

# Crisis Pregnancy Centers 101

---

Carly Thomsen, Ph.D.

Middlebury College

# What are CPCs?

---

Religiously motivated, anti-abortion non-profit organizations that function as the backbone of the anti-abortion movement.

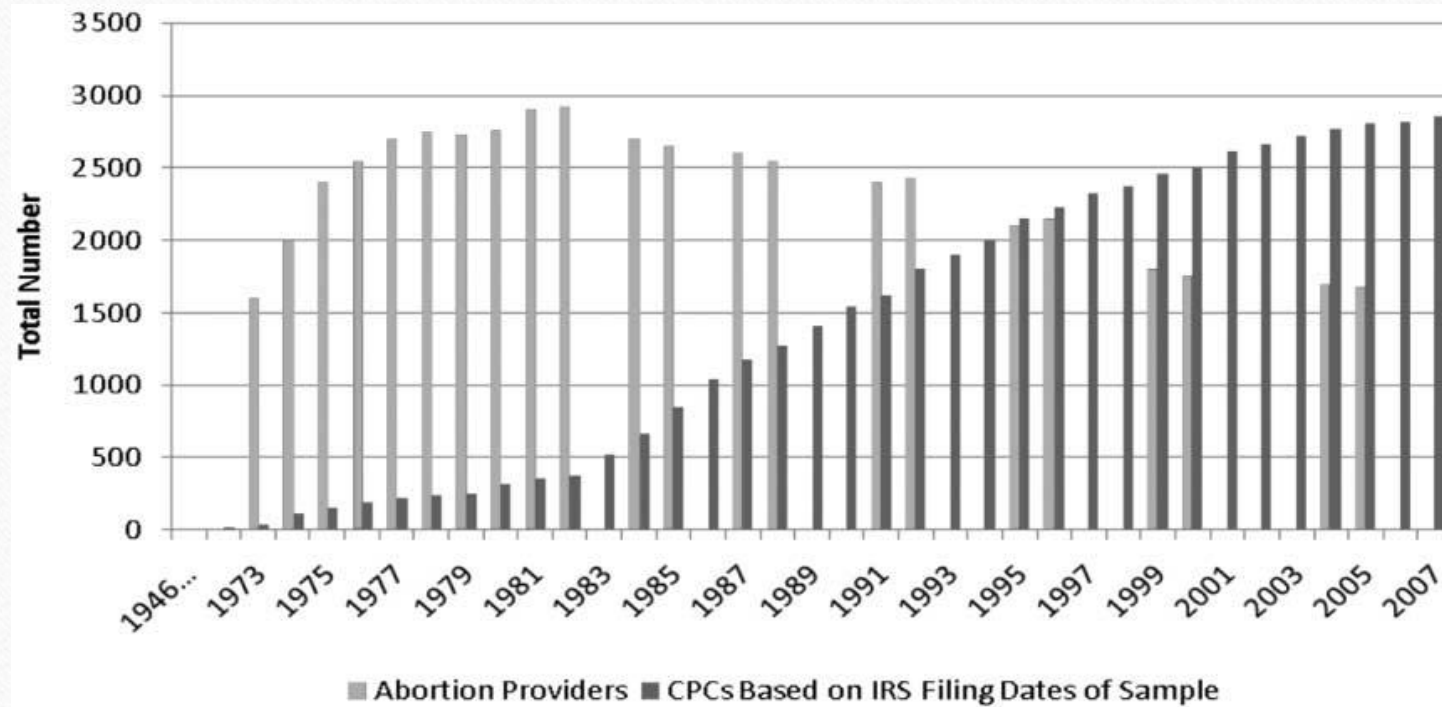

Goal: to prevent what they call “abortion-minded” women from obtaining abortions.

# Deception

---

- Disguising their political and religious motivations
- Implying that they offer abortions when they do not
- Opening near abortion clinics or in former abortion clinics
- Peddling false medical information

# CPCs increase & abortion clinics decrease

**FDA Warning on Abortion Pills By Mail: Do Not Buy Mifeprex Over the Internet**  
You should not buy Mifeprex over the Internet because you will bypass important safeguards designed to protect your health. Mifeprex has special safety restrictions on how it is distributed to the public. Also, drugs purchased from foreign Internet sources are not the FDA-approved versions of the drugs, and they are not subject to FDA-regulated manufacturing controls or FDA inspection of manufacturing facilities.

**What if I change my mind?**  
Reversal is possible if action is taken after the first dose. If you have recently taken the first pill and decided not to take the second, please contact [Abortion Pill Reversal](#).
