The FTA rate per cases disposed from 2021-May 2023.

A case is defined as all charges filed against the defendant on the same day.

Those with status Held Without Bail were removed from analysis

Numbers in () are raw numbers

	FTA	
	No	Yes
No Bail	83.38% (20,106)	16.62% (4,008)
Cash Bail	83.24% (1,619)	16.76% (326)
Total	83.37% (21,725)	16.63% (4,334)

Pearson's Chi-squared test with Yates' continuity correction

$p = .8984$

This means that there is no statistical relationship between the cash bail/no bail and FTAs on their own.

This statistical test does not take into account any other factors that may influence FTA and therefore influence this statistic.

Think of this as reasonable suspicion that bail has nothing to do with FTA, but not quite probable cause. More research is needed to get there.

A person was coded as "Cash Bail" if the bail amount was over 0 and the pre-trial release status was not Held Without Bail.

A person was coded as No Bail, if the Bail amount was 0. This includes people released on conditions, ROR and other statuses.
