

1 H.801

2 SHORT FORM

3 Introduced by Representative Cina of Burlington

4 Referred to Committee on

5 Date:

6 Subject: Government operations; conservation and development; State and

7 municipal land use; development plans

8 Statement of purpose of bill as introduced: This bill proposes to create a  
9 working group tasked with improving State and regional government  
10 operations. This working group would have members appointed by regional  
11 planning commissions, regional development corporations, relevant State  
12 agencies, municipalities, and other relevant stakeholders. The working group  
13 would produce a report by December 2026 that includes a survey of existing  
14 State programs that assist municipalities and an assessment of their impact; a  
15 proposal for enhancing regional governance and the coordination and sharing  
16 of services; recommendations for improved coordination of regional plans into  
17 uniform State processes; and any recommendations for reconfiguring and  
18 consolidating all State boards and commissions. In consultation with the  
19 Artificial Intelligence Advisory Council and the Division of Artificial  
20 Intelligence, the working group would create opportunities for expanded public  
21 engagement on the group's work and resulting report that explores use of

1       artificial intelligence and incorporates incentives for participation that improve  
2       social determinants of health.

3               An act relating to improving State and regional operations

4       It is hereby enacted by the General Assembly of the State of Vermont:
