- 2 The Committee on Government Operations and Military Affairs to which 3 was referred House Bill No. 702 entitled "An act relating to act relating to 4 legislative operations and government accountability" respectfully reports that 5 it has considered the same and recommends that the bill be amended by 6 striking out all after the enacting clause and inserting in lieu thereof the 7 following: 8 * * * Purpose and Findings * * * 9 Sec. 1. PURPOSE
- 10 (a) The purpose of this act is to actuate the principle of government

 11 accountability by focusing on how evidence is used to inform policy, how our

 12 State laws are carried out, and how legislation can best be formed to achieve its

 13 intended outcomes. This act strives to systematize government accountability

 14 efforts as much as possible with simple, clear, independent, objective, and fact
 15 based processes rather than rely upon individual legislators or individual

 16 committees to be effective.
 - (b) Government accountability means the principle of demanding that legislation succeeds in achieving its stated policy goals through the provision of means by which to measure whether the policy goals have been met. The metrics for determining whether success has been achieved are as important as the goals themselves.

1	(c) Government oversight means the mechanisms put into place to ensure
2	that the bodies of government tasked with executing legislative intent are
3	properly doing so. Oversight by the Legislature is the examination of the
4	processes followed and the information produced by government officials
5	executing the law to determine whether those officials are properly and
6	adequately achieving the policy goals established by the General Assembly.
