

1 Introduced by Senator Starr

2 Referred to Committee on

3 Date:

4 Subject: Court procedure; agriculture; nuisance suits; agricultural activities;
5 right-to-farm

6 Statement of purpose of bill as introduced: This bill proposes to amend the
7 protection against nuisance suits for agricultural activities under the Vermont
8 right-to-farm law by providing that an agricultural activity shall not be a
9 nuisance or trespass when the activity has been in operation for more than one
10 year and the activity was not a nuisance at the time the activity was initiated, or
11 the activity complies with agricultural water quality requirements. The
12 nuisance and trespass protection for an agricultural activity would not apply
13 whenever a nuisance or trespass violation results from the negligent operation
14 of an agricultural activity or from a violation of the State agricultural water
15 quality requirements. The bill would also provide that an agricultural activity
16 shall not lose nuisance or trespass protection due to a change of ownership or a
17 cessation of operation of not more than five years; a change of crops produced;
18 or a change of a farming method or conversion of a farming practice or
19 agricultural activity to another farming method, practice, or agricultural
20 activity on a farm.

1 An act relating to protection from nuisance suits for agricultural activities

2 It is hereby enacted by the General Assembly of the State of Vermont:

3 Sec. 1. 12 V.S.A. chapter 195 is amended to read:

4 CHAPTER 195. NUISANCE SUITS AGAINST AGRICULTURAL
5 ACTIVITIES

6 § 5751. LEGISLATIVE FINDINGS AND PURPOSE

7 The General Assembly finds that agricultural production is a major
8 contributor to the State’s economy; that agricultural lands constitute unique
9 and irreplaceable resources of statewide importance; that the continuation of
10 existing and the initiation of new agricultural activities preserve the landscape
11 and environmental resources of the State, contribute to the increase of tourism,
12 and further the economic welfare and self-sufficiency of the people of the
13 State; and that the encouragement, development, improvement, and
14 preservation of agriculture will result in a general benefit to the health and
15 welfare of the people of the State. In order for the agricultural industry to
16 survive in this State, farms will likely change, adopt new technologies, and
17 diversify into new products, which for some farms will mean increasing in
18 size. The General Assembly finds that agricultural activities are potentially
19 subject to lawsuits based on the theory of nuisance, and that these suits
20 encourage and could force the premature removal of the farmlands and other
21 farm resources from agricultural use. It is the purpose of this chapter to protect

1 reasonable agricultural activities conducted on the farm from nuisance
2 lawsuits.
