H.770

SHORT FORM

Introduced by Representative Troiano of Stannard

Referred to Committee on

Date:

Subject: Conservation and development; stream alteration; waterways;

dredging; municipal authority

Statement of purpose of bill as introduced: This bill proposes to authorize municipalities to conduct dredging of waterways in the State without a stream alteration permit from the Agency of Natural Resources when the activity is necessary to remove threats to life or property from potential flooding or from instream material. The bill also would allow a municipality to conduct stream alteration in a waterway in order to conduct maintenance of structures, such as dams or bridges, when the alteration is exempt from permitting by the U.S. Army Corps of Engineers.

An act relating to municipal authority to conduct dredging

It is hereby enacted by the General Assembly of the State of Vermont:
