Fiscal Note

April 20, 2023

Chris Rupe, Senior Fiscal Analyst

H.479 – An act relating to the Transportation Program and miscellaneous changes to laws related to transportation

As Recommended by the Senate Committee on Transportation¹

Bill Summary

The FY 2024 Transportation Bill (H.479) adopts and amends the State of Vermont's annual Transportation Program and contains numerous statutory amendments and funding authorizations related to transportation. The funding authorizations included in H.479 are subject to appropriations in the Big Bill (H.494).

The following provisions of H.479 are relevant to appropriations and revenue. However, none of these provisions have an impact to net appropriations or revenues in FY 2024.

- Electric Vehicle Incentive Program Changes: H.479 would reallocate \$550,000 of FY 2023 one-time General Fund appropriations from Replace Your Ride to the existing e-Bike Incentive Program (\$50,000) and a newly created Electrify Your Fleet program (\$500,000). Since this modifies the allowable uses of unexpended funds that were previously appropriated in FY 2023, there is no additional fiscal impact.
- Mileage-Based User Fee: H.479 would authorize the design of a mileage-based user fee for battery electric vehicles to begin in 2026 but does not explicitly establish or define that fee. Therefore, this provision does not have any direct revenue impact.

Overview of Fiscal Provisions

The following sections of the bill are pertinent to appropriations and revenues:

1. Adjustments to Electric Vehicle Incentive Program Funding

Several provisions of H.479 would adjust the authorized uses for unspent FY 2023 one-time appropriations for electric vehicle incentive programs without an added fiscal impact. See *Table 1 on the following page*.

Section 17 would create a new **Electrify Your Fleet** program to be administered by AOT and authorizes

¹Link to the report of the Senate Committee on Transportation:

AOT to spend up to \$500,000 of one-time General Funds on this program.

Section 18 would authorize \$50,000 of General Funds for the existing **e-Bike Incentive Program**.

Sections 20 through 22 would fund these two authorizations by reducing the FY 2023 General Fund authorizations and appropriations for the existing **Replace Your Ride** vehicle incentive program.

In FY 2023, \$3,000,000 of General Funds were authorized and appropriated for Replace Your Ride. The FY 2023 Budget Adjustment Act reallocated \$100,000 of unexpended appropriations from Replace Your Ride to replenish the e-Bike Incentive Program. H.479 would reallocate an additional \$550,000 of unexpended FY 2023 General Fund appropriations from Replace Your Ride to the new Electrify Your Fleet Program and increase funding for the existing e-Bike Incentive Program.

Incentive Program	FY 2023 As Passed	As Amended FY 2023 BAA	As Amended in H.479 Eff. FY 2024
Replace Your Ride	\$3,000,000	\$2,900,000	\$2,350,000
<i>Change</i>		<i>-\$100,000</i>	<i>-\$550,000</i>
e-Bike Incentives	**	\$100,000	\$150,000
<i>Change</i>		<i>+\$100,000</i>	<i>+\$50,000</i>
Electrify Your Fleet	-	-	\$500,000
<i>Change</i>			<i>+\$500,000</i>

(*) Table reflects changes to the FY 2023 General Fund appropriation to Replace Your Ride to fund other incentive programs. Table is not a complete list of all prior appropriations to these programs.
 (**) FY 2023 As Passed made a \$50,000 appropriation of Transportation Funds to E-Bike Incentives, which is not reflected in this chart.

Since these sections reallocate existing one-time appropriations, there is no additional fiscal impact.

2. Mileage-Based User Fee (MБУF)

A Mileage-Based User Fee (MБУF) is intended to capture revenue from Vermont-registered battery electric vehicles in an amount roughly equivalent to what the average internal combustion vehicle would pay in annual Vermont State gasoline taxes and assessments.² H.479 does not create a new MБУF. Rather, it authorizes AOT to apply for and accept a grant to design a MБУF that could be collected starting on July 1, 2025, subject to future legislative approval.

Section 23 establishes legislative intent to:

- Start collecting a MБУF from all battery-electric vehicles registered in Vermont starting on July 1, 2025.
- Starting on July 1, 2025, subject plug-in hybrid electric vehicles that are a pleasure car to an increased registration fee rather than a MБУF.³
- Work toward collecting a fee on electricity dispensed through public electric vehicle supply equipment to supplant lost gas tax revenue from electric vehicles.
- Not commence collecting a MБУF until the necessary authorizing language is codified in statute and becomes effective.

Section 24 would authorize AOT to apply for and accept a federal Strategic Innovation for Revenue Collection grant to design a MБУF for battery electric vehicles. AOT would be authorized to spend up to \$350,000 of Transportation Funds for the non-federal match in FY 2024, which is included in the proposed FY 2024 transportation budget. It is expected that additional non-federal match would be required in FY 2025, which will depend on the amount of federal funding secured from the grant.

² No explicit MБУF rate has been proposed. However, prior analysis estimated that a rate of 1.3 cents per mile, or \$150 per year, would be roughly equivalent to what the average comparable Vermont vehicle would have otherwise paid in gasoline taxes.

³ The intent behind assessing a higher registration fee on plug-in hybrids is to supplant lost gas tax revenue from road usage when these vehicles are in battery-electric mode without using gas.

Section 26 would require the Agency to file a written report with relevant legislative committees by January 31, 2024, with a comprehensive implementation plan and recommended per-mile MBUF rate. The report must also include recommended statutory language to commence collecting a MBUF on July 1, 2025, along with extensive fiscal analysis.
