Reasoning behind this article: In light of the current employment and hiring situation, the Town would like to be able to open up the pool of possible candidates to be able to hire the most qualified candidates for the position in the future. By opening this up to appointment vs election will allow us to expand our search for qualified and diversified candidates for consideration outside of just our local town.

No 354
Blank 112

Reasoning behind this article: In simple terms it costs us more in administrative fees to manage this small amount (the net result of this dollar figure represents \$10 or less in tax payment)
