**Re:** Support for H. 858

---

Dear Representative Stevens:

I am writing to express my support for H. 858. I understand that other statewide officials have written to you as well. We had intended for this to be a collective/group letter from us together, so please consider me joined with the others in my support of this bill. As a committed supporter of the right of all frontline workers to join a union and collectively bargain, I support Vermont's roughly 90 assistant attorneys general in their right to collectively bargain and urge you and the members of your committee to advance the provisions of this important bill.

Respectfully,

Lt. Governor David Zuckerman
