<sup>1</sup> As part of the upgrading of its information systems, the Commission has transferred historical enforcement matter information from an obsolete program to a modern database. Commission staff are continually reviewing historical files to verify the data entered for the years 1977- 1998. The information covering may be subject to modification as the data transfer is completed and verified.

<sup>2.</sup> The ADR program began in October 2000.

<sup>3.</sup> The AF program began in July 2000.

<sup>4</sup> A large proportion of Reason to Believe findings in Administrative Fine cases are made in connection with the reporting requirements surrounding the general election and the Year-End Report to close out the two-year election cycle. While the end of the election cycle falls at the end of the even-numbered calendar year, it falls in the first quarter of the odd-numbered fiscal year.
