can do so without further degrading the water health and safety for that of our neighbors downstream. We note that Municipalities are not following the rules now!

Amend 101: Smart Growth Requires Safe Water!

Remove Sections 10 and 11 as the Weiss testimony demands.
