2 such uses.

3 (11) If it bears or contains any artificial flavoring, artificial coloring, or

9 Sec. 91. 18 V.S.A. § 4061 is amended to read:

10 § 4061. REGULATIONS OF PERMITS; INVESTIGATION

11 (a) Whenever the ~~Board~~ Department finds after investigation that the  
12 distribution in Vermont of any class of food may, by reason of contamination  
13 with ~~micro-organisms~~ microorganisms during manufacture, processing, or  
14 packing thereof in any locality, be injurious to health, and that the injurious  
15 nature cannot be adequately determined after the articles have entered  
16 commerce, it then, and in that case only, shall adopt rules providing for the  
17 issuance to manufacturers, processors, or packers of that class of food in that  
18 locality, of permits to which shall be attached such conditions governing the  
19 manufacture, processing, or packing of that class of food and for such  
20 temporary period of time, as may be necessary to protect the public health<sub>2</sub>,  
21 and after the effective date of the rules and during the temporary period, no

1 person shall introduce or deliver for introduction into commerce any such food

5 (b) The ~~Board~~ Department is authorized to suspend immediately upon  
6 notice any permit issued under authority of this section if it is found that any

8 suspended shall be privileged at any time to apply for the reinstatement of the  
9 permit and the ~~Board~~ Department shall, immediately after prompt hearing and

13 (c) Any officer or employee duly designated by the ~~Board~~ Department  
14 shall have access to any factory or establishment, the operator of which holds a  
15 permit from the ~~Board~~ Department, for the purpose of ascertaining whether or

17 for the inspection shall be grounds for suspension of the permit until the access  
18 is freely given by the operator.

4 substance is required in the production thereof or cannot be avoided by good  
5 manufacturing practice shall be deemed to be unsafe for purposes of the  
6 application of subdivision 4059(1)(B) of this title<sup>2</sup>, but when the substance is  
7 so required or cannot be so avoided, the ~~Board~~ Department shall adopt rules  
8 limiting the quantity therein or thereon to such extent as the ~~Board~~ Department  
9 finds necessary for the protection of public health, and any quantity exceeding  
10 the limits so fixed shall also be deemed to be unsafe for purposes of the  
11 application of subdivision 4059(1)(B) of this title. While such a rule is in  
12 effect limiting the quantity of any such substance in the case of any food, the  
13 food shall not, by reason of bearing or containing any added amount of the  
14 substance, be considered to be adulterated within the meaning of subdivision  
15 4059(1)(A) of this title. In determining the quantity of the added substance to  
16 be tolerated in or on different articles of food, the ~~Board~~ Department shall take  
17 into account the extent to which the use of the substance is required or cannot  
18 be avoided in the production of each such article and the other ways in which  
19 the consumer may be affected by the same or other poisonous or deleterious  
20 substances.

20 where any requirement of this subsection, as applied to any drug or device, is

1 not necessary for the protection of the public health, the ~~Board~~ Department  
2 shall adopt rules exempting the drug or device from the requirements.

3 (7) If it purports to be a drug the name of which is recognized in an

17 (a) The Board shall consist of five members who shall be appointed by the  
18 Governor with the advice and consent of the Senate. Appointments shall be for  
19 a term of three years and, in the event of death or resignation, successors shall  
20 serve out the term of the deceased or resigned member. The terms of members  
21 initially appointed shall be set so that not more than two terms shall expire in

1 the same year. Annually, in February after new appointments, the Governor  
2 shall designate a chair.

3 (b) In order for the Board to function in the best interests of the people of  
4 the State, Board members should have a knowledge of one or more of the  
5 following: geology, engineering, law, State and local government, economic  
6 development, environmental protection, regional planning, agriculture, or  
7 related fields of knowledge.

8 (c) A person in the employ of or holding any official relation to any  
9 company subject to the supervision of the Board, or engaged in the  
10 management of such company, or owning stock, bonds, or other securities  
11 thereof, or who is, in any manner, connected with the operation of such  
12 company in this State, shall not be a member of the Board.

13 (d) No member of the Board shall participate in any action of the Board that  
14 involves himself or herself or any person engaged in oil and gas development  
15 in which he or she has a financial interest.

16 (e) Each prospective appointee or member of the Board shall have the  
17 affirmative duty to disclose any actual or potential conflicts of interest to the  
18 other members of the Board.

19 ~~§ 505. AUTHORITY OF THE BOARD~~

20 (a) For the purposes of this chapter, the Board shall have authority over all  
21 lands and over all oil and gas resources. The Board shall prevent the waste of

1 oil and gas, promote conservation, protect correlative rights, and otherwise  
2 administer and enforce this chapter. In the event of a conflict, the duty to  
3 prevent waste is paramount.

4 (b) Without limiting its general authority, the Board may:

5 (1) require identification of ownership of oil and gas wells, producing  
6 leases, tanks, processing plants, structures, and facilities for the transportation  
7 or refining of oil and gas;

8 (2) require the making and filing of well logs, directional surveys, and  
9 reports on well location, drilling, and production; provided that all such  
10 records marked "confidential" shall be kept confidential for two years after  
11 their filing, unless the owner gives written permission to release them at an  
12 earlier date; provided, however, that the State Geologist is authorized access to  
13 this information. The Board may provide by rule for extension of the period of  
14 confidentiality for an additional period of one year upon written request of the  
15 owner and a showing of special circumstances requiring an extension;

16 (3) require the drilling, casing, installation of proper equipment and  
17 facilities, operating, and plugging of wells in such manner as to prevent:

18 (A) the escape of oil or gas out of one reservoir into another,

19 (B) the detrimental intrusion of water into an oil or gas reservoir

20 where that is avoidable by efficient operations,

1           (C) the pollution of fresh water supplies by oil, gas, or salt water, or  
2 other substances;

3           (D) blowouts, cave-ins, seepages, and fires;

4           (4) require the testing of wells used in connection with the production of  
5 oil and gas including production, injection, and disposal wells;

6           (5) require the licensing of oil and gas well drillers and the furnishing of  
7 a reasonable performance bond or other good and sufficient surety,  
8 conditioned for the performance of the duty to plug and restore the drilling site  
9 of each dry or abandoned well, and to repair each well causing waste or  
10 pollution if repair will prevent the waste or pollution;

11           (6) require that production from wells be separated into gaseous and  
12 liquid hydrocarbons, and that each be measured by means and upon standards  
13 that may be prescribed by the Board;

14           (7) require that wells be operated at efficient gas-oil or water-oil ratios or  
15 that production be limited from wells with inefficient gas-oil or water-oil  
16 ratios;

17           (8) require certificates of clearance in connection with the transportation  
18 or delivery of oil, gas, or product;

19           (9) require the metering or other measuring of oil, gas, or product;

20           (10) require that every person who produces, sells, purchases, acquires,  
21 stores, transports, refines, or processes oil or gas in this State keep complete

1 and accurate records of their quantities, which records shall be available for  
2 examination by the Board or its agents at all reasonable times;

3 (11) require the filing of reports, plats, and other data related to matters  
4 within the Board's jurisdiction;

5 (12) regulate the drilling, testing, equipping, completing, operating,  
6 producing, and plugging of wells, and all other operations for the production  
7 of oil or gas;

8 (13) regulate the stimulation and treatment of wells;

9 (14) regulate the spacing or locating of wells;

10 (15) regulate operations to increase ultimate recovery, such as cycling of  
11 gas, the maintenance of pressure, and the introduction of gas, water, or other  
12 substances into a reservoir;

13 (16) regulate the disposal of salt water and oil field wastes;

14 (17) determine the amount of oil or gas that may be produced without  
15 waste from any unit, reservoir, or field, and allocate the allowed production to  
16 and among the wells in such fields or reservoirs;

17 (18) permit by rule or order the flaring of gas produced from an oil well,  
18 pending the time when, with reasonable diligence, the gas can be sold or  
19 otherwise utilized on terms that are just and reasonable, if such flaring is in the  
20 public interest;

1 the Board and times within which requests for a rehearing must be made.

2 Upon request of an interested party, the Board shall hold a rehearing.

3 (e) The Board may enter orders based upon the reports and  
4 recommendations of its examiners.

5 (1) If an order grants the request of an applicant and no objection has  
6 been made or filed before or during the hearing before the examiner, the order  
7 shall be effective immediately.

8 (2) If an order denies the request of the applicant, in whole or in part, or  
9 if a timely protest to the granting of an application is made or filed, the order  
10 shall not become effective if a request for rehearing is made; and shall become  
11 effective only when either all interested parties have waived their right to  
12 rehearing or the time to request a rehearing has expired.

13 (d) After an order based on a hearing before an examiner has become  
14 effective, it shall have the same force and effect as if the hearing had been  
15 conducted before the Board. If a timely request for rehearing is made, the  
16 Board may deny rehearing or affirm, revoke, or modify the order.

17 § 512. HEARINGS CONDUCTED BY THE BOARD

18 (a) Notwithstanding any provision of this chapter or any rule of the Board,  
19 any hearing on any matter or proceeding may be held before the Board if the  
20 Board desires to hear the matter; or if the matter is initiated on the motion of  
21 the Board and is for the purpose of enforcing, amending, establishing, or

1     ~~revoking a statewide rule, regulation, or order; or if any person who may be~~  
2     ~~affected by the matter or proceeding files with the Board, more than 10 days~~  
3     ~~prior to the date set for the hearing, a written objection to the hearing before an~~  
4     ~~examiner.~~

5         ~~(b) The parties shall have the right to present additional testimony and~~  
6     ~~documentary evidence at any rehearing.~~

7     ~~§ 513. SUBPOENA~~

8         ~~(a) In any matter properly before it, the Board may compel the attendance~~  
9     ~~of witnesses and the production of documentary evidence. A party shall be~~  
10    ~~entitled to the issuance of subpoenas by making a written request. In all other~~  
11    ~~respects, the Vermont Rules of Civil Procedure shall apply to the proceedings~~  
12    ~~before the Board.~~

13         ~~(b) A person aggrieved by a subpoena issued by the Board may petition a~~  
14    ~~Superior judge, who may issue any order authorized in civil cases to protect a~~  
15    ~~party from improper discovery.~~

16         ~~(c) A person who disobeys a proper subpoena of the Board or refuses to~~  
17    ~~take an oath or affirmation properly required by the Board shall be liable to the~~  
18    ~~penalty and attachment provided in Title 12 for disobeying a judicial~~  
19    ~~subpoena.~~

20    ~~§ 514. APPEAL~~

1       ~~An appeal from a decision of the Board shall be to the Supreme Court. The~~  
2       ~~provisions of the Administrative Procedure Act shall apply to the extent they~~  
3       ~~are not inconsistent with the provisions of this chapter.~~

4       ~~§ 515. PERSONNEL~~

5       ~~Within the limits of legislative authorizations of positions and~~  
6       ~~appropriations of funds, the Board may employ an executive officer and other~~  
7       ~~personnel as it finds necessary in carrying out its duties, including engineering,~~  
8       ~~technical, and other consultants.~~

9       ~~§ 516. GOVERNMENTAL COOPERATION~~

10       ~~(a) Other departments and agencies of State government shall cooperate~~  
11       ~~with the Board and, as mutually agreeable, make available at cost data,~~  
12       ~~facilities, and personnel as may be needed to assist the Board in carrying out~~  
13       ~~its duties and functions. Geological services for the Board shall be provided by~~  
14       ~~or in cooperation with the State Geologist.~~

15       ~~(b) The Board, within the scope of its jurisdiction and authorization, may~~  
16       ~~cooperate with agencies of the federal government or other states to protect the~~  
17       ~~interests of the State in its oil and gas resources.~~

18       ~~§ 517. STANDARDS FOR RULEMAKING~~

19       ~~(a) Rulemaking power granted by this chapter shall be exercised in the~~  
20       ~~manner provided by the Vermont Administrative Procedure Act.~~

1 (b) Rules adopted under this chapter shall be consistent with the purposes of  
2 this chapter and within the intent of the Legislature.

3 (c) Rules adopted under this chapter concerning administrative procedures,  
4 such as rules of evidence during hearings, shall be in accordance with due  
5 process of law.

6 (d) The power under this chapter to establish fees by rule shall be construed  
7 to authorize only fees which are approximately sufficient to cover the costs  
8 associated with the program or part of the program intended to be financed by  
9 the fee.

10 Subchapter 3. Conservation of Oil and Gas

11 § 521. WASTE PROHIBITED

12 (a) The waste of oil and gas is prohibited.

13 (b) The Board shall limit the rate at which oil and gas may be produced  
14 from any field or reservoir to the most efficient rate consistent with  
15 economically feasible recovery as determined by the Board from available  
16 technical information. However, controlled well performance tests to  
17 determine maximum potential or maximum productivity may be performed  
18 periodically, when authorized by the Board.

19 (c) The Board shall allocate the allowable production among the several  
20 wells or producing properties in a field or reservoir so that each owner will  
21 have a reasonable opportunity to produce or receive his or her just and

1 equitable share of production. However, no allocation made by the Board shall  
2 be inconsistent with the prevention of waste.

3 § 522. DRILLING UNITS

4 (a) The Board shall regulate the spacing and location of oil and gas wells by  
5 the establishment of drilling units whenever reasonably necessary to prevent  
6 waste and protect correlative rights.

7 (b) The Board may establish an exploratory unit whenever a well is to be  
8 drilled to test for the occurrence of a reservoir. The order establishing the  
9 exploratory drilling unit shall specify the size and shape of the exploratory  
10 unit.

11 (1) To the extent that available geological and engineering information  
12 permit such a determination to be made, the exploratory unit shall be no  
13 smaller than the area expected to be drained by the exploratory well and shall  
14 be no larger than the expected total area of the reservoir.

15 (2) If insufficient information is available, the Board may establish a  
16 temporary unit to ensure orderly development of the reservoir pending the  
17 availability of additional information.

18 (c) The Board may establish the size and shape of development drilling  
19 units in known reservoirs based upon available geological and engineering  
20 data.

1           (1) The size of a development drilling unit shall be the area that can be  
2           efficiently and economically drained by one well. If insufficient information is  
3           available to permit such a determination to be made, the Board may establish a  
4           temporary development unit pending the availability of the necessary  
5           information. In order that all owners are accorded substantially equal  
6           treatment, development units shall be of approximately uniform size if  
7           consistent with available geological and engineering information.

8           (2) A well shall be located on a development drilling unit in accordance  
9           with a reasonably uniform field-wide spacing pattern, except for wells drilled  
10          or being drilled at the time a notice of hearing was issued. If the Board finds  
11          that a well drilled in a uniform spacing pattern would not be likely to produce  
12          in economic quantities, or that surface conditions would substantially add to  
13          the burden or hazard of drilling the well, or for other good cause, the well may  
14          be drilled at another location.

15          (3) An order establishing development drilling units for a reservoir shall  
16          cover all lands believed to be underlain by that reservoir, and may be modified  
17          by the Board from time to time based on additional geological and engineering  
18          information. The Board may grant exceptions to the size and shape of any  
19          development unit or units, or may change the size or shape of any  
20          development unit or units, or may permit the drilling of additional wells if

1 such actions are reasonably necessary to prevent waste or protect correlative  
2 rights.

3 (4) After the date of the notice of hearing called to establish  
4 development units in a reservoir, unless expressly authorized by the Board, no  
5 well shall be commenced into that reservoir until an order establishing  
6 development drilling units has been adopted.

7 ~~§ 523. POOLING~~

8 (a) When two or more separately owned tracts are embraced within an  
9 exploratory or development drilling unit, or when there are separately owned  
10 interests in all or part of a unit, the persons owning such tracts or interests may  
11 pool their tracts or interests. In the absence of voluntary pooling and upon  
12 application by any person owning a tract or interest within an exploratory or  
13 development drilling unit, the Board may enter an order pooling all tracts and  
14 interests within the unit.

15 (b) All operations, including the commencement, drilling, operation, or  
16 production of a well upon any portion of a pooled unit shall be deemed for all  
17 purposes the commencement, drilling, operation, or production of a well upon  
18 each separately owned tract or upon each separately owned interest in the unit  
19 by the several owners. That portion of the production allocated to a separately  
20 owned tract or separately owned interest included in a unit shall be deemed to  
21 have been produced from such tract or interest.

1       (c) Each pooling order of the Board shall specify which owner will drill,  
2       complete, and operate a well on the pooled unit. All owners shall share in the  
3       reasonable costs of drilling, completing, and operating the well. Any owner  
4       whose tract or interest has been involuntarily pooled shall be permitted, at his  
5       or her option, to pay his or her share of costs out of production, plus a  
6       supervision, risk, and interest assessment not to exceed 300 percent of that  
7       owner's share of the costs.

8       (d) Production and costs associated with a pooled unit shall be allocated  
9       among the owners in the same proportion each owner's acreage in the unit  
10      bears to the total acreage in the unit or in any other manner agreed to by the  
11      owners and approved by the Board.

12      § 524. ANTITRUST IMMUNITY FOR VOLUNTARY UNITS

13      An agreement for the unit or cooperative development or operation of a  
14      field, reservoir, or part thereof, may be submitted to the Board for approval as  
15      being in the public interest or reasonably necessary to prevent waste or to  
16      protect correlative rights. For the purposes of this chapter, approval by the  
17      Board shall constitute a complete defense to any suit charging violation of any  
18      statute of the State relating to trust and monopolies on account of the  
19      agreement or on account of operations conducted pursuant to such agreement.  
20      The failure to submit such an agreement to the Board for approval shall not for  
21      that reason imply or constitute evidence that the agreement or operations

1 conducted pursuant thereto are in violation of laws relating to trusts and  
2 monopolies.

3 ~~§ 525. FIELD-WIDE UNITIZATION~~

4 (a) ~~In addition to the authority for the establishment of drilling units for~~  
5 ~~individual wells granted in section 522 of this title, the Board may establish~~  
6 ~~field-wide units composed of one or more reservoirs or parts thereof and~~  
7 ~~including one or more wells. After adequate geological, engineering, and other~~  
8 ~~information has been required through development of the reservoir, the~~  
9 ~~Board, on its own motion or upon application of any owner, shall hold a~~  
10 ~~hearing to consider the need for cooperative development or operation as a~~  
11 ~~field-wide unit.~~

12 (b) ~~The Board shall enter an order providing for the unit development or~~  
13 ~~operation of a reservoir or part thereof if it finds that:~~

14 (1) ~~such operation will increase the ultimate recovery of oil or gas; and~~

15 (2) ~~the value of the estimated additional recovery of oil and gas exceeds~~  
16 ~~the estimated additional cost incident to conducting such operations; and~~

17 (3) ~~the development or operation is reasonably necessary to prevent~~  
18 ~~waste.~~

19 (c) ~~The order shall be upon terms and conditions that are just and~~  
20 ~~reasonable and shall prescribe a plan for unit operations that shall include:~~

1           ~~(1) a description of the reservoir, reservoirs, or parts thereof to be~~  
2           ~~operated as a unit, termed the unitized area;~~

3           ~~(2) a statement of the nature of the operations contemplated;~~

4           ~~(3) an allocation of production and costs to the separately owned tracts~~  
5           ~~in the unitized area. The allocation shall be in accord with the agreement, if~~  
6           ~~any, of the interested parties. If there is no such agreement, production shall be~~  
7           ~~allocated in a manner calculated to ensure that each owner within the unitized~~  
8           ~~area receives his or her just and equitable share of production. Costs shall be~~  
9           ~~allocated on a just and reasonable basis;~~

10           ~~(4) a provision, if necessary, permitting any owner who has involuntarily~~  
11           ~~unitized to pay his or her share of costs out of his or her share of production,~~  
12           ~~plus a supervision, risk, and interest assessment not to exceed 300 percent of~~  
13           ~~that owner's share of the costs;~~

14           ~~(5) a provision for the supervision and conduct of the unit operations, in~~  
15           ~~respect to which each owner shall have a vote with a value corresponding to~~  
16           ~~the percentage of the costs of unit operations chargeable against its interest;~~

17           ~~(6) the time when the unit operations shall commence and the manner in~~  
18           ~~which, and the circumstances under which, the unit operations shall terminate;~~  
19           ~~and~~

20           ~~(7) such additional provisions as are found to be appropriate for carrying~~  
21           ~~out the unit operations.~~

1           ~~(d) No order of the Board providing for unit operations shall become~~  
2           ~~effective until the plan for unit operations approved by the Board:~~

3                     ~~(1) has been approved in writing by the owners who, under the Board's~~  
4           ~~order, will be required to pay at least 60 percent of the costs of the unit~~  
5           ~~operation, and also by those persons who own at least 60 percent of the~~  
6           ~~royalties; and~~

7                     ~~(2) the Board has made a finding, either in the order providing for unit~~  
8           ~~operations or in a supplemental order, that the plan for unit operations has been~~  
9           ~~approved.~~

10           ~~(e) If the plan for unit operations has not been approved at the time the~~  
11           ~~order providing for unit operations is made, the Board shall upon application~~  
12           ~~and notice hold supplemental hearings to determine if and when the plan for~~  
13           ~~unit operations has been approved. If the persons owning required percentages~~  
14           ~~of interest in the unitized area do not approve the plan for unit operations~~  
15           ~~within a period of six months from the date on which the order providing for~~  
16           ~~unit operations is made, or within such additional period or periods of time as~~  
17           ~~the Board prescribes, the order will be unenforceable and shall be withdrawn~~  
18           ~~by the Board.~~

19           ~~(f) An order providing for unit operations may be amended by Board order~~  
20           ~~made in the same manner and subject to the same conditions as an original~~  
21           ~~order providing for unit operations, provided:~~

1           ~~(1) if the amendment affects only the rights and interests of the owners,~~  
2           ~~the approval of the amendment by the owners of interests free of cost shall not~~  
3           ~~be required; and~~

4           ~~(2) the order of amendment shall not change the percentage established~~  
5           ~~in the original order for the allocation of oil and gas as established for any~~  
6           ~~separately owned tract, except with the consent of all persons owning oil and~~  
7           ~~gas rights in the tract; and~~

8           ~~(3) the order of amendment shall not change the percentage established~~  
9           ~~in the original order for the allocation of cost as established for any separately~~  
10          ~~owned tract, except with the consent of all owners in the tract.~~

11          ~~(g) The Board may order the unit operation of a reservoir or parts thereof~~  
12          ~~that include a unitized area established by a previous order of the Board. In~~  
13          ~~providing for the allocation of unit production, the order shall first treat the~~  
14          ~~unitized area previously established as a single tract. The portion of the new~~  
15          ~~unit production shall then be allocated among the separately owned tracts~~  
16          ~~included in such previously established unit area in the same proportions as~~  
17          ~~those specified in the previous order.~~

18          ~~(h) All operations, including the commencement, drilling, or operation of a~~  
19          ~~well under any portion of the unit area shall be deemed for all purposes the~~  
20          ~~conduct of that operation upon each separately owned tract in the unit area by~~  
21          ~~the several owners. The portion of the unit production allocated to a separately~~

1 owned tract in a unit area shall be deemed, for all purposes, to have actually  
2 been produced from the tract by a well drilled on it. Operations conducted  
3 pursuant to an order of the Board providing for unit operations shall constitute  
4 fulfillment of all the express or implied obligations of each lease or contract  
5 covering lands in the unit area to the extent that compliance with those  
6 obligations cannot be had because of the order of the Board.

7 (i) The portion of the unit production allocated to any tract, and the  
8 proceeds from its sale, shall be the property and income of the several persons  
9 to whom, or to whose credit, they are allocated or payable under the order  
10 providing for unit operations.

11 (j) No division order or other contract relating to the sale or purchase of  
12 production from a separately owned tract shall be terminated by the order  
13 providing for unit operations, but shall remain in force and apply to oil and gas  
14 allocated to that tract until terminated in accordance with the provisions of the  
15 order.

16 (k) Except to the extent that the parties affected so agree, no order  
17 providing for unit operations shall be construed to result in a transfer of all or  
18 any part of the title of any person to the oil and gas rights in any tract in the  
19 unit area. All property, whether real or personal, that may be acquired in the  
20 conduct of unit operations shall be acquired for the account of the owners

1 within the unit area, and shall be the property of those owners in the  
2 proportion that the expenses of unit operations are charged.

3 ~~§ 526. RATABLE TAKES REQUIRED~~

4 (a) Oil or gas produced in this State shall be purchased and taken without  
5 discrimination between producers in the same reservoir. After notice and  
6 hearing, the Board may relieve any person of his or her duty to purchase and  
7 take oil or gas produced in this State without discrimination, if the oil and gas  
8 is of inferior quality or for other good cause.

9 (b) The provisions of this section do not apply:

10 (1) to any wells or reservoirs used for storage and withdrawal from  
11 storage of oil or gas originally produced in compliance with this chapter and  
12 the rules of the Board;

13 (2) to purchases of gas produced from oil wells; or

14 (3) to any other purchases or production to which the Board finds, after  
15 notice and hearing, the application of this section would be unjust or  
16 unreasonable.

17 Subchapter 4. State Oil and Gas Leases

18 ~~§ 531. MANAGEMENT OF STATE OIL AND GAS RESOURCES~~

19 (a) The management of State oil and gas resources shall be undertaken to  
20 accomplish the following goals:

1           ~~(1) provide for the timely leasing, exploration, discovery, assessment,~~  
2           ~~and development of oil and gas resources which may be found on State lands;~~

3           ~~(2) provide the State and its citizens an adequate economic return on~~  
4           ~~State oil and gas resources if discovered in commercially valuable quantities;~~

5           ~~(3) encourage competition among oil and gas developers by the use of~~  
6           ~~appropriate competitive bidding and leasing procedures in the granting of~~  
7           ~~exploration and development rights;~~

8           ~~(4) provide for a program of development that will facilitate sound~~  
9           ~~planning by both developers and all levels of government;~~

10          ~~(5) give due consideration to the protection of the State's diverse natural,~~  
11          ~~cultural, and social resources.~~

12          ~~(b) Each State land manager shall be responsible for management of the~~  
13          ~~leasing, exploration, and development of the oil and gas resources found on~~  
14          ~~State lands under the manager's primary jurisdiction.~~

15          ~~(c) Each State land manager shall adopt a written statement of objectives,~~  
16          ~~policies, procedures, and a program to guide the development of the State's oil~~  
17          ~~and gas resources. Biennially, each State land manager and the Board shall~~  
18          ~~prepare and submit to the General Assembly a proposed four-year oil and gas~~  
19          ~~leasing and management program and a report on all leasing and management~~  
20          ~~activities undertaken during the preceding two years. The provisions of 2~~  
21          ~~V.S.A. § 20(d) (expiration of required reports) shall not apply to the report to~~

1 be made under this subsection. Managers may elect to collaborate on a joint  
2 program of planning, leasing, and reporting to fulfill the requirements of this  
3 section.

4 ~~§ 532. STATE OIL AND GAS LEASES AUTHORIZED~~

5 (a) ~~State land managers may execute oil and gas leases and other related~~  
6 ~~contracts for lands under their jurisdiction. The leases and contracts shall be~~  
7 ~~upon terms and conditions which the manager finds most beneficial to the~~  
8 ~~interests of the State.~~

9 (b) ~~When a State land manager proposes to lease State lands for oil and gas~~  
10 ~~purposes, he or she shall notify the Board and forward a copy of the proposed~~  
11 ~~lease. The Board shall review and comment on the terms of the proposed lease~~  
12 ~~and shall specify additional terms and conditions necessary or advisable to~~  
13 ~~accomplish the purposes of this chapter.~~

14 (c) ~~Each State land manager shall require, as a condition to the issuance of~~  
15 ~~any oil and gas lease that the lessee make available to the Board all exploration~~  
16 ~~and production information, logs, and records resulting from operations under~~  
17 ~~the lease. Such information shall be held confidential; provided, however, that~~  
18 ~~the State Geologist shall have access to this information.~~

19 (d) ~~State oil and gas leases may be assigned only with the written consent~~  
20 ~~and approval of the State land manager having jurisdiction.~~

1           ~~(e) All proceeds from State leases or other related contracts shall be paid~~  
2           ~~into the General Fund.~~

3           ~~§ 533. NOTICE OF INTENTION TO LEASE STATE LANDS~~

4           ~~(a) At least 30 days before he or she intends to lease State lands, the State~~  
5           ~~land manager shall give public notice of his or her intention by commencing~~  
6           ~~publication in two newspapers of general circulation, one in Montpelier and~~  
7           ~~one where the lands or the greater portion thereof are situated.~~

8           ~~(b) Publication shall be made in newspapers of record approved by the~~  
9           ~~Secretary of State.~~

10           ~~(1) If the notice is published in a daily newspaper there shall be at least~~  
11           ~~five days from the first to the last day of publication, both days included; and~~  
12           ~~if a weekly newspaper, the notice shall appear on at least two different days of~~  
13           ~~publication.~~

14           ~~(2) In addition to the publication required by subdivision (1) of this~~  
15           ~~subsection, the notice shall be published on a weekly basis in selected~~  
16           ~~newspapers in the State as determined by the Secretary of State.~~

17           ~~(c) The notice shall include a description of the State lands, either as a tract~~  
18           ~~or by parcels, and a statement that the terms and conditions of the offered lease~~  
19           ~~may be obtained at a designated office of the Board.~~

1     ~~§ 534. GAS PRODUCED FROM STATE LANDS~~

2           ~~(a) All State oil and gas leases shall provide that the Board may require the~~  
3     ~~lessee to dedicate all the natural gas produced from State lands for the use and~~  
4     ~~benefit of the people of the State.~~

5           ~~(b) If the Board determines that it would benefit the people of the State to~~  
6     ~~so dedicate the natural gas, the Board may arrange for the sale of natural gas~~  
7     ~~for the use of the people of the State, or arrange for the exchange of the natural~~  
8     ~~gas produced with producers of natural gas from other lands if the exchange~~  
9     ~~will benefit the people of the State.~~

10          ~~(c) If the Board determines the dedication would not be in the public~~  
11     ~~interest, or would cause waste, or would unreasonably deny the lessee the~~  
12     ~~opportunity to economically market the natural gas, it may waive dedication.~~

13     ~~§ 535. STATE RESERVATION OF OIL, GAS, AND MINERALS~~

14           ~~Each agricultural, timber, or other lease of any surface interest in state~~  
15     ~~lands, and each mineral lease not for oil and gas purposes, shall reserve to the~~  
16     ~~State all oil, gas, and other minerals not intended to be leased, and the right to~~  
17     ~~drill and operate oil and gas wells on the premises and the easement, use, and~~  
18     ~~right of way to enter upon and fully enjoy the rights reserved in this section.~~

19                           ~~Subchapter 5. Permits, Reports, and Notices~~

20     ~~§ 541. DRILLING PERMITS~~

1           (a) ~~No person shall commence drilling a well for oil or gas exploration,~~  
2           ~~development, production, or related purposes without a permit issued by the~~  
3           ~~Board.~~

4           (b) ~~An application for a permit shall be filed with the Board in the manner~~  
5           ~~and form prescribed by rule, and shall include at least the following:~~

6                   (1) ~~the applicant's name, address, address of each applicant's offices~~  
7                   ~~within the State and, where the applicant is not a natural person, the form,~~  
8                   ~~date, and place of formation of the applicant;~~

9                   (2) ~~a plat prepared by a competent engineer or certified professional~~  
10                  ~~surveyor showing the county, town, and tract of land on which the proposed~~  
11                  ~~well is to be located and an exact location of the well site established in~~  
12                  ~~accordance with the Vermont coordinate system;~~

13                  (3) ~~the proposed angle, direction, and depth of the well if the well is to~~  
14                  ~~be substantially deviated from a vertical course;~~

15                  (4) ~~a fee, based on the depth to be drilled, as prescribed by rule of the~~  
16                  ~~Board;~~

17                  (5) ~~a permit under 10 V.S.A. chapter 151 (Act 250). In the case of an~~  
18                  ~~application for a permit to drill on lands leased from the State, the State land~~  
19                  ~~manager shall be a co-applicant with the lessee for the permit; provided,~~  
20                  ~~however, that the Board shall be considered a party for purposes of any~~  
21                  ~~hearing or appeal.~~

1       ~~(c) The Board may conduct investigations it considers necessary to verify~~  
2       ~~information contained in the application. The applicant shall grant the Board,~~  
3       ~~its employees, and agents permission to enter upon the site for this purpose.~~

4       ~~(d) Within 30 days of the granting of a drilling permit by the Board, the~~  
5       ~~permit shall be filed by the applicant for recording in the land records of the~~  
6       ~~town in which the proposed well is to be located. Failure to comply with this~~  
7       ~~section shall be cause for revocation of a drilling permit.~~

8       ~~(e) Drilling permits shall expire one year after issuance unless drilling~~  
9       ~~operations are commenced within such time and prosecuted with due~~  
10       ~~diligence. At least 15 days prior to the commencement of drilling operations,~~  
11       ~~every person granted permission to drill a well pursuant to this section shall~~  
12       ~~give written notice by certified mail to the Board, local agencies, and the~~  
13       ~~surface landowner affected.~~

14       ~~§ 542. DRILLING REPORTS~~

15       ~~It shall be the duty of the well operator to keep a geologic log prepared by a~~  
16       ~~competent petroleum geologist showing the character, thickness, and depth of~~  
17       ~~the formations encountered in the drilling of a well and the depths at which all~~  
18       ~~oil, gas, water, or other substances are encountered. The log shall show~~  
19       ~~whether the well is productive of oil, gas, water, or other substances, the~~  
20       ~~quantities thereof, and the initial pressure and production measured over a~~  
21       ~~period of at least 48 hours. A copy of the well log shall be furnished to the~~

1 Board within 30 days of the completion of the well. Such reports shall be held  
2 confidential; provided, however, that the State Geologist shall have access to  
3 this information.

4 ~~§ 543. REPORTS OF OIL AND GAS OPERATIONS~~

5 (a) ~~The owner, lessee, agent, employee, or other person in charge of any oil~~  
6 ~~and gas well within the State shall forward to the Board, in the manner and~~  
7 ~~form prescribed by the rules of the Board, a report showing the character of~~  
8 ~~the well, method of operation, and total production for the preceding calendar~~  
9 ~~year. Such reports shall be held confidential.~~

10 (b) ~~The Board may conduct investigations it considers necessary to verify~~  
11 ~~compliance with this section. The operator shall grant the Board, its~~  
12 ~~employees, and agents permission to enter upon the site for this purpose.~~

13 (c) ~~Statistical bulletins based on these reports shall be compiled by the~~  
14 ~~Board to show, for the State as a whole, and separately for each town, the~~  
15 ~~totals of oil and gas produced, provided that, in order not to disclose the~~  
16 ~~production of any one operator, no production figure shall be published that~~  
17 ~~represents the production of less than three operators. If necessary to maintain~~  
18 ~~confidentiality, production figures for two or more towns shall be combined.~~

19 ~~§ 544. ABANDONMENT OF WELLS~~

20 (a) ~~Prior to the abandonment of any well drilled under a permit issued by~~  
21 ~~the Board, it shall be the duty of the owner or operator of the well to plug it so~~

1 as to completely shut off and prevent the escape of all oil, gas, salt water, or  
2 other substances that might pollute ground or surface waters.

3 (b) The operator of the well shall notify the Board in writing of his or her  
4 intention to plug and abandon, identifying the well and fixing the time when  
5 the work of plugging the well will be commenced so that a representative of  
6 the Board may be present.

7 (c) When plugging and restoration and reclamation of the drill site have  
8 been completed, a certificate of abandonment shall be filed in a form and  
9 manner prescribed by the Board.

10 (d) If a person fails to produce and sell, or to produce for his or her own  
11 purposes, oil or gas from a completed well for a period of more than 24  
12 months, there shall be a rebuttable presumption that the person intends to  
13 abandon the well and any well equipment situated on the premises. However,  
14 this presumption shall not arise:

15 (1) concerning leases for gas storage purposes; or

16 (2) where any shut-in royalty, flat rate well rental, delay rental, or other  
17 similar payment designed to keep an oil and gas lease in effect or to extend its  
18 term has been paid or tendered; or

19 (3) where the failure to produce and sell is the result of any act of  
20 neglect of a third party beyond the control of the owner or operator of the  
21 well; or

1           ~~(4) when a delay in excess of 24 months occurs because of any inability~~  
2           ~~to sell, deliver, or otherwise tender any oil or gas product.~~

3           ~~§ 545. CONVEYANCE AND ACQUISITION OF OIL AND GAS~~

4           ~~INTERESTS~~

5           ~~(a) An oil and gas interest shall be deemed to mean the interest that is~~  
6           ~~created by an instrument transferring, either by grant, reservation, assignment,~~  
7           ~~or otherwise, an interest of any kind in oil and gas, and other minerals if~~  
8           ~~included in an interest in oil and gas.~~

9           ~~(b) An instrument transferring an interest in oil and gas, as described in~~  
10           ~~subsection (a) of this section, shall identify the type of interest transferred in~~  
11           ~~bold face type at the top of the instrument. For example:~~

12           ~~(1) LEASE OIL AND GAS ONLY;~~

13           ~~(2) LEASE OIL, GAS, AND OTHER MINERALS;~~

14           ~~(3) DEED OIL AND GAS ONLY;~~

15           ~~(4) DEED OIL, GAS, AND OTHER MINERALS.~~

16           ~~(c) The owner or operator of any well shall notify the Board and all royalty~~  
17           ~~owners within 30 days of the sale, assignment, transfer, conveyance, or~~  
18           ~~exchange by the owner or operator of such well and the land, owned or leased,~~  
19           ~~upon which the well is located.~~

20           ~~(d) Every person who acquires the ownership or operation of any well,~~  
21           ~~whether by purchase, assignment, transfer, conveyance, exchange, or otherwise~~

1 shall notify the Board and all royalty owners in writing within 60 days of the  
2 acquisition.

3 (e) The notice required by this section shall be given in the form and  
4 manner prescribed by the Board. The Board shall compile and maintain  
5 current records of producing wells and their ownership and location. The State  
6 Geologist shall have access to this information.

7 Subchapter 6. Violations, Enforcement, and Penalties

8 ~~§ 551. ILLEGAL OIL, GAS, AND PRODUCT~~

9 (a) ~~The production, sale, acquisition, transportation, refining, processing, or~~  
10 ~~handling of illegal oil, gas, or product is prohibited. However, no penalty shall~~  
11 ~~be imposed upon a person who sells, purchases, acquires, transports, refines,~~  
12 ~~processes, or handles illegal oil, gas, or product, unless that person:~~

13 (1) ~~knows, or is put on notice of facts indicating that illegal oil, gas, or~~  
14 ~~product is involved; or~~

15 (2) ~~fails to obtain a certificate of clearance with respect to such oil, gas,~~  
16 ~~or product if prescribed by order of the Board; or~~

17 (3) ~~fails to follow any other method prescribed by an order of the Board~~  
18 ~~for the identification of such oil, gas, or product.~~

19 (b) ~~The payment of any penalty or fine shall not operate to legalize any~~
