Re: 2-2-3 schedule

Please place a new survey out about the 2-2-3 in the facility not a hand picked correctional officers that support the 2-2-3. I believe that most would rather have consistently then the 2-2-3 by going back to the 5 and 2. Instead some days having extra staff allow staff to go home instead of having them do more above and beyond test like cell shakes. Staff would do a lot to get out at 2pm for 1st shift and 10 for second shift.

Maybe more want to the 2-2-3 but its been a few months and it might be surprising different with a lot of staff want to go back to the 5 and 2.

The three correctional officers that spoke don't represent the majority of Northern State and the best way to prove it put out a survey.
