An act relating to banning the use of neonicotinoid pesticides

It is hereby enacted by the General Assembly of the State of Vermont:

Sec. 1. FINDINGS

The General Assembly finds that:

1. Wild and managed pollinators are essential to the health and vitality of Vermont’s agricultural economy, environment, and ecosystems. According to the Department of Fish and Wildlife (DFW), between 60 and 80 percent of the State’s wild plants depend on pollinators to reproduce.

2. Vermont is home to thousands of pollinators, including more than 300 native bee species. Many pollinator species are in decline or have disappeared from Vermont, including three bee species that the State lists as endangered. The Vermont Center for Ecostudies and DFW’s State of Bees 2022 Report concludes that at least 55 of Vermont’s native bee species need significant conservation action.

3. Neonicotinoids are a class of neurotoxic, systemic insecticides that are extremely toxic to bees and other pollinators. Neonicotinoids are the most widely used class of insecticides in the world and include imidacloprid, clothianidin, thiamethoxam, acetamiprid, dinotefuran, thiacloprid, and nithiazine.

4. Among other uses, neonicotinoids are commonly applied to crop seeds as a prophylactic treatment. More than 90 percent of neonicotinoids
applied to treated seeds move into soil, water, and nontarget plants. According to the Agency of Agriculture, Food and Markets, at least 1197.66 tons of seeds sold in Vermont in 2022 were treated with a neonicotinoid product.

(5) Integrated pest management is a pest management technique that protects public health, the environment, and agricultural productivity by prioritizing nonchemical pest management techniques. Under integrated pest management, pesticides are a measure of last resort. According to the European Academies Science Advisory Council, neonicotinoid seed treatments are incompatible with integrated pest management.

(6) A 2020 Cornell University report that analyzed more than 1,100 peer-reviewed studies found that neonicotinoid corn and soybean seed treatments pose substantial risks to bees and other pollinators but provide no overall net income benefits to farms. DFW similarly recognizes that neonicotinoid use contributes to declining pollinator populations.

(7) A 2014 peer-reviewed study conducted by the Harvard School of Public Health and published in the journal *Bulletin of Insectology* concluded that sublethal exposure to neonicotinoids is likely to be the main culprit for the occurrence of colony collapse disorder in honey bees.

(8) A 2020 peer-reviewed study published in the journal *Nature Sustainability* found that increased neonicotinoid use in the United States between 2008 and 2014 led to statistically significant reductions in bird
biodiversity, particularly among insectivorous and grassland birds.

(9) A 2022 peer-reviewed study published in the journal *Environmental Science and Technology* found neonicotinoids in 95 percent of the 171 pregnant women who participated in the study. Similarly, a 2019 peer-reviewed study published in the journal *Environmental Research* found that 49.1 percent of the U.S. general population had recently been exposed to neonicotinoids.

(10) The European Commission and the provinces of Quebec and Ontario have implemented significant prohibitions on the use of neonicotinoids.

(11) The New York General Assembly passed legislation that prohibits the sale or use of corn, soybean, and wheat seed treated with imidacloprid, clothianidin, thiamethoxam, dinofuran, or acetamiprid. The same legislation prohibits the nonagricultural application of imidacloprid, clothianidin, thiamethoxam, dinofuran, or acetamiprid to outdoor ornamental plants and turf.

Sec. 2. 6 V.S.A. § 1101 is amended to read:

§ 1101. DEFINITIONS

As used in this chapter unless the context clearly requires otherwise:

(1) “Secretary” shall have has the same meaning stated in subdivision 911(4) of this title.
(2) “Cumulative” when used in reference to a substance means that the substance so designated has been demonstrated to increase twofold or more in concentration if ingested or absorbed by successive life forms.

(3) “Dealer or pesticide dealer” means any person who regularly sells pesticides in the course of business, but not including a casual sale.

(4) “Economic poison” shall have the same meaning stated in subdivision 911(5) of this title.

(5) “Pest” means any insect, rodent, nematode, fungus, weed, or any other form of terrestrial or aquatic plant or animal life or viruses, bacteria, or other microorganisms that the Secretary declares as being injurious to health or environment. “Pest shall” does not mean any viruses, bacteria, or other microorganisms on or in living humans or other living animals.

(6) “Pesticide” for the purposes of this chapter shall be used interchangeably with “economic poison.”

(7) “Treated article” means a pesticide or class of pesticides exempt under 40 C.F.R. § 152.25(a) from regulation under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. § 136-136y.

(8) “Neonicotinoid pesticide” means any economic poison containing a chemical belonging to the neonicotinoid class of chemicals.

(9) “Neonicotinoid treated article seeds” are treated article seeds that are treated or coated with a neonicotinoid pesticide.
(10) “Agricultural commodity” means any food in its raw or natural state, including all fruits or vegetables that are washed, colored, or otherwise treated in their unpeeled natural form prior to marketing.

(11) “Agricultural emergency” means an occurrence of any pest that presents an imminent risk of significant harm, injury, or loss to agricultural crops.

(12) “Bloom” means the period from the onset of flowering or inflorescence until petal fall is complete.

(13) “Crop group” means the groupings of agricultural commodities specified in 40 C.F.R. § 180.41(c) (2023).

(14) “Environmental emergency” means an occurrence of any pest that presents a significant risk of harm or injury to the environment, or significant harm, injury, or loss to agricultural crops, including any exotic or foreign pest that may need preventative quarantine measures to avert or prevent that risk, as determined by the Secretary of Agriculture, Food and Markets.

(15) “Ornamental plants” mean perennials, annuals, and groundcover purposefully planted for aesthetic reasons.

Sec. 3. 6 V.S.A. § 1105b is added to read:

§ 1105b. USE AND SALE OF NEONICOTINOID TREATED ARTICLE SEEDS

(a) No person shall sell, offer for sale or use, distribute, or use any
neonicotinoid treated article seed for soybeans or for any crop in the cereal
grains crop group (crop groups 15, 15-22, 16, and 16-22).

(b) The Secretary of Agriculture, Food and Markets, after consultation with
the Secretary of Natural Resources, may issue a written exemption order to
suspend the provisions of subsection (a) of this section, only if the following
conditions are met:

(1) the person seeking the exemption order shall complete an integrated
pest management training, provided by the Secretary or an approved third
party;

(2) the person seeking the exemption order shall complete a pest risk
assessment and submit a pest risk assessment report to the Secretary;

(3) any seeds authorized for use under the exemption order shall be
planted only on the property or properties identified in the pest risk assessment
report; and

(4) the persons seeking the exemption order shall maintain current
records of the pest risk assessment report and records of when treated seeds are
planted, both of which shall be subject to review upon request by the Secretary.

(c) A written exemption order issued under subsection (b) of this section
shall:

(1) not be valid for more than one year; and

(2) specify the types of neonicotinoid treated article seeds to which the
exemption order applies, the date on which the exemption order takes effect, and the exemption order’s duration.

(d) A written exemption order issued under subsection (b) of this section may:

(1) establish restrictions related to the use of neonicotinoid treated article seeds to which the exemption order applies to minimize harm to pollinator populations, bird populations, ecosystem health, and public health; and

(2) establish other restrictions related to the use of neonicotinoid treated article seeds to which the exemption order applies that the Secretary of Agriculture, Food and Markets considers necessary.

(e) Upon issuing a written exemption order under subsection (b) of this section, the Secretary of Agriculture, Food and Markets shall submit a copy of the exemption order to the Senate Committees on Natural Resources and Energy and on Agriculture; the House Committees on Environment and Energy and on Agriculture, Food Resiliency, and Forestry; and the Agricultural Innovation Board. The General Assembly shall post the written exemption order to the website of the General Assembly.

(f) The Secretary of Agriculture, Food and Markets, after consultation with the Secretary of Natural Resources, may rescind a written exemption order issued under subsection (b) of this section at any time. Such rescission shall
come into effect not sooner than 30 days after its issuance and shall not apply
to neonicotinoid treated article seeds planted or sown before such recission
comes into effect.

Sec. 4. 6 V.S.A. § 1105c is added to read:

§ 1105c. NEONICOTINOID PESTICIDES; PROHIBITED USES

(a) The following uses of neonicotinoid pesticides are prohibited:

(1) the outdoor application of neonicotinoid pesticides to any crop
during bloom;

(2) the outdoor application of neonicotinoid pesticides to soybeans or
any crop in the cereal grains crop group (crop groups 15, 15-22, 16, and 16-
22);

(3) the outdoor application of neonicotinoid pesticides to crops in the
leafy vegetables; brassica; bulb vegetables; herbs and spices; and stalk, stem,
and leaf petiole vegetables crop groups (crop groups 3, 3-07, 4, 4-16, 5, 5-16,
19, 22, 25, and 26) harvested after bloom; and

(4) the application of neonicotinoid pesticides to ornamental plants.

(b) The Secretary of Agriculture, Food and Markets, after consultation with
the Secretary of Natural Resources, may issue a written exemption order to
suspend the provisions of subsection (a) of this section if the Secretary
determines that:

(1) a valid environmental emergency or agricultural emergency exists;
(2) the pesticide would be effective in addressing the environmental emergency or the agricultural emergency; and

(3) no other, less harmful pesticide or pest management practice would be effective in addressing the environmental emergency or the agricultural emergency.

(c) A written exemption order issued under subsection (b) of this section shall:

(1) not be valid for more than one year;

(2) specify the neonicotinoid pesticides, uses, and crops, or plants to which the exemption order applies; the date on which the exemption order takes effect; the exemption order’s duration; and the exemption order’s geographic scope, which may include specific farms, fields, or properties; and

(3) provide a detailed evaluation determining that an agricultural emergency or an environmental emergency exists.

(d) A written exemption order issued under subsection (b) of this section may:

(1) establish restrictions related to the use of neonicotinoid pesticides to which the exemption order applies to minimize harm to pollinator populations, bird populations, ecosystem health, and public health; or

(2) establish other restrictions related to the use of neonicotinoid pesticides to which the exemption order applies that the Secretary of
Agriculture, Food and Markets considers necessary.

(e) Upon issuing a written exemption order under subsection (b) of this section, the Secretary of Agriculture, Food and Markets shall submit a copy of the exemption order to the Senate Committees on Natural Resources and Energy and on Agriculture; the House Committees on Environment and Energy and on Agriculture, Food Resiliency, and Forestry; and the Agricultural Innovation Board. The General Assembly shall post the written exemption order to the website of the General Assembly.

(f) The Secretary of Agriculture, Food and Markets, after consultation with the Secretary of Natural Resources, may rescind any written exemption order issued under subsection (b) of this section at any time. Such rescission shall come into effect not sooner than 15 days after its issuance.

Sec. 5. 6 V.S.A. § 918 is amended to read:

§ 918. REGISTRATION

(a) Every economic poison that is distributed, sold, or offered for sale within this State or delivered for transportation or transported in intrastate commerce or between points within this State through any point outside this State shall be registered in the Office of the Secretary, and such registration shall be renewed annually, provided that products that have the same formula are manufactured by the same person, the labeling of which contains the same claims, and the labels of which bear a designation identifying the product as
the same economic poison may be registered as a single economic poison, and additional names and labels shall be added by supplemental statements during the current period of registration. It is further provided that any economic poison imported into this State, which is subject to the provisions of any federal act providing for the registration of economic poisons and that has been duly registered under the provisions of this chapter, may, in the discretion of the Secretary, be exempted from registration under this chapter when sold or distributed in the unbroken immediate container in which it was originally shipped. The registrant shall file with the Secretary a statement including:

* * *

(f) **The** Unless the use or sale of a neonicotinoid pesticide is otherwise prohibited, the Secretary shall register as a restricted use pesticide any neonicotinoid pesticide labeled as approved for outdoor use that is distributed, sold, sold into, or offered for sale within the State or delivered for transportation or transported in intrastate commerce or between points within this State through any point outside this State, provided that the Secretary shall not register the following products as restricted use pesticides unless classified under federal law as restricted use products:

1. **pet care products used for preventing, destroying, repelling, or mitigating fleas, mites, ticks, heartworms, or other insects or organisms;**

2. **personal care products used for preventing, destroying, repelling,** or
mitigating lice or bedbugs; and

(3) indoor pest control products used for preventing, destroying,
repelling, or mitigating insects indoors; and

(4) treated article seed.

Sec. 6. 6 V.S.A. § 1105a(c) is amended to read:

(c)(1) Under subsection (a) of this section, the Secretary of Agriculture, Food and Markets, after consultation with the Agricultural Innovation Board, shall adopt by rule BMPs for the use in the State of:

(A) neonicotinoid treated article seeds when used prior to January 1, 2031;

(B) neonicotinoid treated article seeds when the Secretary issues a written exemption order pursuant to section 1105b of this chapter authorizing the use of neonicotinoid treated article seeds;

(C) neonicotinoid pesticides when the Secretary issues a written exemption order pursuant to section 1105c of this chapter authorizing the use of neonicotinoid pesticides; and

(D) the agricultural use after July 1, 2025 of neonicotinoid pesticides the use of which is not otherwise prohibited under law.

(2) In developing the rules with the Agricultural Innovation Board, the Secretary shall address:

(A) establishment of threshold levels of pest pressure required prior
to use of neonicotinoid treated article seeds or neonicotinoid pesticides;

(B) availability of nontreated article seeds that are not neonicotinoid treated article seeds;

(C) economic impact from crop loss as compared to crop yield when neonicotinoid treated article seeds or neonicotinoid pesticides are used;

(D) relative toxicities of different neonicotinoid treated article seeds or neonicotinoid pesticides and the effects of neonicotinoid treated article seeds or neonicotinoid pesticides on human health and the environment;

(E) surveillance and monitoring techniques for in-field pest pressure;

(F) ways to reduce pest harborage from conservation tillage practices; and

(G) criteria for a system of approval of neonicotinoid treated article seeds or neonicotinoid pesticides.

(2)(3) In implementing the rules required under this subsection, the Secretary of Agriculture, Food and Markets shall work with farmers, seed companies, and other relevant parties to ensure that farmers have access to appropriate varieties and amounts of nontreated seed or treated seed that are not neonicotinoid treated article seeds.

Sec. 7. 2022 Acts and Resolves No. 145, Sec. 4 is amended to read:

Sec. 4. IMPLEMENTATION; REPORT; RULEMAKING

(a) On or before March 1, 2024, the Secretary of Agriculture, Food, and
Markets shall submit to the Senate Committee on Agriculture and the House Committee on Agriculture, Food Resiliency, and Forestry a copy of the proposed rules required to be adopted under 6 V.S.A. § 1105a(c)(1)(A).

(b) The Secretary of Agriculture shall not file the final proposal of the rules required by 6 V.S.A. § 1105a(c)(1)(A) under 3 V.S.A. § 841 until at least 90 days from submission of the proposed rules to the General Assembly under subsection (a) of this section or July 1, 2024, whichever shall occur first.

Sec. 8. CONTINGENT REPEAL

(a) 6 V.S.A. §1105b (use and sale of neonicotinoid treated article seeds; prohibition) shall be repealed if the prohibition on the use of neonicotinoid treated article seed in New York under N.Y. Environmental Conservation Law § 37-1101(1) is repealed.

(b) 6 V.S.A. § 1105c (neonicotinoid pesticides; prohibited uses) shall be repealed if the prohibition on the use of neonicotinoid pesticides on ornamental plants in New York under N.Y. Environmental Conservation Law § 37-1101(2) is repealed.

Sec. 9. EFFECTIVE DATES

(a) This section and Secs. 1 (findings), 2 (definitions), 5 (registration), 6 (BMP rules), 7 (implementation), and 8 (contingent repeal) shall take effect on passage.
(b) Sec. 4 (prohibited use; neonicotinoid pesticides) shall take effect on July 1, 2025, provided that the prohibition on the use of neonicotinoid pesticides on ornamental plants in New York under N.Y. Environmental Conservation Law § 37-1101(2) is in effect on July 1, 2025. If N.Y. Environmental Conservation Law § 37-1101(2) is not in effect on July 1, 2025, Sec. 4 of this act shall not take effect until the effective date of N.Y. Environmental Conservation Law § 37-1101(2).

(c) Sec. 3 (treated article seed) shall take effect on January 1, 2029, provided that the prohibition on the use of neonicotinoid treated article seed in New York under N.Y. Environmental Conservation Law § 37-1101(1) is in effect on January 1, 2029. If N.Y. Environmental Conservation Law § 37-1101(1) is not in effect on January 1, 2029, Sec. 3 of this act shall not take effect until the effective date of N.Y. Environmental Conservation Law § 37-1101(1).
