

My name is Ellen McKay Jewett and I live in Middlebury. My daughter Kate McKay has a severe developmental disability (cerebral palsy, intellectual disability, spastic quadriplegia, non-verbal, and deaf).

I support the \$10.82 million for the implementation of the pilot planning grant housing begun by Act 186, and I support developing a pipeline for funding the annual development of stable, service-supported housing for adults with developmental disabilities like my daughter.

This is by far our most vulnerable population, yet they have been receiving the least attention and services from the state. This population tends to not have a voice at the table.

The State of Vermont made a promise to families like ours when Brandon was closed in 1993 that our vulnerable loved ones would be cared for in stable and supported housing, but since then there has been virtually no money invested by the State in service-supported housing for adults with I/DD.

I hope we can count on the legislature to help remedy this urgent problem this session.

Thank you -- Ellen
