

Hi there,

My name is Peter Day, I live in Shelburne, VT. I love it here. I am proud of the state in which I live. I am a father, an educator, a musician, a taxpayer, a voter, and -- most importantly -- someone who believes in taking care of others, *especially* those who are not in a position to best take care of themselves. And I have a simple (and urgent) request on a basic human level:

PLEASE find the funding to create housing options for adults with developmental disabilities! Do what it takes. Do the right thing. We have placed our trust in **you**: you are the gatekeepers, the holders of the purse strings, the lamplighters... all that and more. Not only should you support the \$10 million for the implementation of the pilot planning grant housing begun by Act 186, you should also be supporting the funding for the annual development of stable, service-supported housing for adults with developmental disabilities. It's as simple as that.

With gratitude, and the sincere hope that you will do the right thing,

Peter Day  
Shelburne VT
