

# H.282 – An act relating to the Psychology Interjurisdictional Compact

As recommended by the House Committee on Ways and Means, *Draft 1.2*<sup>1</sup>

# **Bill Summary**

The bill proposes the State adopt and enter into the Psychology Interjurisdictional Compact (PSYPACT), which allows licensed psychologists residing in a compact member state to practice in other compact member states. Potential revenue losses due to reductions in application and renewal fees from out-of-state applicants from other compact states would be offset by proposed application and renewal fee increases for psychology licenses. The State Board of Psychological Examiners would also be charged an annual fee based on the number of Vermont-based psychologists who join the compact, which is anticipated to be less than \$1,000 per year.

The bill would also increase fees collected by the Secretary of State's Office of Professional Regulation (OPR) and Corporate Divisions. Revenues from professional licensing fees would increase by an estimated \$3.5 million biennially and corporation fees would increase by \$1.8 million annually.

# Sec. 1 – Psychology Interjurisdictional Compact

Like other interstate licensure compacts, the PSYPACT establishes uniform requirements for a "compact license." There are currently 34 states participating in the PSYPACT and two more states (Michigan and Rhode Island) are anticipated to join by the end of July 2023.<sup>2</sup> The PSYPACT has been operational and open for applications since 2020.

# **Revenue Reductions**

Vermont renews psychologist licenses in January of even years for a fee of \$150. Revenues from license and application fees are deposited into the Professional Regulatory Fee Fund (21150). According to OPR, there are 534 psychologists licensed in Vermont. Of those, 106 are from states that have signed onto the PSYPACT to date. Based on the current fee structure, OPR estimates it would see a revenue reduction of \$15,900 from the loss of licensing fees and approximately \$1,925 from the loss of application fees from out-of-state applicants from compact states in fiscal year 2024. The psychology fee increases in Sec. 19 would exceed \$19,000, which would offset potential revenue losses.

<sup>&</sup>lt;sup>1</sup><u>https://legislature.vermont.gov/Documents/2024/WorkGroups/House%20Appropriations/Bills/H.282/Drafts,%20Amend ments,%20and%20Legal%20Documents/H.282~Jennifer%20Carbee~As%20Recommended%20by%20the%20House%20Committee%20on%20Ways%20and%20Means%20(8-4-0)~3-24-2023.pdf</u>

<sup>&</sup>lt;sup>2</sup> <u>https://psypact.org/mpage/psypactmap</u>

Additional states joining the PSYPACT could further impact revenue; 6 other states currently have legislation pending regarding joining the compact.<sup>3</sup>

# **Compact Fees**

Unlike other interstate compacts which allow member states to establish compact privilege fees (in addition to the commission fees applicants pay to join a compact), the PSYPACT does not allow for compact privilege fees. As such, member states do not receive any fees through the compact. Additionally, the PSYPACT assesses member states an annual \$10 fee per licensee who claims a member state as their home state. The amount any state can pay is capped at \$6,000. While it is not known how many Vermont-based psychologists would join the compact, it is anticipated that Vermont would be assessed less than \$1,000 per year.

Finally, while current applications are done online, OPR will need to process compact applications manually, requiring significantly more staff time. OPR's license platform could automate compact applications by building a compact-specific portal, but that would require additional financial resources.

# Summary

- The estimated revenue loss for fiscal year 2024, based on the current fee structure would be approximately \$17,825.
  - $\circ$  Loss of licensing fees = \$15,900
  - Loss of application fees = \$1,925
- Increases in the application and renewal fees for psychology in Sec. 19 are estimated to exceed \$19,000, which would mitigate potential revenue losses.
- If more states join the PSYPACT, future revenue impacts will be greater.
- The State Board of Psychological Examiners will be charged an annual fee, which is anticipated to be less than \$1,000.
- More staff and/or IT resources could be needed at OPR to process fees received through this and other compacts.

# **Other Considerations**

Currently, there are three other bills that have passed the House related to adopting interstate licensure compacts which would result in revenue losses to OPR:

- H.62 An act relating to the Interstate Counseling Compact
- H.77 An act relating to Vermont's adoption of the Physical Therapy Licensure Compact
- H.86 An act relating to Vermont's adoption of the Audiology and Speech-Language Pathology Interstate Compact

# Secs. 2-32 – OPR and Corporation Fees

The bill proposes to adjust fees collected by the Secretary of State's Office of Professional Regulation (OPR) and Corporations Divisions. Fees would be adjusted using the Personal Consumption Expenditures (PCE) Index between the year the fee was last set or adjusted by the General Assembly and December 2022, with exceptions for workforce considerations. For administrative simplicity, fees have been rounded up to the nearest multiple of \$5.

These fee changes will increase special fund revenues for both the Office of Professional Regulation Fund (21150) and Secretary of State Services Fund (21812).

• Professional licensing fees support the Office of Professional Regulation Fund. Increases in the fees supporting this fund will generate \$3.5 million biennially.

<sup>&</sup>lt;sup>3</sup> <u>https://psypact.org/mpage/psypactmap</u>

• Corporation fees support the Secretary of State Services Fund. Increases in corporation fees will generate \$1.8 million in additional revenue per year.

Some margin of error in these revenue projections is to be expected for a couple of reasons. First, fee revenues are estimated using a consistent number of license applications and renewals for each profession. Any changes in the number of licensees in a profession , will impact revenues received from the profession accordingly. Second, revenue reductions from pending legislation for interstate compact licenses, including the psychology compact license in this bill, are not accounted for in the estimates below (in secs. 2-32).

#### Secs 2-5 – Advisor Professions

Section 2-5 adjusts the fees for various advisor professions. These professions pool regulatory and fiscal responsibilities within the Office of Professional Regulation Fund. JFO estimates a revenue increase of \$550,000 for these professions biennially through proposed fee increases.

#### Secs. 6-21 – Board Professions

Section 6-21 adjusts fees for various board professions. Board professions manage regulatory issues, and each profession has a separate account within the Office of Professional Regulation Fund. JFO estimates a \$2.9 million revenue increase across all board professions biennially.

#### Secs. 22-32 – Corporations Filings

Section 22-32 adjusts fees for various types of corporations filing services. Many of these fees have not been updated since at least 2013, leading to relatively larger fee increases. Increasing fees for corporation services as proposed in this legislation would result in \$1.8 million in addition revenues per year. Any excess revenues in the Secretary of State Services Fund are deposited in the General Fund at the end of each fiscal year. Note: All fees support the Office of Professional Regulation Fund

## ADVISOR FEE ANALYSIS
