RPC Statement of Work Funding Reserved					
Regional Commission	Town	VCI	Funding	Submitted	Project Description
WRC	Athens	94.70%	43,495	3/12/2024	An architectural and engineering scoping project focused on the former Athens elementary school. The Town's goal is to renovate the building into a multi-purpose community center to serve as a hub for community events, an emergency shelter, and a relocated town office with a dry, secure vault for record storage.
WRC	Athens	94.70%	9,250	3/12/2024	The town has requested funds to complete an architectural and engineering scoping project focused on the former Athens elementary school. The town's goal is to renovate the building into a multi-purpose community center to serve as a hub for community events, an emergency shelter, and a relocated town office with a dry, secure vault for record storage.
NVDA	Barnet	55.80%	52,000	4/15/2024	The town is seeking MTAP funding on behalf of the McIndoe Falls Academy for project management services. Funds will be used to support design development, updated cost estimates, and contract documents for sealed bids, as well as a licensed architectural historian to complete a Section 106 review.
LCPC	Belvidere	88.60%	9,021	3/6/2024	The town has a project to develop a forest management plan for town-owned forest with a focus on carbon sequestration, resource management, wildlife habitat and outdoor recreation. The town has another project to plan and implement necessary upgrades, installation and replacement of playground equipment and areas to conform with public playground safety standards.
RRPC	Benson	95.90%	35,000	4/3/2024	The Rutland Regional Planning Commission will acquire and manage grant funds to improve the recreational value of these community facilities by creating accessible parking (which meets the ADA standards), fixing flooding issues with green spaces, and construction a pavilion on an underutilized slab adjacent to the Town Clerk's Office.
NRPC	Berkshire	61.10%	9,000	1/9/2024	to prepare designs and estimate costs for accessibility improvements at its Town Hall. The Town Hall serves as the local Emergency Operations Center for the town, meaning that the building's accessibility is an important aspect of climate change resilience in the town.
TRORC	Bridgewater	75.30%	53,754	1/25/2024	Town is proposing to construct a new sand shed at the town garage parcel to contain the existing sand pile on site. The construction of the concrete walled, steel fabric arch building will improve the operations of the Bridgewater Highway Department with organized piles for sand for the town. The town has a large pile at the end of the fall for its 45-miles of class 2 and 3 roads and may have a small leftover pile in the spring that it maintains. This large open air pile is a large source for untreated stormwater runoff year-round.
TRORC	Brookfield	72.80%	15,754	1/23/2024	The town's plan will expire in September 2024. Maintenance of a town plan, especially a regionally approved town plan will allow Brookfield continued access to grant programs that require a town plan or a regionally approved town plan.
NVDA	Brownington	93.50%	990	4/16/2024	The project entails exploring the feasibility of establishing a small retail space and community space at the site of the Evansville Trading Post under the aegis of the Brownington Community Trust, an emerging non-profit community organization currently considering purchasing the site. Funds will be used to procure third-party consultants, including business feasibility/planning consultants, and legal counsel.

Other Partner Project Support					
Region	Town	VCI	Funding	Description	Provider
NVDA	Craftsbury	57.00%	8,320	Saplings Childcare Center Development	VHCB
NVDA	Canaan	83.80%	5,393	Alice Ward Memorial Library Renovation	VHCB
CVRPC	Plainfield	76.10%	7,215	Plainfield Co-op Redevelopment & Expansion	VHCB
NVDA	Barnet	55.80%	4,163	McIndoes Academy	VHCB
TRORC	Newbury	54.60%	200	Well's River Library	PTV
ACRPC	Weybridge	64.30%	200	Town Hall	PTV
WRC	Athens	94.70%	200	Meetinghouse	PTV
TRORC	Tunbridge	68.80%	100	White River Land Coll	PTV
WRC	Readsboro	77.30%	200	Bullock Block	PTV

CVRC	Cabot	65.50%	7,000	3/1/2024	Central Vermont Regional Planning Commission has been working with the Town of Cabot to submit a BRELLA application through MTAP. We would like to be able to continue our support of this important project through project management and implementation should they be awarded BRELLA funds. This project is important to the Town as well as the region in mitigating the effects of flooding downstream.
NVDA	Canaan	83.80%	9,520	2/26/2024	for the purposes of acquiring consultation services to update their Town Plan. Their current plan expires on 3/7/25
MARC	Cavendish	40.00%	45,000	2/8/2024	Project is based on hydraulic and hydrological studies with preliminary design to mitigate flood risk along the Black River and its major tributaries.
TRORC	Chelsea	76.50%	25,000	12/7/2023	Seeking to perform retrofits to its existing wastewater treatment plan. The plants pump station is decades beyond its useful lifespan and is accessible only via a 20-foot-deep dry well that is vulnerable to flooding and unsafe for the plant's operator. The Town seeks to rebuild the pump station above grade to ensure operator safety and enhance the plant's resilience to extreme weather.
TRORC	Granville	96.70%	5,000	1/9/2024	to evaluate accessibility needs for the Town Hall, prepare architectural and engineering plans for identified accessibility modifications, and complete pre-construction environmental review work. It's anticipated that the project will consider modifications to the front doors, outside stairs and landing, the wheelchair ramp, and access to the second floor.
NVDA	Groton	82.90%	18,075	2/9/2024	seeks assistance with the restoration of town survey maps that date back to the 1950's. These maps are used to determine property boundary lines and inform citizens in their deed research of the town. The survey maps were originally developed to create tax maps. There are 325 maps of various sizes with varying degrees of wear and tear from use and age. 70 of the maps are in need of restoration and repair.
TRORC	Hancock	86.20%	7,000	3/27/2024	Hancock will be applying for a CDBG plannint grant (\$60K) to prepare a feasibility study for a proposed housing project on the Town-owned Taylor Meadow property, and to complete some preliminary environmental review work. It is anticipated that the Town will apply in the fall of 2024.
NVDA	Hardwick	31.50%	80,000	1/5/2024	Seeking assistance with the design and engineering of a new municipal infrastructure campus (on Creamery Rd). The campus will co-locate a new Town Garage, Hardwick Fire Department, and Hardwick Rescue. Conceptual plans exist for the new Town garage site which will replace the existing undersized town garage, however the plans don't include a new location for the fire department or rescue. The existing fire station resides in an area that floods repeatedly. The relocation of this critical infrastructure will help make the community more flood resilient.
NRPC	Isle La Motte	80.90%	65,000	1/9/2023	Town is seeking assistance with the reuse of its school and old Town Hall buildings. The school was closed permanently in 2020 due to lack of enrollment. The town is considering how best to use these two buildings (town hall & school) to support economic development or housing in the community. The town is working with NRPC to develop its first ever town plan which will focus on a reuse of these buildings as a key elements.
LCPC	Johnson	25.50%	21,204	5/10/2024	The town is working with Mumley Engineering Inc. to complete environmental review, final design, subdivision, and permitting for a development light industrial/commercial park on town-owned land. The town has completed preliminary design and been awarded an NBRC grant for construction.
LCPC	Johnson	25.50%	22,777	5/10/2024	The village is working with Aldrich and Elliott to conduct a CWSRF Step 0 feasibility study to investigate wastewater treatments options. In July of 2023, the existing treatment facility succumbed to flooding with extensive damage resulting. The village is exploring onsite mitigation and relocation options.
LCPC	Johnson	25.50%	9,143	5/10/2024	The village is working with AES Northeast to develop architectural designs for the reconstruction of a Water & Light garage to replace the former building damaged by mold exposure.
BCRC	Landgrove	67.20%	55,000	1/26/2024	Seeking assistance with the relocation and cover of its winter road sand and salt pile. The current location falls within a class 2 wetland and flood hazard area and the pile is uncovered year round. The town recently acquired a 4-acre parcel on which a new pile site is to be located. An access driveway is currently being constructed so that the site can be cleared in preparation for site assessment, planning, and permitting for a new covered shed.
NVDA	Lunenburg	89.80%	72,500	3/29/2024	Assistance with the preliminary assessments of the Gilman Middle School to evaluate environmental needs, architectural and structural needs, and evaluate the financial feasibility of the project for redevelopment. Gilman is an unincorporated village in the Town of Lunenburg.

TRORC	Sharon	50.20%	100	Baxter Memorial Library	PTV
TRORC	Sharon	50.20%	100	Old Town Hall	PTV
WRC	Brookline	93.90%	288	Meetinghouse	PTV
TRORC	Corinth	73.20%	163	Town Hall	PTV
NVDA	Charleston	73.60%	50	Museum	PTV
NVDA	Brownington	93.50%	50	Community Trust	PTV
NVDA	Guildhall	85.40%	250	Historic District	PTV
NVDA	Lunenburg	89.80%	150	Gilman Middle School	PTV
NVDA	Lunenburg	89.80%	163	Alden Balch Library	PTV
NVDA	Granby	98.70%	100	Schoolhouse	PTV
NVDA	Concord	85.00%	100	Old Town Hall	PTV
NVDA	Holland	78.90%	100	Community Church	PTV
MARC	Reading	89.40%	100	General Store	PTV
NVDA	Lunenburg	89.80%	150	Old town Hall	PTV

CVRC	Marshfield	68.40%	7,000	1/1/2024	Provide ongoing support to the town of Marshfield with administration of the Emergency Watershed Protection (EWP) project.
CVRC	Middlesex	43.30%	7,000	2/14/2024	Provide ongoing support to the town of Middlesex with administration of the Emergency Watershed Protection (EWP) project.
TRORC	Newbury	54.60%	10,000	2/19/2024	TRORC will assist the village of Wells River Trustees in preparing a 10-year capital budget and program (CBP).
TRORC	Newbury	54.60%	25,000	4/30/2024	The Wells River wastewater system is 40+ years old, so the Village of Wells River is seeking RPC support in seeking grants for their wastewater system. The Regional Commission will assist the village in applying to an appropriate grant depending on the extent and continuation of infiltration issues into their wastewater lines. The system has significant needs beyond the immediate concerns about infiltration.
RRPC	Pawlet	79.70%	55,000	4/1/2024	The town is seeking assistance to provide engineering and project management services to support a wastewater project in West Pawlet Village. The town has identified this project as the top priority in the 2023 village master plan. The towns wastewater system has growing operation expenses including sludge removal/trucking, that are creating unsustainably high user fees.
TRORC	Pittsfield	75.70%	2,950	11/16/2023	The town is pursuing a VT Outdoor Recreation Economic Collaborative grant to engage in a planning and design process gathering resident interest in improvements to the Recreation Field. Initial ideas for improvements might include an adult exercise station path around the field, extending the children's playground, adding a gazebo and grill area, area for a Farmer's Market, or space for a community run snack bar.
TRORC	Pittsfield	75.70%	10,000	11/16/2023	TRORC will assist the Pittsfield Selectboard in preparing a 10-year capital budget and program (CBP).
TRORC	Rochester	67.60%	12,000	3/4/2024	TRORC will assist the Rochester Selectboard in preparing a 10-year capital budget and program (CBP).
BCRC	Rupert	84.20%	35,000	2/20/2024	Seeking assistance to secure funding for and to implement a landscape architectural plan for the town green. The town green parcel is directly adjacent to the Sheldon's Store Community Center and Cafe (project of the Rupert Town Village Trust) which seeks to revitalize the village general store and grand hall to serve as a cafe and event space. The project involves improvements on the town green parcel including an expansion to the gravel parking lot, improvements to the picnic areas, construction of pathways and installation of an information kiosk, playground equipment, gazebo, native plan garden and other plantings.
ACRPC	Salisbury	51.80%	100,000	2/23/2024	Seeking assistance with the planning process required to redevelop the Town Hall, which contains the towns public library. The Town Hall has never had water and wastewater facilities which limits its use as a public building and the library's ability to serve multiple demographics. The redeveloped property will allow the library and historical society to deliver consistent expanded services, afterschool resources, access to WiFi and computers, and community programs and events.
BCRC	Sandgate	88.20%	25,000	2/15/2024	Seeking assistance with renovations to its own office building to serve as an emergency shelter. A new water supply will be needed as the town office building doesn't have a source of potable water. Interior renovations to allow for temporary sleeping accommodations and for non-perishable food storage are also envisioned.
WRC	Searsburg	99.10%	75,000	4/22/2024	The town is seeking to identify scope, engineer and permit potential solutions to address sedimentation and water quality issues caused by culvert #14 on Sleepy Hollow Rd.
TRORC	Sharon	50.20%	6,000	4/22/2024	TRORC will assist the Sharon Selectboard in preparing a 10-year capital budget and program (CBP).
CCRPC	St. George	53.80%	43,000	2/15/2024	The Villa Mobile Home Park Co-Op houses over a third of St. George's population. CCRPC will assist the town in keeping updated with the Villa Mobile Home Co-Op's preliminary engineering reports for water and wastewater. CCRPC will add capacity to investigate connecting the mobile home park to the Town water supply and the Town Center Association's wastewater system.
TRORC	Stockbridge	53.00%	5,000	12/12/2023	TRORC will assist the Stockbridge Selectboard in preparing a 10-year capital budget and program (CBP).
BCRC	Sunderland	56.20%	45,000	2/12/2024	Seeking assistance to assess the viability of restoration and conversion of the historic Sunderland Union Church into a public community space. If found to be a viable project, the town would seek funds to undertake the restoration of the iconic white steepled church.

RRPC	Pawlet	79.70%	42	Wastewater	Stone
WRC	Searsburg	99.10%	85	Climate Resilience	Stone
WRC	Wardsboro	76.90%	133	Hydrology Study	Stone

WRC	Wardsboro	76.90%	65,000	3/13/2024	The town recognizes the increasing vulnerability of its infrastructure to flooding and the need for comprehensive hazard mitigation planning. The goal of the proposed project is to use a hydrology study to evaluate, assess, and prioritize critical infrastructure components, particularly culverts and bridges
TRORC	West Fairlee	95.10%	7,000	3/4/2024	TRORC will assist the West Fairlee Selectboard in preparing a 10-year capital budget and program (CBP).
TRORC	West Fairlee	95.10%	17,500	3/18/2024	TRORC will assist the West Fairlee Selectboard in identifying an appropriate consultant to conduct an assessment for Bean Hall, which is an underutilized and decaying 3-story town owned building on the same lot as the Town offices and library. An appropriate contractor will consider the towns identified options for the building and determine what considerations and estimated costs the town should take into account when deciding what to do with the structure. The assessment will be used by the town to determine next steps which may include pursuit of grant funding to undertake repairs.
WRC	Weston	45.30%	50,000	12/10/2023	Weston seeks to improve its flood resilience by reducing flooding upstream of town and in its village center. To do so, Weston plans to engage an engineering vendor to complete a hydrologic and stream geomorphic assessment, analyzing Weston's current flood and fluvial erosion vulnerability, evaluate options to improve it, and develop financial estimates for those options.
LCPC	Wolcott	56.60%	41,689	1/25/2024	The town is applying for funding including the ACCD Community Recovery and Revitalization grant and a congressionally directed spending request to fund portions of their community Wastewater project. The town will also be preparing for a bond vote in 2024 and will work with the consultants, local Wastewater Committee and Selectboard to develop a local ordinance, organize public meetings, and other public outreach activities in preparation for the vote
WRC	WRC Consultant 1	89.90%	14,500	8/2/2023	General consulting agreement to assist Windham Regional Commission in providing support to towns in the Winham region.
WRC	WRC Consultant 2	89.90%	14,500	8/2/2023	General consulting agreement to assist Windham Regional Commission in providing support to towns in the Winham region.
