H.853

SHORT FORM

Introduced by Representative Cina of Burlington

Referred to Committee on

Date:

Subject: Health; mental health; criminal justice system; contingency

management therapy; neurofeedback

Statement of purpose of bill as introduced: This bill proposes to expand access to contingency management therapy and neurofeedback in Vermont's health care and criminal justice systems by appropriating funds for existing programs using these techniques, studying methods to further implement contingency management therapy in the health care and criminal justice systems, and creating pilots that use neurofeedback to promote recovery for justice-involved individuals.

An act relating to expanded use of contingency management therapy and neurofeedback in Vermont's health care and criminal justice systems

It is hereby enacted by the General Assembly of the State of Vermont:
