

# Public Safety and Access to Justice

Presentation Before Appropriations Committee  
December 19, 2023

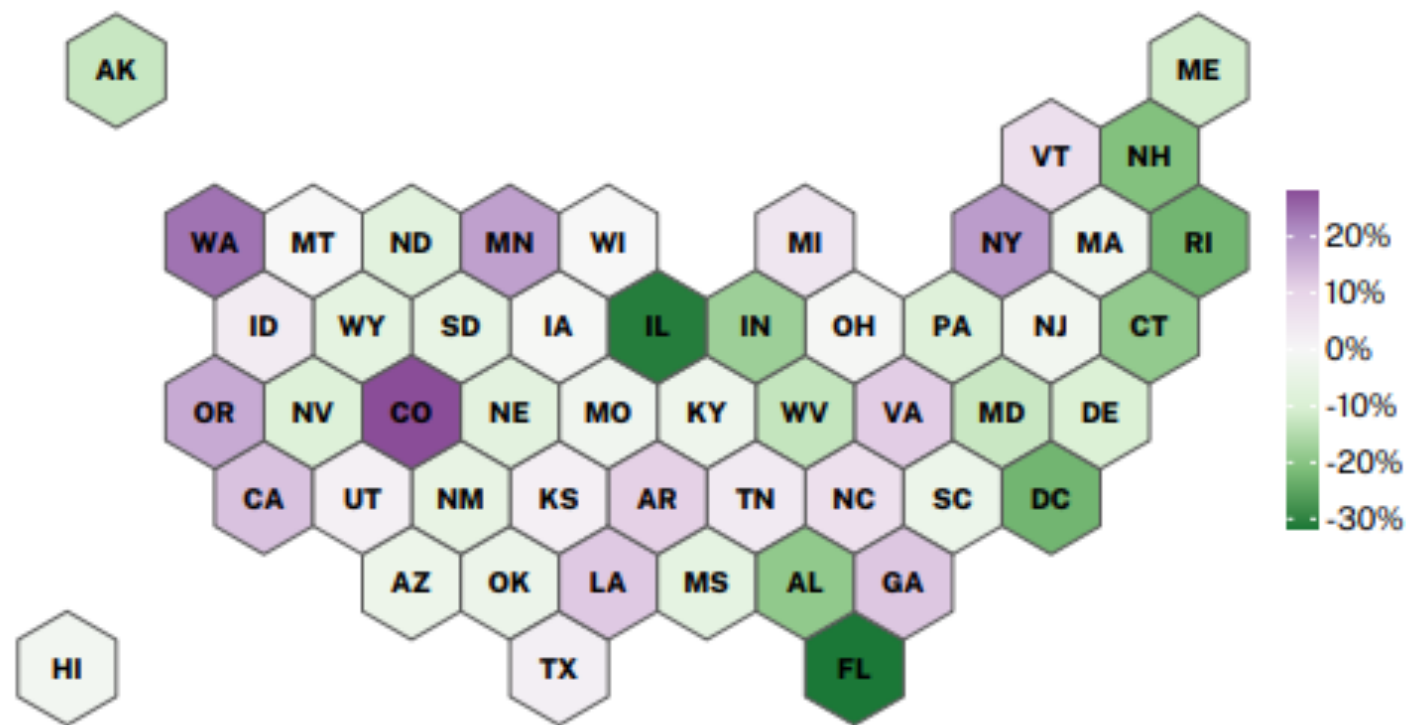

# Public Safety

- What is public safety?
  - The state of being safe from harm or danger or threats of harm or danger.
  - The well-being and protection of everyone in the community.
- Crime, and even the mere perception of crime, undermines a community's sense of safety.
- Stable families and communities are necessary to reduce crime.
- To have stable families and communities, the following are necessary:
  - Substance Use Treatment
  - Mental Health Treatment
  - Housing
  - Education
  - Employment
- The end of the pipeline – the criminal justice system.

# Crime Statistics

Perception and Reality

**Figure 9. Percent change in violent crime, 2019 to 2022**

FBI Uniform Crime Reporting Program SRS

The FBI stopped Uniform Crime Reporting Program Summary Reporting System (SRS) data collection in 2020, which decreased the number of agencies that submitted their crime data and thus reduced the reliability of state estimates in 2021. In 2022, they allowed agencies who were unable to submit NIBRS data to submit SRS data again. 94 percent of the U.S. population was covered in the 2022 crime data submissions to the FBI, with most states providing close to complete data. However, the population upon which the estimates were derived decreased by over 10 percent in three states: Florida, Hawaii, and Illinois, so conclusions about crime changes in those states should be interpreted with additional caution.

## P O L I C E

### Reported Incidents of Various Crimes - South Burlington

**YTD Comparison - Calls for Service**

- Call volume analysis is a measure of how many inbound calls are coming into the dispatch center. Directed patrols, foot patrols, CRS outreach, and traffic stops/offenses are removed as these cases are generated by an officer for proactive work.

**YTD Comparison - Actual Calls for Service**

- Actual case volume analysis includes the number of inbound calls to the dispatch center as well as the proactive cases generated by an officer.

**YTD Comparison - Arrest/Citation**

- Comparison of the number of arrests/citations each year.

**YTD Comparison – Larceny**

- Spillman CAD/RMS – Data Collection: Summary data (Red)
- Valcour CAD/RMS – Data Collection: NIBRS data (Blue)

# Roles of the Criminal Justice System

- Retribution, rehabilitation, incapacitation, and deterrence
- Deterrence: Probability and Severity of Consequences
- Many studies find that the probability of consequences deters more than the severity of punishment.
- Probability of Consequences
  - Chances of Being Caught
  - Certainty and Expediency of Consequences
- [Rubb, T., Meta Analysis of Crime and Deterrence: A Comprehensive Review of Literature \(2008\)](#)

How are our courts doing?

**TIME TO DISPOSITION BY COUNTY  
AS OF 12.14.23**

The Dispositional Guidelines are as follows:

Criminal Division

1. Misdemeanors - Standard (Track 1)

Guideline: 180 days

2. Misdemeanors - Complex (Track 2)

Guideline: 270 days

3. Felonies - Standard (Track 1)

Guideline: 365 days

4. Felonies - Complex (Track 2)

Guideline: 365 days

Proposed Guideline: 545 days

5. Felonies - Super Complex (Track 3)

Guideline: 730 days

Please note our current case management system does not allow us to separate felonies and misdemeanors into complexity tracks, so the over and under designations reflect the standard track for each case type.

Disposition Guideline Status: The categorization of case age using the Disposition Guideline. The categories are:

Under: Case Age is less than the Disposition Guideline

Over: Case Age is greater than the Disposition Guidelines

N/A: The Disposition Guideline is not applicable because none has been established or the case is Reopened. These often reflect Violations of Probation.

## Age of Pending Cases – All Criminal Cases

Another way to look at the data is to look at the number and age of the cases that are pending on the last day of the fiscal year. For both felony and misdemeanor cases, the number of cases pending over six months continues to rise, with 52% of felonies and 34% of misdemeanors pending over 6 months.

## Time to Disposition

### *Felonies*

The Supreme Court has set six months as the disposition timeline for a standard (non-complex) felony case. In FY19, 39% of all felony cases met this time standard. Seventy-one percent were resolved within one year. Almost a third (29%) took over a year to resolve.

### *Misdemeanors*

The Supreme Court has set four months as the disposition timeline for a standard (non-complex) misdemeanor case. In FY19, 60% of all misdemeanor cases were resolved within four months of filing.

## The Upshot

- The court system needs additional resources, especially judges and staff, to more efficiently process cases.
- Judicial vacancies need to be filled more expeditiously.
- Simultaneously, the resource needs of State's Attorneys, the Defender General's Office, and Victim Advocates must be addressed.

# State's Attorneys

- The SAs are carrying large caseloads.
  - 63 attorneys each with an average of 333 pending criminal cases
  - Best practices standards suggest prosecutors should not handle more than 150 felonies or 400 misdemeanors per year.
- Caseloads provide an incomplete picture. Workloads are also relevant. Workloads are affected by:
  - Number of family division and juvenile cases, post-conviction relief filings, and extreme risk protection order requests in State's Attorney's office.
  - How many complex felonies in a State's Attorney's office.
    - Murder and attempted murder cases are time-consuming and there are 80 such cases with State's Attorneys.
  - The active and resource intensive work for unsolved cases and investigation-related activities.
- State's Attorney administrative staff perform critical support roles. (See related document on Appropriation's website).
- Victim Advocates in State's Attorney's offices are responsible for an average of 691 pending victim-related criminal cases.
- To determine the resource needs of the State's Attorney's offices the Department of State's Attorneys should evaluate the caseload and workload of each county office and the disposition times of cases in the county's court.

## Defender General's Office

- Increase in caseload
- Fewer conflict attorneys
- Workload Standards
  - [Rand Corporation, National Public Defense Workload Study \(2023\)](#)
  - To follow the best practices standard of this study would require approximately doubling the current staffing levels.

SUMMARY OF FY 2024 - 1/4  
 PUBLIC DEFENDER STATISTICS  
 RANKING OF CRIMINAL CASELOAD

The following two tables rank each office according to the percentage increase/decrease of added cases compared to the same period in FY 2023, and second, according to the felony percentage of cases added during FY 2024.

<u>% ADDED CRIMINAL CASES</u>		<u>% FELONY CASELOAD</u>	
Orange	48.6	Orange	32.7
Bennington	46.8	Orleans	30.0
Essex	42.9	Rutland	27.6
Chittenden	38.6	Caledonia	26.7
Washington	29.6	Addison	25.0
Franklin	23.8	Bennington	24.7
Lamoille	16.9	Windham	24.6
STATEWIDE	15.2	Franklin	24.1
Orleans	6.4	STATEWIDE	23.1
Rutland	2.3	Windsor	22.6
Grand Isle	0.0	Chittenden	21.4
Windham	-2.3	Essex	20.0
Addison	-5.1	Washington	17.2
Windsor	-8.2	Lamoille	15.5
Caledonia	-26.6	Grand Isle	7.7

# Importance of Caseflow

Courts need to be able to move cases efficiently, processing and adjudicating them in a timely manner. In addition to statutory time limits, all parties deserve certainty and immediacy.

In the criminal context, defendants' individual liberties are at stake and victims are seeking justice. For a deterrence effect, accountability must follow offenses as soon as possible.

Efficiency matters beyond the court's criminal docket, as well. Efficiency in case processing is an essential element in court users' belief that they received justice. Lengthy court cases can undermine perceived legitimacy and trust in the courts to resolve disputes fairly.

Research suggests that because of inefficiencies in the administration of justice, people may be less likely to turn to the courts with their legal issues or to believe they should comply with court orders. Prolonged court processes can be detrimental to a person's well-being and their ability to manage other responsibilities, along with their court involvement. Delays also result in increased financial costs.

Proper case management is not just about reducing delay. Speed should not favor resolving cases as quickly as possible at the expense of giving each case the attention and resources it requires. Efficiency is not about rapid case resolution, but rather good case management practices that can increase timely and just resolution, such as by ensuring all parties have adequate preparation time and making each court hearing productive.

Efficiency in caseflow resolution is vital. Properly resourcing the courts, State's Attorneys, Defenders, and victim advocates is key to the efficiency of the caseflow process.

# Other Judiciary Committee Efforts to Address Public Safety

- Amendments to Judicial Nominating Process
- Reducing pressure on courts
  - Codifying Pre-Charge Diversion
- Addressing repeat offenders
  - Retail Theft
  - Treatment Courts

    - Vermont Access to Justice Coalition
- Starting in the Senate
  - S.58 – Fentanyl
  - Bail and Violations of Conditions of Release
- Previous efforts
  - Firearm violence prevention
  - Domestic Violence

## Legal Assistance to Low Income Vermonters

Access to justice should not solely focus on moving cases through the courts. We also should ensure that individuals of limited means are assisted with their cases. These individuals generally cannot afford an attorney. Currently a large percentage of cases involve pro se litigants, individuals representing themselves without an attorney. In certain types of cases, this can lead to a power imbalance, where only one side is represented by an attorney. This is the situation in eviction cases where landlords are represented by an attorney in over 90% of the cases while tenants are represented in less than 30% of the cases.

Ensuring the stability of families and communities is key to crime prevention. Stability is challenged by housing and income inconstancy, substance use disorder, and untreated mental health conditions. Legal assistance organizations provide critical services that help low-income residents address critical legal issues impacting their families' homes, incomes, jobs and access to vital services. Low-income legal services bring stability to Vermonters by creating meaningful access to the legal system to resolve disputes, obtain benefits or services, and defend rights and processes.

Legal assistance attorneys can help a tenant file an answer to an eviction proceeding, help a senior file an appeal of a Social Security overpayment, or ensure the reinstatement of a family's health insurance. They can represent a domestic violence victim in a relief from abuse hearing, guide a client through the divorce and custody process, or connect a low-income family with a pro bono bankruptcy attorney.

These services provide critical assistance to pro se litigants in poverty in a manner that advances public safety. In order to fulfill this role, legal assistance organizations need additional resources.
