*** Summary of Transportation Investments ***

Sec. 2. FISCAL YEAR 2023 TRANSPORTATION INVESTMENTS

INTENDED TO REDUCE TRANSPORTATION-RELATED GREENHOUSE GAS EMISSIONS, REDUCE FOSSIL FUEL USE, AND SAVE VERMONT HOUSEHOLDS MONEY

This act includes the State’s fiscal year 2023 transportation investments intended to reduce transportation-related greenhouse gas emissions, reduce fossil fuel use, and save Vermont households money in furtherance of the policies articulated in 19 V.S.A. § 10b and the goals of the Comprehensive Energy Plan and to satisfy the Executive and Legislative Branches’ commitments to the Paris Agreement climate goals. In fiscal year 2023, these efforts will include the following:

(1) Park and Ride Program. This act provides for a fiscal year expenditure of $4,043,060.00, which will fund one construction project to create a new park and ride facility; the design of one additional park and ride facility scheduled for construction in future fiscal years; the design of improvements to one additional park and ride facility; and paving projects for
existing park and ride facilities. This year’s Park and Ride Program will create
254 new State-owned spaces. Specific additions and improvements include:

(A) Berlin (Exit 6)—design for 62 spaces;

(B) Manchester—design for 50 new spaces; and

(C) Williston—construction of 142 new spaces.

year expenditure of $5,665,880.00, including local funds, which will fund
18 transportation alternatives construction projects and 24 transportation
alternatives design, right-of-way, or design and right-of-way projects. Of these
42 projects, 12 involve environmental mitigation related to clean water or
stormwater concerns, or both clean water and stormwater concerns, and 23
involve bicycle and pedestrian facilities. Projects are funded in Bennington,

miles, of every exit of the Dwight D. Eisenhower National System of Interstate
and Defense Highways within the State and 25 driving miles, down from
50 miles, of another level 3 EVSE charging port available to the public along a
State highway.

*** Bridge Formula Program; Off-System Bridges ***

Sec. 8. BRIDGE FORMULA PROGRAM; OFF-SYSTEM BRIDGES;

REPEAL

(a) Findings. The General Assembly finds that:

(1) the Infrastructure Investment and Jobs Act, Pub. L. No. 117-58
(IJJA) provides Vermont with $225,000,000.00 in Bridge Formula Program
funding for federal fiscal years 2022 through 2026;

(2) the Bridge Formula Program funds are to be used for the
preservation and replacement of bridges;

(3) as part of the Bridge Formula Program, states are required to allocate
a minimum of 15 percent of the funding to address off-system bridge needs,
where off-system bridges are those that are located along roadways off the
federal aid system;

(4) in Vermont, roadways off the federal aid system are primarily owned
and maintained by municipalities; and

(5) under the IIJA, the federal share of funding for municipally owned
off-system bridges is 100 percent.
(b) Priority implementation. In order to implement and allocate the Bridge Formula Program funding, the Agency of Transportation is directed to simultaneously:

(1)(A) Fund at 100 percent federal share the construction phase of all off-system bridges in the Fiscal Year 2023 Transportation Program for Town Highway Bridges that:

(i) were not authorized for federal funds for the construction phase of the pending project prior to the Fiscal Year 2023 Transportation Program; and

(ii) are either listed as a front-of-book project or development and evaluation (D&E) project in the Fiscal Year 2023 Transportation Program.

(B) The engineering (PE) and right-of-way (ROW) phases of projects to be funded at 100 percent federal share under subdivision (A) of this subdivision (1) shall continue to be funded at 80 percent federal, 10 percent State, and 10 percent municipal.

(2)(A) In the Fiscal Year 2023 through 2029 Transportation Programs, fund the construction phase of off-system covered bridges and off-system historic truss bridges within the Transportation Programs for Town Highway Bridges based on the prioritization of covered bridges and historic truss bridges under the prioritization process outlined in 19 V.S.A. § 10g(1) at 100 percent federal share.
(B) The engineering (PE) and right-of-way (ROW) phases of projects to be funded at 100 percent federal share under subdivision (A) of this subdivision (2) shall continue to be funded at 80 percent federal, 10 percent State, and 10 percent municipal.

(c) Secondary implementation. Should funding through the federal Bridge Formula Program remain available following the implementation delineated under subsection (b) of this section, town highway bridges shall be advanced based on the prioritization process outlined in 19 V.S.A. § 10g(l).

(d) Repeal. This section is repealed on October 1, 2029, at the conclusion of the authorized implementation period for the IIJA.

to determine and adjudicate all matters over which it is given jurisdiction. It
may render judgments and make orders and decrees. Whenever the Board is
sitting in a quasi-judicial capacity, it may issue subpoenas for the testimony of
witnesses or the production of evidence. The fees for travel and attendance of
witnesses shall be the same as for witnesses and officers appearing before a
Civil Division of the Superior Court.
(g) **Reports to the General Assembly.** From time to time, the Board may report to the General Assembly with suggestions of amendment to existing law or of new legislation as it deems necessary and any information concerning the companies, matters, and things under the jurisdiction of the Board and Agency that, in its opinion, will be of interest to the General Assembly.

(h) **Appeals from the Agency to the Board.** Unless otherwise provided by law, when an appeal is allowed from the Agency to the Board, the appeal shall be taken by filing a notice of appeal with the Secretary within 30 days of the date of the Agency decision from which the appeal is taken. *** Use of Sustainable Building Components ***

Sec. 54. FINDINGS

The General Assembly finds:
(1) With the passage of the Universal Recycling Law, the State of Vermont committed to providing convenient and efficient recycling services to all Vermonters.

(2) Efficient recycling systems save energy, conserve natural resources, and reduce greenhouse gas emissions.

(3) Recycled glass can currently be used in the following ways:

(A) as an aggregate to substitute for virgin or manufactured sand;

(B) ground and used as a pozzolan, which can be a partial substitute for Portland Cement in a concrete-mix design; or

(C) converted into a building component.

(4) Mining sand is a practice that is known to have an adverse effect on the environment.

(5) Fly ash, which is a pozzolan, is the byproduct of the burning of coal, and ground granulated blast-furnace slag, which is also a pozzolan, is the byproduct of steel manufacturing.

(6) The Agency of Transportation is already, pursuant to 2020 Acts and Resolves No. 121, Sec. 21, encouraged to, wherever practicable, use pozzolans and alternatives to Portland Cement as part of the concrete-mix design for all transportation infrastructure projects.
(7) Reusing recycled glass as a substitute for virgin or manufactured
sand conserves natural resources by reducing the need to mine or manufacture
sand.

(8) Using materials recycled in Vermont as a partial substitute for
aggregate and non-aggregate components in maintenance, construction, and
improvement projects could reduce greenhouse gas emissions and the State’s
carbon footprint by eliminating the need to transport recycled glass out of State
for further processing.

(9) Using materials recycled in Vermont as a partial substitute for
aggregate and non-aggregate components in maintenance, construction, and
improvements projects could provide an economic benefit to the local
recycling industry.

(10) There will continue to be advances in the availability and use of
sustainable building components, such as recycled materials and
manufacturing byproducts, in maintenance, construction, and improvement
projects.

Sec. 55. 19 V.S.A. § 10c(m) is amended to read:

(m) Recycled asphalt pavement (RAP) shall be used on all Agency paving
projects to the extent sources of quality RAP are available consistent with
producing quality hot mix asphalt. To that extent, the Agency shall define
paving project specifications and contract bid documents to allow the use of up
to 50 percent RAP. The Agency shall compare the cost-benefit of the State’s retaining the RAP versus the contractor’s retaining the RAP, and the Agency shall report to the House and Senate Committees on Transportation on the results of the comparison in the 2009 and 2010 legislative sessions.

[Repealed.]

Sec. 56. 19 V.S.A. § 10m is added to read:

§ 10m. STATEMENT OF POLICY; SUSTAINABLE BUILDING COMPONENTS; ANNUAL REPORT

(a) Policy. It shall be the State’s policy to use sustainable building components, including recycled materials and manufacturing byproducts, in all maintenance, construction, and improvement projects within the State’s Transportation Program to the extent that sources of quality sustainable building components are available and the use is consistent with producing transportation assets with a demonstrated evidence of long-term durability.

(b) Specifications. The Agency shall define its performance and related specifications and contract bid documents to allow and, as practicable, encourage the use of sustainable building components.

(c) Recycled asphalt pavement. Recycled asphalt pavement (RAP) shall be used on all Agency paving projects to the extent sources of RAP of a quality comparable to hot mix asphalt is available. The Agency shall define paving
project specifications and contract bid documents to allow for the use of up to
50 percent RAP.

(d) Research and testing. The Agency is encouraged to continue
researching, testing, and, wherever practicable, using sustainable building
components, pozzolans, and alternatives to Portland Cement as part of the
construction specifications for all transportation infrastructure projects.

(e) Annual report. The Agency, in consultation with the Recycled
Materials Working Group, shall, during each session of the General Assembly,
provide an oral report to the House and Senate Committees on Transportation
on the use of sustainable building components in maintenance, construction,
and improvement projects within the State’s Transportation Program.

that electric vehicle supply equipment EVSE. The agency or department may establish fees for electric vehicle charging at less than its costs, to cover its costs, or equal to the retail rate charged for the use of electric vehicle supply equipment EVSE available to the public. Fees collected under this section shall be deposited in the same fund or account within a fund from which the electric operating expense for the electric vehicle supply equipment EVSE originated.

(b) The Agency of Transportation and the Department of Buildings and General Services shall make staff available to standing committees of the General Assembly beginning on January 15 each year to give an oral presentation that provides an update on the State’s efforts to collect fees for the use of EVSE that is owned or controlled by the State pursuant to subsection (a) of this section and shall make available as part of that presentation a copy of any applicable fee schedules, along with an explanation as to whether or not the fee schedule accounts for expenses associated with the EVSE, including electricity costs.
