

178

Unique Individuals in CY22

Race (groups)	Count of Individuals	Age	Count of Individuals
American Indian or Alaskan Native	Supp.	18 and Under	22
Asian	Supp.	19-21	156
Black or African American	33	Total	178
Multi-Racial	Supp.		
Some Other Race	52		
White	87		
Total	178		

178 unique individuals were incarcerated at some point during CY22 while they were ages 21 and under.

Note: Counts that are 5 or less will be suppressed to avoid disclosure of confidential information.

When breaking down a group of people by age in relation to incarceration, it's important to remember that both age and incarceration are point-in-time concepts.

This means someone's age is calculated based on specific moments, and incarceration happens at different times throughout the year, not all at once.

How This Was Analyzed (using CY2022 as an example):

1. Identifying People in 2022:

- The analysis focused on anyone who was in custody **at any point during 2022** and who was **21 or younger** at that time.
- It's important to note that while a certain number of people were in custody over the year, they weren't all in custody **at the same time**. Incarceration happens asynchronously, meaning different people are in and out of custody at various points throughout the year.

2. How Age Was Calculated:

- Age was determined based on the **earliest date** the individual was in custody during 2022.
- If someone was **already incarcerated before 2022** and remained in custody into 2022, **January 1, 2022** was used to calculate their age.
- If someone was **booked later in 2022** (e.g., **November 1, 2022**), that booking date was used to determine their age.

260

Unique Individuals in CY23

Race (groups)	Count of Individuals
American Indian or Alaskan Native	Supp.
Asian	Supp.
Black or African American	34
Multi-Racial	Supp.
Some Other Race	102
White	120
Total	260

Age	Count of Individuals
18 and Under	32
19-21	228
Total	260

260 unique individuals were incarcerated at some point during CY23 while they were ages 21 and under.

Note: Counts that are 5 or less will be suppressed to avoid disclosure of confidential information.

When breaking down a group of people by age in relation to incarceration, it's important to remember that both age and incarceration are point-in-time concepts.
