

Corporate Income Tax Overview

House Committee on Ways and Means

Patrick Titterton, Senior Fiscal Analyst

January 19, 2024

How does Vermont tax businesses?

- Vermont – like the Federal Government – treats taxes on net income/profit depending on how a business is structured
- Two Characterizations
 1. Corporations
 - Subject to the Corporate Tax.
 2. Pass-Through Businesses
 - Profits are divided amongst shareholders depending on shares of business.
 - Owners of the business pay taxes through the Personal Income Tax Code.
 - Increasing the corporate tax rate would not affect business income owners receive from pass-throughs.

Corporate Income Taxes

- Vermont currently applies an 8.5% marginal tax rate on net corporate income above \$25,000.
- Corporate income of a unitary group includes, the total net income of a parent corporation and all subsidiaries.
- Income is determined by an apportionment formula:
 - Pre-2023: a three-factor formula used share of payroll, property and sales in Vermont relative to national payroll, property and sales.
 - Beginning January 2023: single factor sales apportionment
 - Tax rates apply to the net income apportioned to Vermont
- Firms with zero taxable income (roughly 70% of returns) pay the minimum tax, which ranges from \$100 to \$100,000

Corporate Income Taxes

| Marginal Tax Rates | | |
|-----------------------------|----------|----------|
| Income Allocable to Vermont | | Tax Rate |
| \$0 | \$10,000 | 6.0% |
| \$10,000 | \$25,000 | 7.0% |
| \$25,000 | and up | 8.5% |

| Minimum Annual Tax | | |
|------------------------|---------------|-------------|
| Vermont Gross Receipts | | Minimum Tax |
| \$0 | \$500,000 | \$100 |
| \$500,000 | \$1,000,000 | \$500 |
| \$1,000,000 | \$5,000,000 | \$2,000 |
| \$5,000,000 | \$300,000,000 | \$6,000 |
| \$300,000,000 | and up | \$100,000 |

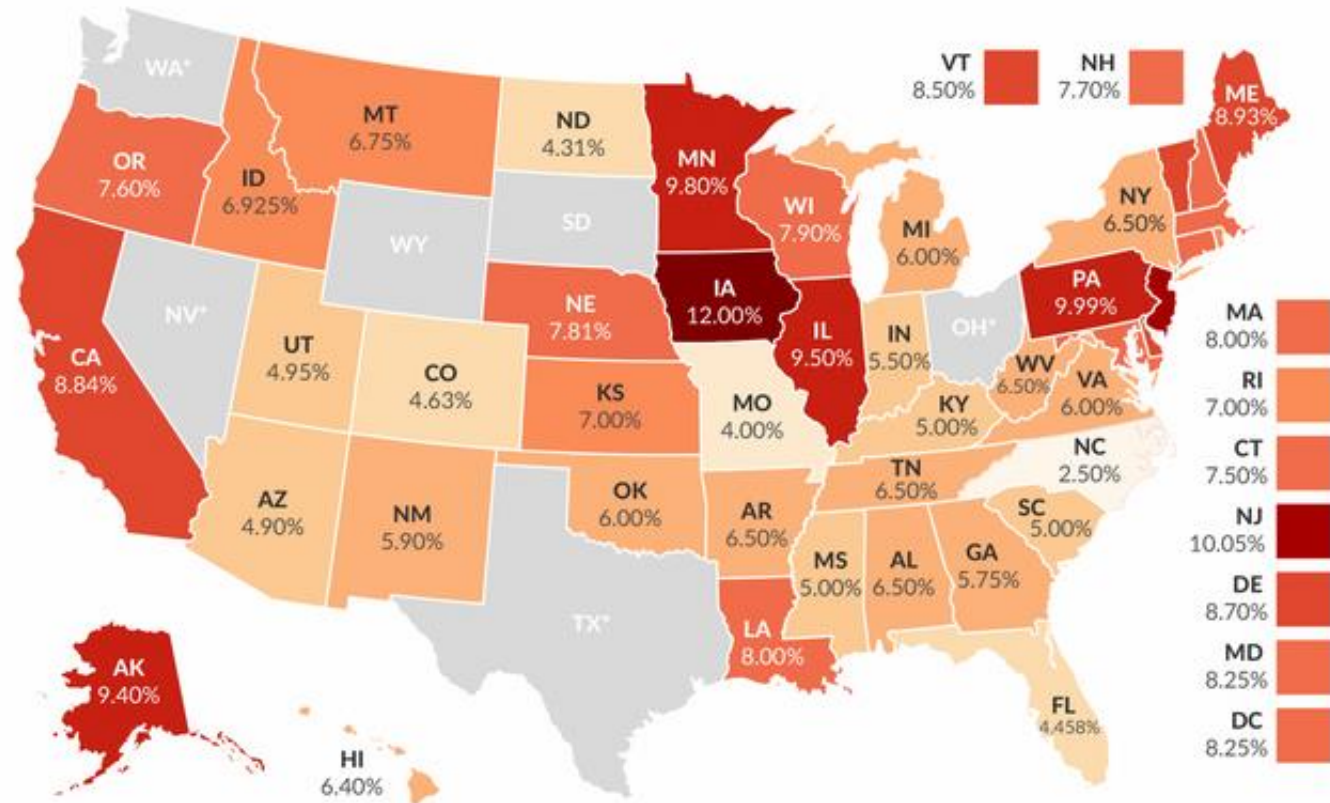

Corporate income tax in other states

- 44 states have a corporate income tax.
- 15 of these states (including Vermont) have different rates that apply to different income brackets.
- The remainder levy a single tax rate on all levels of corporate income.
- Note that apportionment factors and determination of net income across states differs so looking at the rate is only part of the story.
- Vermont's current 8.5% top corporate income tax rate starts at \$25,000 of net income.
 - At \$25,000 California (8.84%), Delaware (8.7%), Illinois (9.5%), Minnesota (9.8%), and Pennsylvania (8.9%) have higher tax rates at that level.

Top Marginal Corporate Income Tax Rates as of January 1, 2020

Note: (*) Nevada, Ohio, Texas, and Washington do not have a corporate income tax but do have a gross receipts tax with rates not strictly comparable to corporate income tax rates. Delaware and Oregon have gross receipts taxes in addition to corporate income taxes, as do several states like Pennsylvania, Virginia, and West Virginia, which permit gross receipts taxes at the local (but not state) level. Florida's corporate income tax rate will return to 5.5% for tax years beginning on or after Jan. 1, 2022. Georgia's corporate income tax rate will revert to 6% on January 1, 2026. The state could see a drop to 5.5% in 2020, pending legislative approval. Illinois' rate includes two separate corporate income taxes, one at a 7% rate and one at a 2.5% rate. Indiana's rate will change to 5.25% on July 1, 2020. The rate is scheduled to decrease to 4.9% by 2022. Mississippi continues to phase out the 3 percent bracket by increasing the exemption by \$1,000 a year. This year, the exemption is \$3,000. By the start of 2022, the 3 percent bracket will be fully eliminated. New Hampshire's rate is 7.9% for tax periods ending before Dec. 31, 2019. In New Jersey, the rates indicated apply to a corporation's entire net income rather than just income over the threshold. A temporary surcharge is in effect, bringing the rate to 10.5 percent for businesses with income over \$1 million. In addition to regular income taxes, many states impose other taxes on corporations such as gross receipts taxes and franchise taxes. Some states also impose an alternative minimum tax and special rates on financial institutions.

Corporate Income Tax Forecast Overview

- The January 2024 consensus forecast estimates corporate income tax revenue will generate \$241.5 million in revenue in FY2024. This equates to approximately 11.3% of total forecasted General Fund revenue in FY24.
- This represents a downgrade of approximately \$1.2 million or 0.5% from the July 2023 consensus forecast.
- CI tax revenue was approximately \$281.4 million in FY23. The January 2024 forecast represents a decrease of \$39.9 million or 14.2% from the prior year.

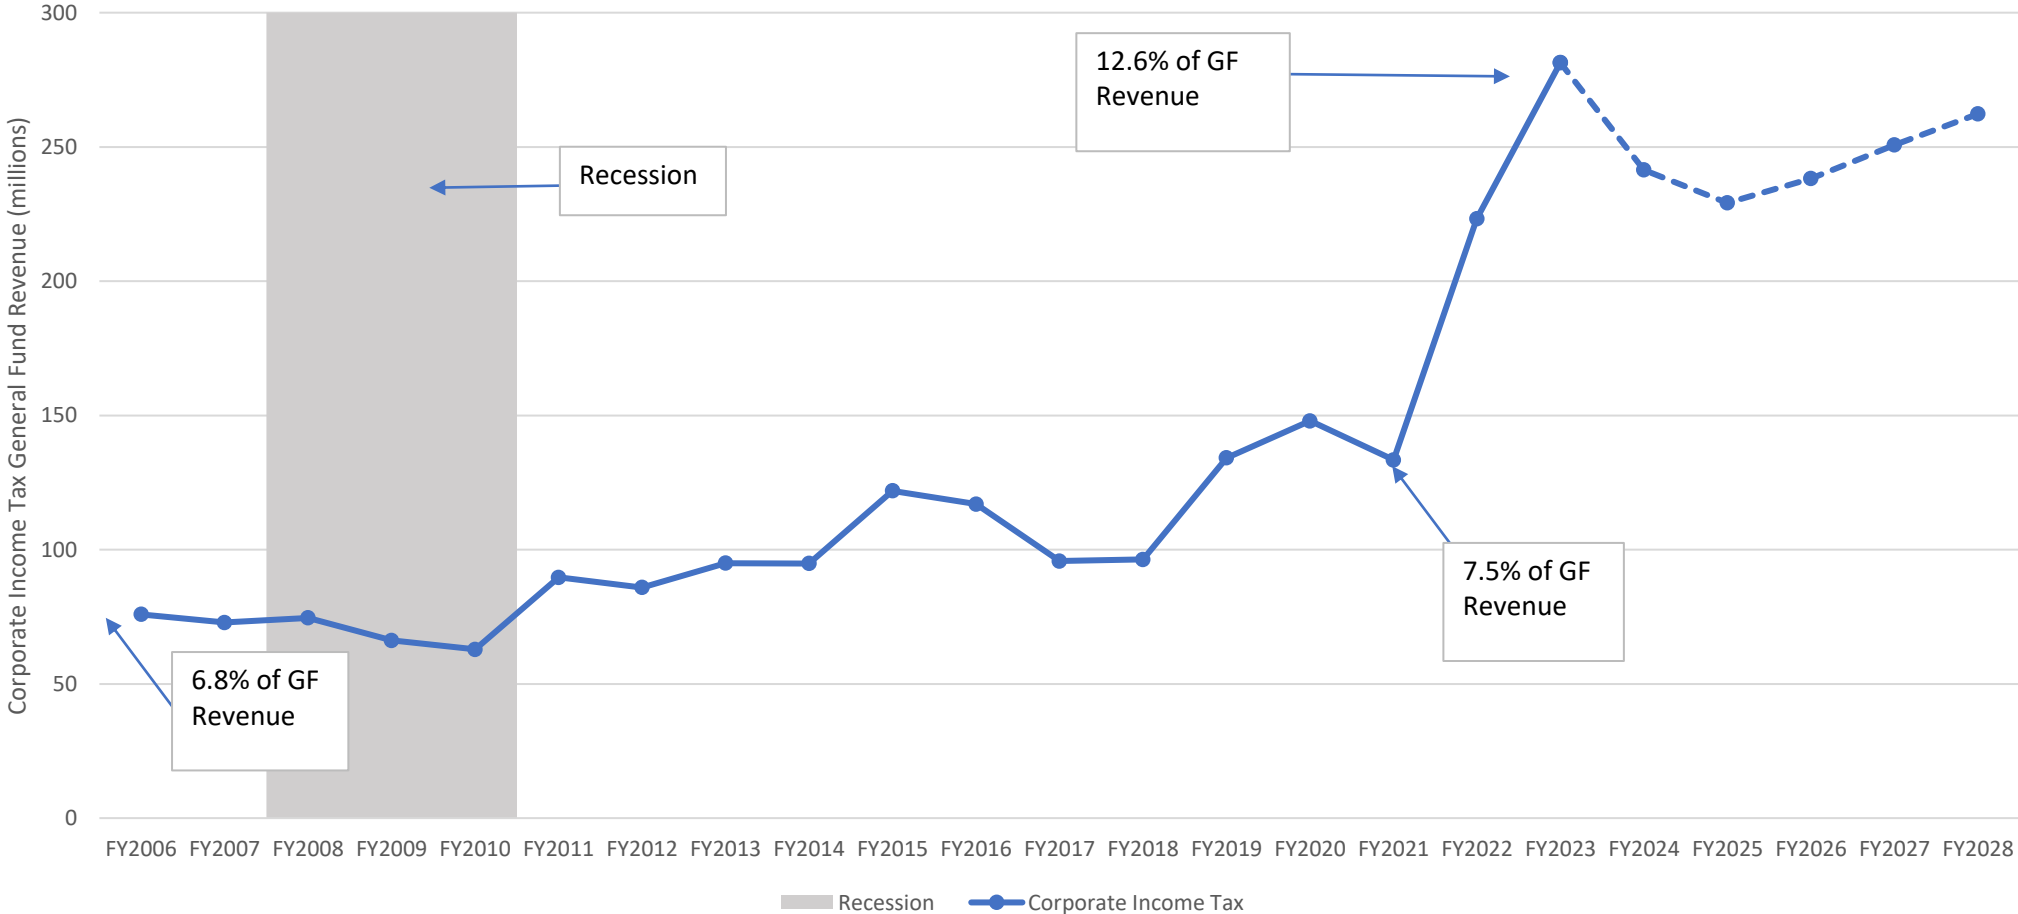

Corporate Income Tax Overview

- In the first six months of the FY24 corporate income revenue was below the July consensus forecast by approximately \$7.7 million or -7.3%.
- The consensus forecast notes that corporate income tax receipts will face growing headwinds as the economy is expected to continue to slow in the next year.
- After an initial decrease in CI revenue in FY24 and FY25 the forecast estimates revenues will start growing steadily in the years after.
- CI revenue is projected to remain about 11% of total General Fund revenue going forward.

Recent Corporate Tax Law Changes

- Repeal of 80/20 language
- Single sales factor
- Joyce to Finnigan Methodology
- Throwback rule repeal
- Minimum Corporate Taxes

Recent Corporate Tax Law Changes

- The structure of the corporate tax changes effective for tax year 2023 is largely expected to be revenue neutral. Many of the changes represented a modernization of the VT corporate tax code.
- More and better information on the effects of these changes will be available towards the end of this year.
- More details can be found in the fiscal note: https://ljfo.vermont.gov/assets/Publications/As-Passed-by-the-General-Assembly/bc8de0f4f0/GENERAL-361032-v5-S_53_Fiscal_Note_2022_Session.pdf

| Table 1: Fiscal Impacts of S.53, Committee of Conference (in millions) | | | | |
|---|---|---------------|---------------|---------------|
| Section | Description | FY2023 | FY2024 | FY2025 |
| 1 | Repeal of 80/20 Language | \$0.83 | \$2.28 | \$2.29 |
