

# States ranked by primary care physicians per 100K people in 2024

Washington, D.C. has the most primary care physicians for every 100,000 residents, while Idaho has the least, according to KFF [data](#) published in February and 2024 U.S. Census data.

KFF sourced Redi-Data for professionally active state licensed MDs and DOs as of January 2024. In the United States, there are 523,042 active licenses. KFF also categorized physician totals by specialty, including internal medicine, family and general practice, pediatrics, obstetrics and gynecology, and geriatrics.
