4 Subchapter 3B. Pathway to Licensure for Internationally Trained Physicians
5 and Medical Graduates

6 § 1425. DEFINITIONS

7 As used in this subchapter:

8 (1) “Health care facility” has the same meaning as in 18 V.S.A. § 9402.

9 (2) “Internationally trained physician” and “medical graduate” mean an
10 individual who has received a degree of doctor of medicine and who has been
11 licensed or otherwise authorized to practice medicine in a country other than
12 the United States.

13 (3) “Participating health care facility” means a hospital, federally
14 qualified health center, or community health center approved by the Board that
15 has the capacity to provide an assessment and evaluation program designed to
16 evaluate an internationally trained physician, as set forth in section 1427 of this
17 chapter.

18 § 1426. PROVISIONAL LICENSE TO PRACTICE WITH SUPERVISION

19 (a) The Board may issue a provisional license to practice with supervision
20 to an individual who submits evidence acceptable to the Board demonstrating
21 that the applicant meets all of the following criteria:

1 (1)(A) The applicant has received a degree of doctor of medicine or its
2 equivalent from a legally chartered medical school outside the United States
3 that is recognized by the World Health Organization or the Foundation for
4 Advancement of International Medical Education and Research or that appears
5 on the official list of medical schools recognized by the Medical Board of
6 California.

7 (B) The applicant has been licensed or otherwise authorized to
8 practice medicine in a country other than the United States and has practiced
9 medicine for at least three years unless the Board approves an alternative
10 period.

11 (C) The applicant has provided sufficient evidence to the Board that
12 the applicant has done all of the following:

13 (i) demonstrated capacity to practice medicine, as determined by
14 the Board;

15 (ii) completed a three-year post-graduate program in the
16 applicant's country of training; and

17 (iii) practiced as a medical professional performing the duties of a
18 physician outside the United States for at least three of the last five years.

19 (2) The applicant has not been out of the practice of medicine for more
20 than five years unless the Board approves an alternative time period.

1 (3) The applicant has a valid certificate issued by the Educational
2 Commission for Foreign Medical Graduates or another credential evaluation
3 service approved by the Board; provided, however, that the Board may waive
4 the certification requirement at its discretion if an applicant is unable to obtain
5 the required documentation from a noncooperative country.

6 (4) The applicant has achieved a passing score on both Step 1 and Step 2
7 of the United States Medical Licensing Examination.

8 (5) Prior to submitting an application to the Board, the applicant has
9 entered into an agreement for employment with a participating health care
10 facility that offers an assessment and evaluation program designed to develop,
11 assess, and evaluate a provisionally licensed physician's clinical and
12 nonclinical skills and familiarity with standards appropriate for medical
13 practice in Vermont according to criteria approved by the Board by rule.

14 (6) The applicant does not meet any of the disqualifying criteria set forth
15 in subsection (d) of this section.

16 (b) A provisional license issued by the Board under this section shall be
17 valid for a period of two years, at the end of which the provisionally licensed
18 physician shall be eligible to apply for a limited license to practice medicine as
19 set forth in section 1428 of this chapter.

20 (c)(1) A provisional license issued by the Board under this section shall
21 authorize the provisionally licensed physician to practice medicine only at the

1 participating health care facility with which the physician has entered into an
2 employment agreement and only with supervision, as set forth in section 1427
3 of this chapter.

4 (2)(A) A provisionally licensed physician may change employers during
5 the period of provisional licensure with the approval of the Board, provided
6 that the physician shall complete a total of two years of supervised practice
7 with a participating health care facility prior to becoming eligible for a limited
8 license.

9 (B) Notwithstanding any provision of this section to the contrary, the
10 Board shall have discretion to extend the required period of provisional
11 licensure with supervision for up to one additional year based on a change in
12 the provisionally licensed physician's site of employment.

13 (d) An applicant shall be ineligible to receive a provisional license under
14 this section if the applicant has:

15 (1) previously had a license or other authorization to practice medicine
16 suspended, revoked, limited, conditioned, or otherwise restricted on the basis
17 of the applicant's unprofessional conduct;

18 (2) been convicted of a crime; or

19 (3) otherwise demonstrated a lack of competence or lack of moral
20 character.

1 § 1427. PARTICIPATING HEALTH CARE FACILITIES

2 In order to be eligible to be a participating health care facility for purposes
3 of this chapter, a health care facility shall:

4 (1) agree to provide medical mentoring, evaluation, assessment, and
5 support in navigating the U.S. health care system by one or more fully licensed
6 physicians employed by the health care facility to a provisionally licensed
7 physician using an evaluation and assessment system developed under
8 protocols approved by the Board;

9 (2) ensure that the mentoring, evaluation, assessment, and support of a
10 provisionally licensed physician is provided by one or more fully licensed
11 physicians who are physically located in Vermont and that the provisionally
12 licensed physician provides services only to patients physically located in
13 Vermont;

14 (3) carry medical malpractice insurance covering the provisionally
15 licensed physician for the duration of that physician's employment by the
16 participating health care facility; and

17 (4) not retaliate against or discipline a provisionally licensed physician
18 for making a complaint or pursuing enforcement of an employment-related
19 claim.

1 § 1428. LIMITED LICENSE TO PRACTICE MEDICINE

2 (a)(1) Within 90 days prior to completion of the two-year period of
3 provisional licensure pursuant to section 1426 of this chapter, an individual
4 shall be eligible to apply for a two-year limited license to practice medicine in
5 Vermont.

6 (2) A limited license shall not be renewed more than once.

7 (3) After two years of practice under a limited license, a physician shall
8 be eligible to apply for a full, unrestricted license to practice medicine in this
9 State.

10 (b) The Board may issue a limited license to practice medicine to an
11 applicant who meets all of the following criteria:

12 (1) The applicant is on track to successfully complete a participating
13 health care facility's assessment and evaluation program.

14 (2) The applicant has an offer of full-time employment from a health
15 care facility or an offer of continued full-time employment from the
16 participating health care facility with whom the applicant is employed for the
17 assessment and evaluation program, and the facility is located in Vermont and
18 accepts patients covered by Medicaid or Medicare, or both.

19 (3) The applicant has achieved a passing score on Step 3 of the United
20 States Medical Licensing Examination.

1 (c)(1) The Board shall issue a limited license to practice medicine under
2 this section to begin immediately upon a provisionally licensed physician's
3 completion of a participating health care facility's assessment and evaluation
4 program and the end of the provisional license in order to avoid gaps in
5 licensure.

6 (2) The Board may rescind or refuse a limited license to practice
7 medicine under this section if the applicant fails to successfully complete the
8 participating health care facility's assessment and evaluation program.

9 § 1429. REFUSAL OF APPLICATION FOR PROVISIONAL OR LIMITED

10 LICENSURE

11 If the Board refuses to issue a provisional or limited license to an
12 internationally trained physician or medical graduate under this subchapter, the
13 Board shall provide specific reasons for the refusal to the applicant. A refusal
14 shall be considered a final order of the Board that may be appealed in
15 accordance with section 1367 of this chapter.
