

I am a small business owner in Vermont and live and work in Stowe. I employ 6 Vermonters all with salaries ranging from 40-80k per year. These are good jobs. I offer healthcare benefits for each employee. I currently pay 100% for BCBSVT bronze plan. I offer 401k match. I offer 4 weeks vacation/PTO. I am being squeezed with increasing costs both professionally and personally. I am 63 years old and considering my end game with my business as well as moving out of Vermont due to these increasing costs. Do not increase our health care costs! Please stop H.766 from becoming law. Citizens like me cannot afford any more.

With gratitude,
Karen
