

Guiding Principles

House Health Care Committee

- Being grounded foremost in supporting a positive experience within the Vermont system of care
- Aiming to do no harm as well as repairing any harm caused by systemic oppression
- Empowering people to participate in their own healthcare to the best of their capacity
- Aiming to improve population health, support health equity, and individual wellness
- Being mindful of social determinants of health
- Addressing barriers to accessibility, affordability, sustainability, and efficiency across the health system
- Supporting and valuing our healthcare workforce so they may provide excellent care and meet the ongoing needs of the people in Vermont
