

1 TO THE HONORABLE SENATE:

2 The Committee on Natural Resources and Energy to which was referred  
3 Senate Bill No. 234 entitled “An act relating to changes to Act 250”  
4 respectfully reports that it has considered the same and recommends that the  
5 bill be amended by striking out all after the enacting clause and inserting in  
6 lieu thereof the following:

7 \* \* \* Municipal Zoning \* \* \*

8 Sec. 1. 24 V.S.A. § 2793e is amended to read:

9 § 2793e. NEIGHBORHOOD PLANNING AREAS; DESIGNATION OF  
10 NEIGHBORHOOD DEVELOPMENT AREAS

11 (a) Purpose. This section is intended to encourage a municipality to plan  
12 for new and infill housing in the area including and immediately encircling its  
13 designated downtown, village center, new town center, or within its designated  
14 growth center in order to provide needed housing and to further support the  
15 commercial establishments in the designated center. To support this goal, this  
16 section sets out a two-component process.

17 \* \* \*

18 (b) Definitions.

19 (1) “Neighborhood planning area” means an automatically delineated  
20 area including and encircling a downtown, village center, or new town center  
21 designated under this chapter or within a growth center designated under this

1 chapter. A neighborhood planning area is used for the purpose of identifying  
2 locations suitable for new and infill housing that will support a development  
3 pattern that is compact, oriented to pedestrians, and consistent with smart  
4 growth principles. To ensure a compact settlement pattern, the outer boundary  
5 of a neighborhood planning area shall be located entirely within the boundaries  
6 of the applicant municipality, unless a joint application is submitted by more  
7 than one municipality, and shall be determined:

8 \* \* \*

9 (c) Application for designation of a neighborhood development area. The  
10 State Board shall approve a neighborhood development area if the application  
11 demonstrates and includes all of the following elements:

12 \* \* \*

13 (5) The proposed neighborhood development area consists of those  
14 portions of the neighborhood planning area that are appropriate for new and  
15 infill housing, excluding identified flood hazard and fluvial erosion areas,  
16 except those areas containing preexisting development in areas suitable for  
17 infill development as defined in § 29-201 of the Vermont Flood Hazard Area  
18 and River Corridor Rule. In determining what areas are most suitable for new  
19 and infill housing, the municipality shall balance local goals for future land  
20 use, the availability of land for housing within the neighborhood planning area,  
21 and the smart growth principles. Based on those considerations, the

1 municipality shall select an area for neighborhood development area  
2 designation that:

3 (A) Avoids or ~~that~~ minimizes to the extent feasible the inclusion of  
4 “important natural resources” as defined in subdivision 2791(14) of this title.  
5 If an “important natural resource” is included within a proposed neighborhood  
6 development area, the applicant shall identify the resource, explain why the  
7 resource was included, describe any anticipated disturbance to such resource,  
8 and describe why the disturbance cannot be avoided or minimized. If the  
9 neighborhood development area includes flood hazard areas or river corridors,  
10 the local bylaws shall contain provisions consistent with the Agency of Natural  
11 Resources’ rules required under 10 V.S.A. § 754(a) to ensure that new infill  
12 development within a neighborhood development area occurs outside the flood  
13 hazard area and will not cause or contribute to fluvial erosion hazards within  
14 the river corridor. If the neighborhood development area includes flood hazard  
15 areas or river corridors, local bylaws shall also contain provisions to protect  
16 river corridors outside the neighborhood development area consistent with the  
17 Agency of Natural Resources’ rules required under 10 V.S.A. § 754(a).

18 \* \* \*

1           (6) ~~The neighborhood development area is served by:~~

2                   ~~(A) municipal sewer infrastructure; or~~

3                   ~~(B) a community or alternative wastewater system approved by the~~

4 ~~Agency of Natural Resources. [Repealed.]~~

5           (7) The municipal bylaws allow minimum net residential densities  
6 within the neighborhood development area greater than or equal to four ~~single-~~  
7 ~~family detached~~ dwelling units per acre for all identified residential uses or  
8 residential building types, exclusive of accessory dwelling units, or ~~no~~ not  
9 fewer than the average existing density of the surrounding neighborhood,  
10 whichever is greater. The methodology for calculating density shall be  
11 established in the guidelines developed by the Department pursuant to  
12 subsection 2792(d) of this title.

13   \* \* \*

14           Sec. 2. 24 V.S.A. § 2793b is amended to read:

15           § 2793b. DESIGNATION OF NEW TOWN CENTER DEVELOPMENT

16   DISTRICTS

17   \* \* \*

18           (b) Within 45 days of receipt of a completed application, the State Board  
19 shall designate a new town center development district if the State Board finds,  
20 with respect to that district, the municipality has:

21   \* \* \*

1 (2) Provided a community investment agreement that has been executed  
2 by authorized representatives of the municipal government, businesses and  
3 property owners within the district, and community groups with an articulated  
4 purpose of supporting downtown interests, and contains the following:

5 \* \* \*

6 (B) Regulations enabling ~~high~~ densities that are ~~greater~~ not less than  
7 four dwelling units, including all identified residential uses or residential  
8 building types, per acre and not less than those allowed in any ~~other~~ part of the  
9 municipality not within an area designated under this chapter.

10 \* \* \*

11 Sec. 3. 24 V.S.A. § 4449 is amended to read:

12 § 4449. ZONING PERMIT, CERTIFICATE OF OCCUPANCY, AND  
13 MUNICIPAL LAND USE PERMIT

14 (a) Within any municipality in which any bylaws have been adopted:

15 \* \* \*

16 (4) No municipal land use permit issued by an appropriate municipal  
17 panel or administrative officer, as applicable, for a site plan or conditional use  
18 shall be considered abandoned or expired unless more than two years has  
19 passed since the permit approval was issued.

18 ~~that at the time of first sale does not exceed 85 percent of the new construction,~~  
19 ~~targeted area purchase price limits established and published annually by the~~  
20 ~~Vermont Housing Finance Agency; or~~

\* \* \*

(43) “Connecting habitat” means land or water, or both, that links patches of habitat within a landscape, allowing the movement, migration, and dispersal of wildlife and plants and the functioning of ecological processes. A connecting habitat may include features including recreational trails and improvements constructed for farming, logging, or forestry purposes.

(44) “Forest block” means a contiguous area of forest in any stage of succession and not currently developed for nonforest use. A forest block may include features including recreational trails, wetlands, or other natural features that do not themselves possess tree cover and improvements constructed for farming, logging, or forestry purposes.

(45) “Habitat” means the physical and biological environment in which a particular species of plant or wildlife lives.

Sec. 8. 10 V.S.A. § 6086(a)(8) is amended to read:

(8) Ecosystem protection; scenic beauty; historic sites.

1            (A) Aesthetics. Will not have an undue adverse effect on the scenic  
2 or natural beauty of the area, aesthetics, or historic sites ~~or rare and~~  
3 ~~irreplaceable natural areas.~~

4            ~~(A)~~(B) Necessary wildlife habitat and endangered species. A permit  
5 will not be granted if it is demonstrated by any party opposing the applicant  
6 that a development or subdivision will destroy or significantly imperil  
7 necessary wildlife habitat or any endangered species; and:

8            (i) the economic, social, cultural, recreational, or other benefit to  
9 the public from the development or subdivision will not outweigh the  
10 economic, environmental, or recreational loss to the public from the  
11 destruction or imperilment of the habitat or species; ~~or~~

12            (ii) all feasible and reasonable means of preventing or lessening  
13 the destruction, diminution, or imperilment of the habitat or species have not  
14 been or will not continue to be applied; or

15            (iii) a reasonably acceptable alternative site is owned or controlled  
16 by the applicant ~~which~~ that would allow the development or subdivision to  
17 fulfill its intended purpose.

18            (C) Forest blocks and connecting habitat. Will not result in an undue  
19 adverse impact on forest blocks, connecting habitat, or rare and irreplaceable  
20 natural areas. If a project as proposed would result in an undue adverse

1 impact, a permit may only be granted if effects are avoided, minimized, and  
2 mitigated in accordance with rules adopted by the Board.

3 Sec. 9. CRITERION 8(C) RULEMAKING

4 (a) The Natural Resources Board (Board), in consultation with the Agency  
5 of Natural Resources, shall adopt rules to implement the requirements for the  
6 administration of 10 V.S.A. § 6086(a)(8)(C). Rules adopted by the Board shall  
7 include:

8 (1) How forest blocks and connecting habitat are further defined,  
9 including their size, location, and function, which may include:

10 (A) information that will be available to the public to determine  
11 where forest blocks and connecting habitat are located; or

12 (B) advisory mapping resources, how they will be made available,  
13 how they will be used, and how they will be updated.

14 (2) Standards establishing how impacts can be avoided, minimized, or  
15 mitigated, including how fragmentation of forest blocks or connecting habitat  
16 is avoided or minimized, which may include steps to promote proactive site  
17 design of buildings, roadways and driveways, utility location, and location  
18 relative to existing features such as roads, tree lines, and fence lines.

19 (3) Criteria to identify when a forest block or connecting habitat is  
20 eligible for mitigation.

1           (4) Standards for how impacts to a forest block or connecting habitat  
2           may be mitigated. Standards may include:

3                   (A) appropriate ratios for compensation;

4                   (B) appropriate forms of compensation such as conservation  
5                   easements, fee interests in land, and other forms of compensation; and

6                   (C) appropriate uses of on-site and off-site mitigation.

7           (b) The Board shall convene a working group to provide input to the rule  
8           prior to prefilng with the Interagency Committee on Administrative Rules.

9           The Board shall convene the working group on or before June 1, 2023.

10           (c) The Board shall file a final proposed rule with the Secretary of State  
11           and Legislative Committee on Administrative Rules on or before June 15,

18           natural resources throughout the State, including forest blocks, that may be  
19           relevant to the consideration of energy projects and projects subject to chapter  
20           151 of this title. The Center for Geographic Information shall be available to

1 provide assistance to the Secretary in carrying out the ~~GIS-based~~ resource  
2 mapping.

3 (b) The Secretary ~~of Natural Resources~~ shall consider the ~~GIS-based~~  
4 resource maps developed under subsection (a) of this section when providing  
5 evidence and recommendations to the Public Utility Commission under  
6 30 V.S.A. § 248(b)(5) and when commenting on or providing  
7 recommendations under chapter 151 of this title to District Commissions on
