1	S.254
2 3	An act relating to including rechargeable batteries and battery-containing products under the State battery stewardship program
4	The House proposes to the Senate to amend the bill as follows:
5	First: In Sec. 1, 10 V.S.A. chapter 168, in section 7581, in subdivision (9),
6	as amended, after "means" and before "readily detachable" by inserting the
7	words "the battery is"
8	and, in section 7587, by striking out subsection (a) in its entirety and
9	inserting in lieu thereof a new subsection (a) to read as follows:
10	(a) Sale prohibited. Except as set forth in subsection (b) of this section, no
11	retailer shall sell or offer for sale a primary battery, rechargeable battery, or
12	battery-containing product on or after January 1, 2016 2026 unless the
13	producer of the primary battery, rechargeable battery, or battery-containing
14	product is implementing an approved primary battery stewardship plan, is a
15	member of a primary battery stewardship organization implementing an
16	approved primary battery stewardship plan, or is exempt from participation in
17	an approved plan, as determined by review of the producers listed on the
18	Agency website required in subsection 7586(f) of this title.
19	Second: By adding two new sections to be Secs. 4a and 4b to read as
20	follows:

1	Sec. 4a. 10 V.S.A. § 7182(b) is amended to read:
2	(b) Stewardship organization registration requirements.
3	(1) On or before January July 1, 2025 and annually thereafter, a
4	stewardship organization shall file a registration form with the Secretary. The
5	Secretary shall provide the registration form to the stewardship organization.
6	The registration form shall include:
7	* * *
8	Sec. 4b. 10 V.S.A. § 6615f is added to read:
9	§ 6615f. ADMINISTRATIVE USE CONTROLS AT CONTAMINATED
10	<u>SITES</u>
11	(a) A petition for administrative use controls at a hazardous material
12	contaminated site may be made by a person responding to a release at that site.
13	The petition shall be made on a form developed by the Secretary that includes
14	the following:
15	(1) a brief description of the contamination at the site and work
16	completed under an approved corrective action plan;
17	(2) a legal description of the property or properties subject to
18	administrative use controls;
19	(3) a digital map that shows the boundaries of the property or properties
20	subject to the administrative use controls and any operational units on the
21	property or properties where more detailed controls will be applied:

1	(4) a narrative description of the uses that are prohibited on the property
2	under the administrative use control, including any specific restrictions
3	applicable to operational units on the property;
4	(5) signatures of the property owner or persons with legal control of the
5	property certifying that they accept the imposition of these administrative use
6	controls on their property; and
7	(6) any other requirement that the Secretary requires by rule.
8	(b) The Secretary shall approve the administrative use controls upon
9	finding:
10	(1) the administrative use controls adequately protect human health and
11	the environment;
12	(2) the administrative use controls are consistent with requirements of
13	the plan required by rules adopted pursuant to this chapter and approved by the
14	Secretary; and
15	(3) the petition contains adequate information to ensure that current and
16	future owners are aware of the restrictions.
17	(c) Administrative use controls may require:
18	(1) restrictions on the use of the property or operational units on the
19	property where restrictions are placed;
20	(2) a right to access the property to ensure that the restrictions are
21	maintained; and

1	(3) requirements to maintain the restrictions and report on their
2	implementation.
3	(d) Administrative use controls shall be effective until a property owner or
4	person with legal control petitions the Secretary for their removal. The
5	Secretary shall remove the administrative use controls if the property owner:
6	(1) clearly demonstrates that the contamination that was the basis of the
7	administrative use controls has naturally attenuated; or
8	(2) has completed a subsequent corrective action plan that either
9	remediates the hazardous material below environmental media standards or
10	requires alternate administrative use controls.
