

Hello,

I am writing on behalf of a special young man, Brian; the adult son of lifelong friends of mine. They are South Burlington residents. Brian is living with development disabilities.

I support \$10.82 million for the implementation of a pilot planning housing grant begun by Act 186. I further support developing a pipeline for funding the annual development of stable service-supported housing for adults with developmental disabilities.

Sincerely,  
Cynthia Yates  
Winooski
