On application, the State Board shall approve an independent school that offers elementary or secondary education if it finds, after opportunity for hearing, that the school provides a minimum course of study pursuant to section 906 of this title and that it substantially complies with all statutory requirements for approved independent schools and the Board's rules for approved independent schools. An independent school that intends to accept public tuition shall be approved by the State Board only on the condition that the school agrees, notwithstanding any provision of law to the contrary, to enroll any student who requires special education services and who is placed in or referred to the approved independent school as an appropriate placement and least restrictive environment for the student by the student's individualized education program team or by the local education agency; provided, however, that this requirement shall not apply to an independent school that limits enrollment to students who are on an individualized education program or a plan under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, and who are enrolled pursuant to a written agreement between the local education agency and the school. Except as provided in subdivision (6) of this subsection, the Board's rules must at minimum require that the school have the resources required to meet its stated objectives, including financial capacity, faculty who are qualified by training and experience in the areas in which they are assigned, and physical facilities and special services that are in accordance with any State or federal law or regulation. Approval may be granted without State Board evaluation in the case of any school accredited by a private, State, or regional agency recognized by the State Board for accrediting purposes, provided that the State Board shall determine that the school complies with all student enrollment provisions required by law.
- **16 V.S.A. § 2973 (effective July 1, 2023):** (a)(1) Notwithstanding any provision of law to the contrary, an approved independent school that accepts public tuition shall enroll any student with an individualized education program who requires special education services and who is placed in the approved independent school as an appropriate placement and least restrictive environment for the student by the student's individualized education program team or by the local education agency (LEA); provided, however, that this requirement shall not apply to an independent school that limits enrollment to students who are on an individualized education program or a plan under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, and who are enrolled pursuant to a written agreement between the LEA and the school.

An approved independent school that accepts students for whom the district of residence pays tuition under chapter 21 of this title shall use the assessment or assessments required under subdivision 164(9) of this title to measure attainment of standards for student performance of those students. In addition, the school shall provide data related to the assessment or assessments as required by the Secretary.
