

Vermont's pristine environment allows many anglers, Vermont Born, or moved here during the 10K incentive program, to enjoy both nature and a sport like no other. The tax revenue from travelers to the state in hotels, restaurants, fishing guides, bait and tackle stores is robust.

I myself travel hundreds / thousands of miles to catch a decent trout.

Please do not cut funding for the Salisbury Hatchery. This entity makes money, so few organizations in the state can claim that.
