§ 4004. POWER OF ATTORNEY IS DURABLE

A power of attorney created under this chapter is durable unless it expressly provides that it is terminated by the incapacity or unavailability of the principal.

§ 4005. EXECUTION OF POWER OF ATTORNEY

A power of attorney shall be signed by the principal or in the principal's conscious presence by another individual directed by the principal to sign the principal's name on the power of attorney. A signature on a power of attorney is presumed to be genuine if the principal acknowledges the signature before a notary public or other individual authorized by law to take acknowledgments.

§ 4006. VALIDITY OF POWER OF ATTORNEY

(a) A power of attorney executed in this State on or after July 1, 2023 is valid if its execution complies with section 4005 of this title.

§ 4007. MEANING AND EFFECT OF POWER OF ATTORNEY

The meaning and effect of a power of attorney is determined by the law of the jurisdiction indicated in the power of attorney and, in the absence of an indication of jurisdiction, by the law of the jurisdiction in which the power of attorney was executed.

§ 4008. NOMINATION OF GUARDIAN; RELATION OF AGENT TO COURT-APPOINTED FIDUCIARY

(a) In a power of attorney, a principal may nominate a guardian of the principal's estate or a guardian of the principal's person for consideration by the court if protective proceedings for the principal's estate or person are begun after the principal executes the power of attorney. Except for good cause shown or disqualification, the court shall make its appointment in accordance with the principal's most recent nomination.

(b) If, after a principal executes a power of attorney, a court appoints a guardian of the principal's estate or other fiduciary charged with the management of some or all of the principal's property, the agent is accountable to the fiduciary as well as to the principal. The power of attorney is not terminated, and the agent's authority continues unless limited, suspended, or terminated by the court.

§ 4009. WHEN POWER OF ATTORNEY EFFECTIVE

(a) A power of attorney is effective when executed unless the principal provides in the power of attorney that it becomes effective at a future date or upon the occurrence of a future event or contingency.

(b) If a power of attorney becomes effective upon the occurrence of a future event or contingency, the principal, in the power of attorney, may authorize one or more persons to determine in a writing or other record that the event or contingency has occurred.

(c) If a power of attorney becomes effective upon the principal's incapacity or unavailability and the principal has not authorized a person to determine whether the principal is incapacitated or unavailable, or the person authorized

is unable or unwilling to make the determination, the power of attorney becomes effective upon a determination in a writing or other record by:

(1) a licensed health care professional working within the professional's scope of practice, including a physician licensed pursuant to 26 V.S.A. chapter 23 or 33 and a psychologist licensed pursuant to 26 V.S.A. chapter 55, that the principal is incapacitated within the meaning of subdivision 4002(7)(A) of this chapter; or

(2) an attorney at law, a judge, or an appropriate governmental official that the principal is unavailable within the meaning of 4002(7)(B) of this chapter.

(d) A person authorized by the principal in the power of attorney to determine that the principal is incapacitated or unavailable may act as the principal's personal representative pursuant to the Health Insurance Portability and Accountability Act; Sections 1171 through 1179 of the Social Security Act; 42 U.S.C. § 1320d, as amended; and applicable regulations to obtain access to the principal's health-care information and communicate with the principal's health-care provider.

§ 4010. TERMINATION OF POWER OF ATTORNEY OR AGENT'S AUTHORITY

(a) A power of attorney terminates when:

(1) the principal dies;

(2) the principal becomes incapacitated or unavailable, if the power of attorney is not durable;

(3) the principal revokes the power of attorney;

(4) the power of attorney provides that it terminates;

(5) the purpose of the power of attorney is accomplished; or

(6) the principal revokes the agent's authority or the agent dies, becomes incapacitated or unavailable, or resigns, and the power of attorney does not provide for another agent to act under the power of attorney.

(b) An agent's authority terminates when:

(1) the principal revokes the authority;

(2) the agent dies, becomes incapacitated or unavailable, or resigns;

(3) a petition for divorce, annulment, separation, or a decree of nullity is filed with respect to the agent's marriage to the principal, unless the power of attorney otherwise provides; or

(4) the power of attorney terminates.

(c) Unless the power of attorney otherwise provides, an agent's authority is exercisable until the authority terminates under subsection (b) of this section, notwithstanding a lapse of time since the execution of the power of attorney.

(d) Termination of an agent's authority or of a power of attorney is not effective as to the agent or another person that, without actual knowledge of the termination, acts in good faith under the power of attorney. An act so performed, unless otherwise invalid or unenforceable, binds the principal and the principal's successors in interest.

(e) Incapacity or unavailability of the principal of a power of attorney that is not durable does not revoke or terminate the power of attorney as to an agent or other person that, without actual knowledge of the incapacity or unavailability, acts in good faith under the power of attorney. An act so performed, unless otherwise invalid or unenforceable, binds the principal and the principal's successors in interest.

(f) The execution of a power of attorney does not revoke a power of attorney previously executed by the principal unless the subsequent power of attorney provides that the previous power of attorney is revoked or that all other powers of attorney are revoked.

(g) The principal of a power of attorney may not revoke the power of attorney if the principal has been determined to be incapacitated.

§ 4011. CO-AGENTS AND SUCCESSOR AGENTS

(a) A principal may designate two or more persons to act as co-agents. Unless the power of attorney otherwise provides, each co-agent may exercise its authority independently.

(b) A principal may designate one or more successor agents to act if an agent resigns, dies, becomes incapacitated or unavailable, is not qualified to serve, or declines to serve. A principal may grant authority to designate one or more successor agents to an agent or other person designated by name, office, or function. Unless the power of attorney otherwise provides, a successor agent:

(1) has the same authority as that granted to the original agent; and

(2) may not act until all predecessor agents have resigned, died, become incapacitated or unavailable, are no longer qualified to serve, or have declined to serve.

(c) Except as otherwise provided in the power of attorney and subsection (d) of this section, an agent who does not participate in or conceal a

breach of fiduciary duty committed by another agent, including a predecessor agent, is not liable for the actions of the other agent.

(d) An agent who has actual knowledge of a breach or imminent breach of fiduciary duty by another agent shall notify the principal and, if the principal is incapacitated or unavailable, take any action reasonably appropriate in the circumstances to safeguard the principal's best interests. An agent who fails to notify the principal or take action as required by this subsection is liable for the reasonably foreseeable damages that could have been avoided if the agent had notified the principal or taken such action.

§ 4012. REIMBURSEMENT AND COMPENSATION OF AGENT

Unless the power of attorney otherwise provides, an agent is entitled to reimbursement of expenses reasonably incurred on behalf of the principal and to compensation that is reasonable under the circumstances.

§ 4013. AGENT'S ACCEPTANCE

Except as otherwise provided in the power of attorney, a person accepts appointment as an agent under a power of attorney by exercising authority or performing duties as an agent or by any other assertion or conduct indicating acceptance.

§ 4014. AGENT'S DUTIES

(a) Notwithstanding provisions in the power of attorney, an agent who has accepted appointment shall:

(1) act in accordance with the principal's reasonable expectations to the extent actually known by the agent and otherwise in the principal's best interests;

(2) act in good faith; and

(3) act only within the scope of authority granted in the power of attorney.

(b) Except as otherwise provided in the power of attorney or other provision of this chapter, an agent that has accepted appointment shall have no further obligation to act under the power of attorney. However, with respect to any action taken by the agent under the power of attorney, the agent shall:

(1) act loyally for the principal's benefit;

(2) act so as not to create a conflict of interest that impairs the agent's ability to act impartially in the principal's best interests;

(3) act with the care, competence, and diligence ordinarily exercised by

agents in similar circumstances;

(4) keep a record of all receipts, disbursements, and transactions made on behalf of the principal;

(5) cooperate with a person who has authority to make health-care decisions for the principal to carry out the principal's reasonable expectations to the extent actually known by the agent and otherwise act in the principal's best interests; and

(6) attempt to preserve the principal's estate plan, to the extent actually known by the agent, if preserving the plan is consistent with the principal's best interests based on all relevant factors, including:

(A) the value and nature of the principal's property;

(B) the principal's foreseeable obligations and need for maintenance;

(C) minimization of taxes, including income, estate, inheritance, generation-skipping transfer, and gift taxes; and

(D) eligibility for a benefit, a program, or assistance under a statute or regulation.

(c) An agent who acts in good faith is not liable to any beneficiary of the principal's estate plan for failure to preserve the plan.

(d) An agent who acts with care, competence, and diligence for the best interests of the principal is not liable solely because the agent also benefits from the act or has an individual or conflicting interest in relation to the property or affairs of the principal.

(e) If an agent is selected by the principal because of special skills or expertise possessed by the agent or in reliance on the agent's representation that the agent has special skills or expertise, the special skills or expertise must be considered in determining whether the agent has acted with care, competence, and diligence under the circumstances.

(f) Absent a breach of duty to the principal, an agent is not liable if the value of the principal's property declines.

(g) An agent who exercises authority to delegate to another person the authority granted by the principal or who engages another person on behalf of the principal is not liable for an act, error of judgment, or default of that person if the agent exercises care, competence, and diligence in selecting and monitoring the person.

(h) Except as otherwise provided in the power of attorney, an agent is not required to disclose receipts, disbursements, or transactions conducted on

behalf of the principal unless ordered by a court or requested by the principal, a guardian, a conservator, another fiduciary acting for the principal, a governmental agency having authority to protect the welfare of the principal, or, upon the death of the principal, by the personal representative or successor in interest of the principal's estate. If so requested, within 30 days the agent shall comply with the request or provide a writing or other record substantiating why additional time is needed and shall comply with the request within an additional 30 days.

§ 4015. EXONERATION OF AGENT

A provision in a power of attorney relieving an agent of liability for breach of duty is binding on the principal and the principal's successors in interest except to the extent the provision:

(1) relieves the agent of liability for breach of duty committed:

(A) dishonestly;

(B) in bad faith;

(C) with reckless indifference to the purposes of the power of attorney;

(D) through willful misconduct;

(E) through gross negligence; or

(F) with actual fraud; or

(2) was inserted as a result of an abuse of a confidential or fiduciary relationship with the principal.

§ 4016. JUDICIAL RELIEF

(a) The following persons may petition a court to construe a power of attorney or review the agent's conduct and grant appropriate relief:

(1) the principal or the agent;

(2) a guardian or other fiduciary acting for the principal, including an executor or administrator of the estate of a deceased principal;

(3) a person authorized to make health-care decisions for the principal;

(4) the principal's spouse, parent, or descendant;

(5) an individual who would qualify as an heir of the principal under the laws of intestacy;

(6) a person named as a beneficiary to receive any property, benefit, or contractual right on the principal's death or as a beneficiary of a trust created

by or for the principal who has a financial interest in the principal's estate;

(7) a governmental agency having regulatory authority to protect the welfare of the principal;

(8) the principal's caregiver or another person who demonstrates sufficient interest in the principal's welfare; and

(9) a person asked to accept the power of attorney.

(b) Upon motion by the principal, the court shall dismiss a petition filed under this section, unless the court finds that the principal lacks capacity to revoke the agent's authority or the power of attorney.

§ 4017. AGENT'S LIABILITY

An agent who violates this chapter is liable to the principal or the principal's successors in interest for the amount required to:

(1) restore the value of the principal's property to what it would have been had the violation not occurred;

(2) reimburse the principal or the principal's successors in interest for the attorney's fees and costs paid on the agent's behalf;

An act relating to community resilience and biodiversity protection.

Reported favorably with recommendation of proposal of amendment by Senator Bray for the Committee on Natural Resources and Energy.

The Committee recommends that the Senate propose to the House to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. SHORT TITLE

This act may be cited as the “Community Resilience and Biodiversity Protection Act” or “CRBPA.”

Sec. 2. FINDINGS

The General Assembly finds:

(1) Nature is facing a catastrophic loss of biodiversity, both globally and locally.

(2) In addition to its intrinsic value, biodiversity is essential to human survival.

(3) According to the United Nations:

(A) one million species of plants and animals are threatened with extinction;

(B) human activity has altered almost 75 percent of the Earth’s surface, squeezing wildlife and nature into ever-smaller natural areas of the planet;

(C) the health of ecosystems on which humans and all other species depend is deteriorating more rapidly than ever, affecting the very foundations of economies, livelihoods, food security, health, and quality of life worldwide; and

(D) the causes of the drivers of changes in nature rank as follows:

(i) changes in land, water, and sea use;

(ii) direct exploitation of organisms;

(iii) climate change;

(iv) pollution; and

(v) invasive species.

(4) The 2017 Vermont Forest Action Plan found that fragmentation and parcelization represent major threats to forest health and productivity and exacerbate the impacts of climate change.

(5) In 2022 Acts and Resolves No. 183, the Department of Forests, Parks and Recreation was tasked with developing the Vermont Forest Future Strategic Roadmap to strengthen, modernize, promote, and protect the forest products sector and the greater forest economy and promote the importance of healthy, resilient, and sustainably managed working forests that provide a diverse array of high-quality products now and in the future.

(6) The 2021 Vermont Climate Assessment highlights an increase in extreme weather events such as droughts and floods as a significant impact of climate change in Vermont and recommends nature-based solutions as a proven, low-cost strategy for climate adaptation and resilience.

(7) The initial Vermont Climate Action Plan calls for investing in strategic conservation to increase the pace of permanent conservation towards 30 by 30 targets, with Vermont Conservation Design guiding prioritization of efforts.

(8) Freshwater vertebrate populations have declined by 84 percent globally since 1970, twice the rate of decline of biodiversity in terrestrial and marine biomes. Almost one in three freshwater species are threatened with extinction.

(9) Approximately 75 percent of all river miles assessed in Vermont are disconnected from their floodplains, indicating degradation and exacerbating flood-related damages.

(10) The Nature Conservancy has developed the Resilient and Connected Landscapes project and found that Vermont plays a key role in the conservation of biodiversity regionally.

(11) The Staying Connected Initiative is an international partnership of public and private organizations. Its goal is to maintain, enhance, and restore landscape connectivity for wide-ranging mammals across the Northern Appalachians-Acadian region, from the Adirondack Mountains to the Maritime Provinces. The Staying Connected Initiative has identified nine linkages across this vast region that are extremely important to wildlife. Six of these linkages lie within Vermont.

(12) The Vermont Department of Fish and Wildlife, working within the Agency of Natural Resources and with Vermont conservation organizations, has developed Vermont Conservation Design, a framework to sustain the State's ecologically functional landscape into the future.

(13) Intact and connected ecosystems support Vermont's biodiversity, reduce flood risks, mitigate drought, and sequester and store carbon.

(14) Vermont's most effective and efficient contribution to conserving biological diversity and maintaining a landscape resilient to climate change is to conserve an intact and connected landscape.

(15) In order to maintain ecological functions in intact and connected ecosystems, the full range of conservation approaches is needed, including supporting private landowner education, technical assistance, and programs; conservation easements that promote sustainable forest management; and conservation easements and fee acquisitions focused on passive management.

(16) The Vermont Housing Finance Agency’s 2020 Housing Needs Assessment projected an urgent pre-pandemic need for new housing. Strategic investment in conservation is consistent with construction of housing in Vermont’s villages and town centers.

(17) The land and waters, forests and farms, and ecosystems and natural communities in Vermont are the traditional and unceded home of the Abenaki people. Access to land and land-based enterprises has excluded Black, Indigenous, and Persons of Color (BIPOC) Vermonters and others from historically marginalized and disadvantaged communities in the centuries of European settlement. Efforts to increase land conservation must also include opportunities to increase access to land and land-based enterprise for Indigenous People and all who come from historically marginalized and disadvantaged communities.

Sec. 3. 10 V.S.A. chapter 89 is added to read:

CHAPTER 89. COMMUNITY RESILIENCY AND BIODIVERSITY
PROTECTION

§ 2801. DEFINITIONS

As used in this section:

(1) “Ecological reserve area” means an area having permanent protection from conversion and that is managed to maintain a natural state within which natural ecological processes and disturbance events are allowed to proceed with minimal interference.

(2) “Biodiversity conservation area” means an area having permanent protection from conversion for the majority of the area and that is managed for the primary goal of sustaining species or habitats. These areas may include regular, active interventions to address the needs of particular species or to maintain or restore habitats.

(3) “Natural resource management area” means an area having permanent protection from conversion for the majority of the area but that is subject to long-term, sustainable land management.

(4) “Conversion” means a fundamental change in natural ecosystem type or habitat, natural or undeveloped land cover type, or natural form and function of aquatic systems.

(5) “Sustainable land management” means the stewardship and use of forests and forestlands, grasslands, wetlands, riparian areas, and other lands, including the types of agricultural lands that support biodiversity, in a way, and at a rate, that maintains or restores their biodiversity, productivity, regeneration capacity, vitality, and their potential to fulfill, now and in the future, relevant ecological, economic, and social functions at local, State, and regional levels, and that does not degrade ecosystem function.

(6) “Conserved” means permanently protected and meeting the definition of ecological reserve area, biodiversity conservation area, or natural resource management area as defined in this section for purposes of meeting the 30 percent goal in subsection 2802(b) of this title. For purposes of meeting the 50 percent goal of subsection 2802(b) of this title, “conserved” primarily means permanently protected and meeting the definition of ecological reserve area, biodiversity conservation area, or natural resource management area as defined in this section, although other long-term land protection mechanisms and measures that achieve the goals of Vermont Conservation Design that are enforceable and accountable and that support an ecologically functional and connected landscape may be considered.

§ 2802. CONSERVATION VISION AND GOALS

(a) The vision of the State of Vermont is to maintain an ecologically functional landscape that sustains biodiversity, maintains landscape connectivity, supports watershed health, promotes climate resilience, supports working farms and forests, provides opportunities for recreation and appreciation of the natural world, and supports the historic settlement pattern of compact villages surrounded by rural lands and natural areas.

(b) It is the goal of the State that 30 percent of Vermont’s total land area shall be conserved by 2030, and 50 percent of the State’s total land area shall be conserved by 2050. The Secretary of Natural Resources shall lead the effort in achieving these goals. The land conserved shall include State, federal, municipal, and private land.

(c) Reaching 30 percent by 2030 and 50 percent by 2050 shall include a mix of ecological reserve areas, biodiversity conservation areas, and natural resource management areas. In order to support an ecologically functional and connected landscape with sustainable production of natural resources and recreational opportunities, the approximate percentages of each type of conservation category shall be guided by the principles of conservation science

and the conservation targets within Vermont Conservation Design, prioritizing ecological reserve areas to protect highest priority natural communities and maintain or restore old forests.

§ 2803. CONSERVED LAND INVENTORY

(a) On or before July 1, 2024, the Vermont Housing and Conservation Board, in consultation with the Secretary, shall create an inventory of Vermont's conserved land and conservation policies to serve as the basis of meeting the conservation goals of Vermont Conservation Design and to meet the goals established in section 2802 of this title. The inventory shall be submitted for review to the House Committees on Environment and Energy and on Agriculture, Food Resiliency, and Forestry and the Senate Committee on Natural Resources and Energy.

(b) The inventory shall include:

(1) A review of the three conservation categories defined in section 2801 of this title and suggestions for developing any modifications or additions to these categories that maintain or complement the core concepts of ecological reserve areas, biodiversity conservation areas, and natural resource management areas in order to complete the conserved land inventory and inform the comprehensive strategy in the conservation plan. As part of this review, criteria shall be developed to determine the types of agricultural lands that will qualify as supporting and restoring biodiversity and therefore count towards the natural resource management area category.

(2) The amount of conserved land in Vermont that fits into each of the three conservation categories defined in section 2801 of this title, including public and private land. The inventory shall also include other lands permanently protected from development by fee ownership or subject to conservation easements.

(3) A summary of the totality of conservation practices, both permanent and intermediate, available for reaching the goals of this chapter, including what they are, what they do, how they contribute, and what metrics are available to quantify them.

(4) An assessment of how State lands will be used to increase conserved ecological reserve areas.

(5) The implementation methods that could be utilized for achieving the goals of this chapter using Vermont Conservation Design as a guide.

(6) A review of how aquatic systems are currently conserved or otherwise protected in the State, including a description of the benefits land conservation provides for aquatic systems, whether this is sufficient to

maintain aquatic system functions and services, and how the implementation methods for achieving the goals of this chapter using Vermont Conservation Design as a guide would include specific strategies for protecting aquatic system health.

(7) How existing programs will be used to meet the conservation goals of this chapter and recommendations for new programs, if any, that will be needed to meet the goals.

(8) An assessment of existing funding and recommendations for new funding sources that will be needed for acquisition of land, purchase or donation of conservation easements, staffing capacity, and long-term stewardship to meet the goals.

(9) An equity assessment of existing land protection and conservation strategies and programs.

(10) An evaluation of the opportunities related to intergenerational land transfer trends and how the State could proactively direct resources to achieve conservation at the time of transfer.

§ 2804. CONSERVATION PLAN

(a) On or before December 31, 2025, the Vermont Housing and Conservation Board, in consultation with the Secretary, shall develop a plan to implement the conservation goals of Vermont Conservation Design and to meet the vision and goals established in section 2802 of this title. The plan shall be submitted for review to the House Committees on Environment and Energy and on Agriculture, Food Resiliency, and Forestry and the Senate Committee on Natural Resources and Energy.

(b) The plan shall include:

(1) a comprehensive strategy for achieving the vision and goals of section 2802 of this title while continuing to conserve and protect Vermont's agricultural land, working forests, historic properties, recreational lands, and surface waters;

(2) the implementation methods for achieving the vision and goals of this chapter using Vermont Conservation Design as a guide;

(3) recommendations to provide and increase equitable access to protected and conserved lands and land-based enterprises, including recreational access to and use of conserved lands; and

(4) recommendations to implement the vision and goals of this chapter while also enhancing the State of Vermont's current investments and commitments to working lands enterprises, rural landowners, and the broad

conservation mission implemented by the Secretary and VHCB, including conservation of agricultural land, working forests, historic properties, recreational lands, and surface waters.

(c) In developing the plan, the Vermont Housing and Conservation Board, in consultation with the Secretary, shall hold 12 or more public meetings on the plan between July 1, 2023 and December 31, 2025 to solicit input from stakeholders. Stakeholders shall include private owners of forestlands and agricultural lands, land trusts, conservation organizations, environmental organizations, working lands enterprises, outdoor recreation groups and businesses, Indigenous groups and representatives from historically marginalized and disadvantaged communities, watershed groups, municipalities, regional planning commissions, conservation commissions, and relevant State and federal agencies. At least three of the meetings shall be designed to solicit comments from the general public.

(d) The conserved land inventory established in 2803 of this title shall be updated biennially to track progress toward meeting the vision and goals of this chapter, which shall be publicly available, and the Secretary shall submit a report to the relevant committees on or before January 15 following each update.

Sec. 4. APPROPRIATIONS

(a) The sum of \$75,000.00 is appropriated from the General Fund to the Vermont Housing and Conservation Board in fiscal year 2024 to support public education and outreach to inform the development of the statewide conservation plan.

(b) The sum of \$150,000.00 is appropriated from the General Fund to the Agency of Natural Resources in fiscal year 2024 to hire a limited-service position to support the development of the statewide conservation plan.
