- The Past, Present, and Future
- Questions

VGS at-a-Glance

54,000 customers | 130 employees Serving Addison, Chittenden, & Franklin Counties Over \$45 million invested in efficiency since 1993 7,000 + incentives generated over next 3 years 13,000 MTCO² eliminated over next 3 years 1st in the nation retail program for Renewable Natural Gas **Committed to 30% carbon reduction by 2030** Netzero by 2050

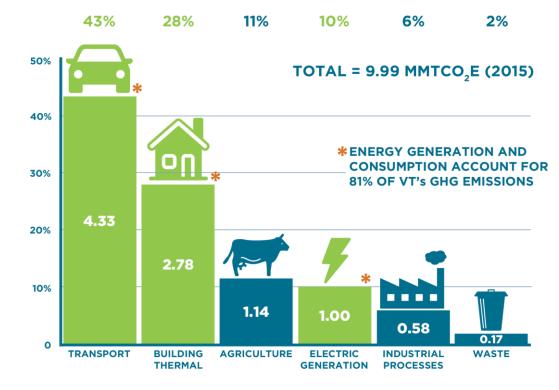

The Context....

- •Natural gas accounts for less than 7% of the state's overall GHG emissions AND
- •Has the potential to touch 54,000 customers
- •VGS embraces the impact and responsibility it has to help customers lower their carbon footprint
- •Most GHG emissions in VT's thermal sector come from the 6-out-of-10 homes that heat with oil or propane

Vermont's GHG emissions by sector

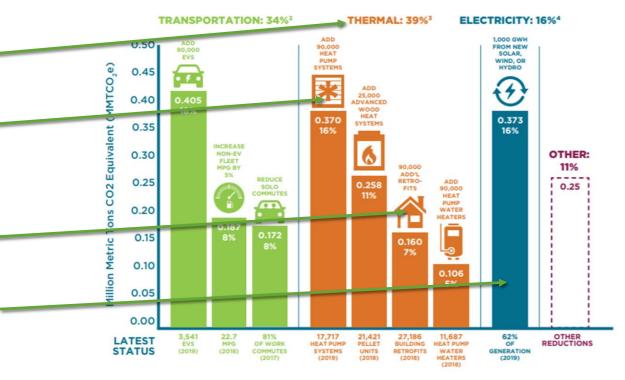

*2019 ENERGY ACTION NETWORK PROGRESS REPORT

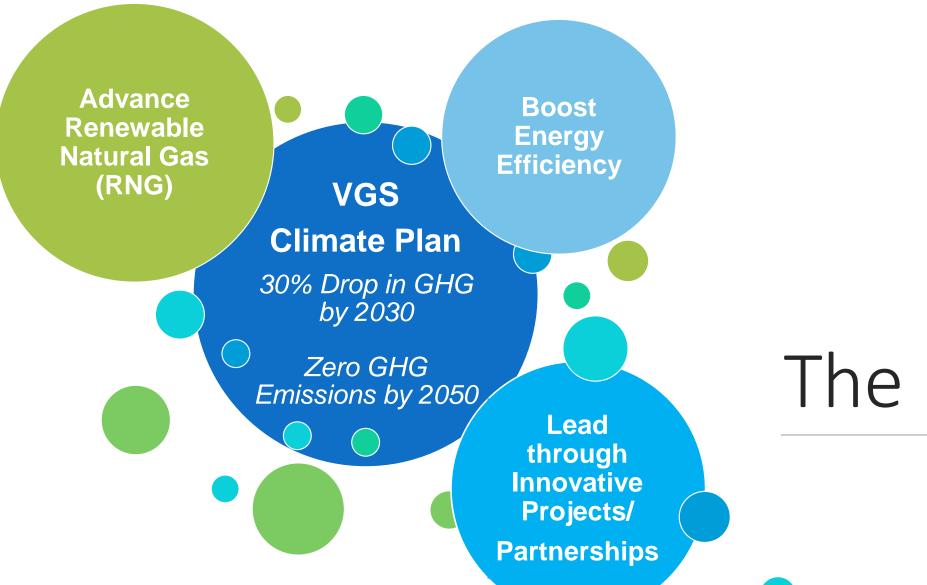

Uniquely Positioned to Decarbonize Thermal Sector

- VGS Service Team capable of installing and maintaining CCHPs
- VGS Energy Efficiency Team to boost home Weatherizations
- Non-pipe customer growth alternatives in partnership with electric utilities
- Other hydrogen, geothermal, district energy

2.3 MMTCO2e reduction by 2025 is required to meet the Paris Agreement¹

*2019 ENERGY ACTION NETWORK PROGRESS REPORT

The Plan

BTV Sound

- Partnership between Burlington International Airport and VGS
- Multi-year project
- 10% local match for soundproofing
- 2021 & 2022 are pilot years to develop and implement program
- Partnership with GMP, EVT, and BED

Townhouse-Condo

- Rental and owner
- Economies of scale for residential weatherization
- Vintages 1970-2000
- Multi-year opportunity
- Thermal, electric, water opportunities
- Moderate income

2021 Initiatives

Workforce Innovation

- Focused on weatherization workforce
- Collaboration with EVT, BED, and OEO's
- Connecting contractors with training partners

Residential Energy Services Focus for 2021

- Alignment and collaboration across EEUs
 - Weatherization program framework
 - Workforce development
 - Consumer & market research
- VGS customers served directly
- Increased trade ally engagement
- New product development -----
- Business process efficiencies
- Integrated Energy Services at VGS

0	0	┝

Weatherization

- Single/multi-family, condos, MFD 50 to 75% rebate
- 0 to 3.99% financing
- Low/mod income focus

Efficient Equipment

 Choice of rebates or no/low-rate financing

Heat recovery

Gas-fired heat

pumps

Pathways

Integrated controls

BED-VGS Net Zero

New Construction

- Custom analysis
- Partner with Efficiency Vermont

Commercial Energy Services Focus for 2021

- Key Account Management
- Proactive EEU & DU collaboration
- Automated Energy Star data upload
- New product development
- Increased trade ally engagement
- Leveraging VGS Sales, Service engagement
- Burlington 2030 District

Commercial Retrofit

- Project identification
- Coordinated approach with DUs, EEUs
- Engineering services provided for scoping
- Goal setting, energy planning

Efficient Equipment

- Rebates highest efficiency equipment
- Custom analysis

Dynamic ventilation Heat recovery Mid-stream incentives

New Construction

- Coordinate approach w/ DUs & EEUs
- Review plans and conduct energy analysis
- Provide design team with in-depth technical assistance

Low- and Moderate-Income Offerings

Low Income Assistance Program

• 20% discount on rates

For renters:

- VGS pays 75% of weatherization projects
- Savings from projects show up on tenant energy bills
- Apartments more comfortable and healthier

0% financing for all

Comprehensive audits are no cost to <u>all</u> customers

Comprehensive audits – if customer completes project and income qualified \$500 adder

VGS supports CVOEO's weatherization program.

• Pay 50% of all projects in our territory.

Mobile home program

- We pay 100% for income qualified
- 75% for everyone else

Condo offerings

• \$750 prescriptive
