

1 **[SUBSTITUTE FOR H.693, SEC. 15 – CHANGES HIGHLIGHTED]**

2 Sec. 15. BENEFICIAL ELECTRIFICATION; STANDARD LEVEL OF
3 SERVICE; PUBLIC UTILITY COMMISSION; **REPORT**

4 (a) **Legislative intent. It is the intent of the General Assembly that the**
5 standard level of service to the meter, as defined in each regulated electric
6 utility’s tariffs for line extensions and service upgrades, shall enable residential
7 customers at existing locations who so request to participate in substantial
8 domestic electrification including managed level 2 charging capability for
9 electric vehicles without additional customer-specific charges.

10 (b) **Report. The Public Utility Commission shall include a reporting of line**
11 **extension tariffs across all electric distribution utilities, which shall also**
12 **include an analysis and comparison of electric distribution utility practices**
13 **related to requests for line extensions and service upgrades, in the report due**
14 **not later than January 15, 2025 pursuant to 2021 Acts and Resolves No. 55,**
15 **Sec. 33.**
