

Dear Senators of the Senate Natural Resource and Energy Committee,  
Senator Kesha Ram Hinsdale, and Senator Thomas Chittenden,

I am writing to you as a resident of South Burlington regarding Senate bill S.100, the housing opportunities made for everyone (HOME) bill.

It is well past time to eliminate exclusionary zoning and discrimination against duplex and multi-unit housing. I support Senate bill S.100 and its stated purpose.

This bill addresses the need for more housing and affordable housing in Vermont. It is needed to help keep Vermont a livable place for people and to increase the supply of new homes that are clearly needed. **It will be good for Vermont and it will be good for The City of South Burlington.** Please support this bill.

Sincerely,

Steve Comeau
