(4) adopt by act of the legislative body of the municipality the plan developed under subdivision (2) of this subsection, which shall be recorded with the municipal clerk and lister or assessor.

(c) The creation of a housing development site shall occur at 12:01 a.m. on April 1 of the calendar year in which the Vermont Economic Progress Council approves the use of tax increment financing for the housing infrastructure project pursuant to section 1910 of this subchapter.

(b) A municipality shall provide notice of the terms of the housing infrastructure agreement for the municipality's housing infrastructure project to the legal voters of the municipality and shall provide the same information as set forth in subsection 1910a(e) of this subchapter.

§ 1910. HOUSING INFRASTRUCTURE PROJECT APPLICATION; VERMONT ECONOMIC PROGRESS COUNCIL

(a) Application. A municipality, upon approval of its legislative body, may apply to the Vermont Economic Progress Council to use tax increment financing for a housing infrastructure project.

(b) Review. The Vermont Economic Progress Council may approve only applications that:

- (1) meet the process requirements, the project criterion, and any of the location criteria of this section; and
- (2) are submitted on or before December 31, 2035.

(c) Process requirements. The Vermont Economic Progress Council shall review a municipality's housing infrastructure project application to determine whether the municipality has:

- (1) created a housing infrastructure project and housing development site pursuant to section 1908 of this subchapter;
- (2) executed a housing infrastructure agreement for the housing infrastructure project adhering to the standards of section 1909 of this subchapter with a developer and, if the municipality is not financing the housing infrastructure project itself, a sponsor; and

(3) approved or pledged to use incremental municipal tax revenues for the housing infrastructure project in the proportion provided for municipal tax revenues in section 1910c of this subchapter.

(d) Project criterion. The Vermont Economic Progress Council shall review a municipality's housing infrastructure project application to determine whether the projected housing development includes housing.

(e) Location criteria. The Vermont Economic Progress Council shall review a municipality's housing infrastructure project application to determine whether the housing development site is located within one of the following areas:

(1) an area designated Tier 1A or Tier 1B pursuant to 10 V.S.A. chapter 151 (State land use and development plans) or an area exempt from the provisions of that chapter pursuant to 10 V.S.A. § 6081(dd) (interim housing exemptions);

(2) an area designated Tier 2 pursuant to 10 V.S.A. chapter 151 (State land use and development plans) or an area in which the housing development site is compatible with regional and town land use plans as evidenced by a letter of support from the regional planning commission for the municipality;
or

(3) an existing settlement or an area within one-half mile of an existing settlement, as that term is defined in 10 V.S.A. § 6001(16).

(f) Tax increment financing plan. The Vermont Economic Progress Council shall approve a municipality's tax increment financing plan prior to a sponsor's incurrence of debt for the housing infrastructure project, including, if the sponsor is a municipality, prior to a public vote to pledge the credit of the municipality under section 1910a of this subchapter. The tax increment financing plan shall include:

(1) a statement of costs and sources of revenue;

(2) estimates of assessed values within the housing development site;

(3) the portion of those assessed values to be applied to the housing infrastructure project;

(4) the resulting tax increments in each year of the financial plan;

(5) the amount of bonded indebtedness or other financing to be incurred;

(6) other sources of financing and anticipated revenues; and

(7) the duration of the financial plan.

§ 1910a. INDEBTEDNESS

(a) A municipality approved for tax increment financing under section 1910 of this subchapter may incur indebtedness against revenues of the housing development site at any time during a period of up to five years following the creation of the housing development site. The Vermont Economic Progress Council may extend this debt incursion period by up to three years. If no debt is incurred for the housing infrastructure project during the debt incursion period, whether by the municipality or sponsor, the housing development site shall terminate.

(b) Notwithstanding any provision of any municipal charter, each instance of borrowing by a municipality to finance or otherwise pay for a housing infrastructure project shall occur only after the legal voters of the municipality, by a majority vote of all voters present and voting on the question at a special or annual municipal meeting duly warned for the purpose, authorize the legislative body to pledge the credit of the municipality, borrow, or otherwise secure the debt for the specific purposes so warned.

(c) Any indebtedness incurred under this section may be retired over any period authorized by the legislative body of the municipality.

(d) The housing development site shall continue until the date and hour the indebtedness is retired or, if no debt is incurred, five years following the creation of the housing development site.

(e) A municipal legislative body shall provide information to the public prior to the public vote required under subsection (b) of this section. This information shall include the amount and types of debt and related costs to be incurred, including principal, interest, and fees; terms of the debt; the housing infrastructure project to be financed; the housing development projected to occur because of the housing infrastructure project; and notice to the voters that if the tax increment received by the municipality from any property tax source is insufficient to pay the principal and interest on the debt in any year, the municipality shall remain liable for the full payment of the principal and interest for the term of the indebtedness. If interfund loans within the municipality are used, the information must also include documentation of the terms and conditions of the loan.

(f) If interfund loans within the municipality are used as the method of financing, no interest shall be charged.

(g) The use of a bond anticipation note shall not be considered a first incurrence of debt pursuant to subsection (a) of this section.

§ 1910b. ORIGINAL TAXABLE VALUE; TAX INCREMENT

(a) As of the date the housing development site is created, the lister or assessor for the municipality shall certify the original taxable value and shall certify to the legislative body in each year thereafter during the life of the housing development site the amount by which the total valuation as determined in accordance with 32 V.S.A. chapter 129 of all taxable real property within the housing development site has increased or decreased relative to the original taxable value.

(b) Annually throughout the life of the housing development site, the lister or assessor shall include not more than the original taxable value of the real property in the assessed valuation upon which the treasurer computes the rates of all taxes levied by the municipality and every other taxing district in which the housing development site is situated, but the treasurer shall extend all rates so determined against the entire assessed valuation of real property for that year.

(c) Annually throughout the life of the housing development site, a municipality shall remit not less than the aggregate education property tax due on the original taxable value to the Education Fund.

(d) Annually throughout the life of the housing development site, the municipality shall hold apart, rather than remit to the taxing districts, that proportion of all taxes paid that year on the real property within the housing development site that the excess valuation bears to the total assessed valuation. The amount held apart each year is the "tax increment" for that year. The tax increment shall only be used for financing and related costs.

(e) Not more than the percentages established pursuant to section 1910c of this subchapter of the municipal and State education tax increments received with respect to the housing development site and committed for the payment for financing for improvements and related costs shall be segregated by the municipality in a special tax increment financing account and in its official books and records until all capital indebtedness incurred for the housing infrastructure project has been fully paid. The final payment shall be reported to the treasurer, who shall thereafter include the entire assessed valuation of the housing development site in the assessed valuations upon which the municipal and other tax rates are computed and extended, and thereafter no taxes from the housing development site shall be deposited in the special tax increment financing account.

(f) Notwithstanding any charter provision or other provision, all property taxes assessed within a housing development site shall be subject to the provisions of this section. Special assessments levied under chapter 76A or 87 of this title or under a municipal charter shall not be considered property taxes

for the purpose of this section if the proceeds are used exclusively for operating expenses related to properties within the housing development site and not for improvements within the housing development site.

§ 1910c. USE OF TAX INCREMENT; RETENTION PERIOD

(a) Uses of tax increments. A municipality may apply tax increments retained pursuant to this subchapter to debt incurred within the period permitted under section 1910a of this subchapter, to related costs, and to the direct payment of the cost of a housing infrastructure project. Any direct payment shall be subject to the same public vote provisions of section 1910a of this subchapter as apply to debt.

(b) Education property tax increment. Up to 80 percent of the education property tax increment may be retained for up to 20 years, beginning the first year in which debt is incurred for the housing infrastructure project. Upon incurring the first debt, a municipality shall notify the Department of Taxes and the Vermont Economic Progress Council of the beginning of the retention period of the education property tax increment.

(c) Municipal property tax increment. Not less than 100 percent of the municipal property tax increment may be retained, beginning the first year in which debt is incurred for the housing infrastructure project.

(d) Excess tax increment.

(1) Of the municipal and education property tax increments received in any tax year that exceed the amounts committed for the payment of the financing and related costs for a housing infrastructure project, equal portions of each increment may be retained for the following purposes:

(A) to prepay principal and interest on the financing;

(B) to place in a special tax increment financing account required pursuant to subsection 1910b(e) of this subchapter and use for future financing payments; or

(C) to use for defeasance of the financing.

(2) Any remaining portion of the excess education property tax increment shall be distributed to the Education Fund. Any remaining portion of the excess municipal property tax increment shall be distributed to the city, town, or village budget in the proportion that each budget bears to the combined total of the budgets unless otherwise negotiated by the city, town, or village.

§ 1910d. INFORMATION REPORTING

(a) A municipality with an active housing infrastructure project shall:

(1) develop a system, segregated for the housing infrastructure project, to identify, collect, and maintain all data and information necessary to fulfill the reporting requirements of this section;

(2) provide timely notification to the Department of Taxes and the Vermont Economic Progress Council of any housing infrastructure project debt, public vote, or vote by the municipal legislative body immediately following the debt incurrence or public vote on a form prescribed by the Council, including copies of public notices, agendas, minutes, vote tally, and a copy of the information provided to the public pursuant to subsection 1910a(e) of this subchapter; and

(3) annually on or before February 15, submit on a form prescribed by the Vermont Economic Progress Council an annual report to the Council and the Department of Taxes, including the information required by subdivision (2) of this subsection if not previously submitted, the information required for annual audit under section 1910e of this subchapter, and any information required by the Council or the Department of Taxes for the report required pursuant to subsection (b) of this section.

(b) Annually on or before April 1, the Vermont Economic Progress Council and the Department of Taxes shall submit a report to the Senate Committees on Economic Development, Housing and General Affairs and on Finance and the House Committees on Commerce and Economic Development and on Ways and Means on housing infrastructure projects approved pursuant to this subchapter, including for each of the following:

(1) the date of approval;

(2) a description of the housing infrastructure project;

(3) the original taxable value of the housing development site;

(4) the scope and value of projected and actual improvements and developments in the housing development site, including the number of housing units created;

(5) the number and types of housing units for which a permit is being pursued under 10 V.S.A. chapter 151 (State land use and development plans) and, for each applicable housing development, the current stage of the permitting process;

(6) projected and actual incremental revenue amounts;

(7) the allocation of incremental revenue; and

§ 1910e. AUDITING

Annually on or before April 1 until the year following the end of the period for retention of education property tax increment, a municipality with a housing infrastructure project approved under this subchapter shall ensure that the special tax increment financing account required by section 1910b of this subchapter is subject to the annual audit prescribed in section 1681 or 1690 of this title and submit a copy to the Vermont Economic Progress Council. If an account is subject only to the audit under section 1681 of this title, the Council shall ensure a process is in place to subject the account to an independent audit. Procedures for the audit must include verification of the original taxable value and annual and total municipal and education property tax increments generated, expenditures for financing and related costs, and current balance.

§ 1910f. GUIDANCE

(a) The Secretary of Commerce and Community Development, after reasonable notice to a municipality and an opportunity for a hearing, may issue decisions to a municipality on questions and inquiries concerning the administration of housing infrastructure projects, statutes, rules, noncompliance with this subchapter, and any instances of noncompliance identified in audit reports conducted pursuant to section 1910e of this subchapter.

Sec. 2. 18 V.S.A. § 9375 is amended to read:

§ 9375. DUTIES

(a) The Board shall execute its duties consistent with the principles expressed in section 9371 of this title.

(b) The Board shall have the following duties:

(1) Oversee the development and implementation, and evaluate the effectiveness, of health care payment and delivery system reforms designed to control the rate of growth in health care costs; promote seamless care, administration, and service delivery; and maintain health care quality in Vermont, including ensuring that the payment reform pilot projects set forth in this chapter are consistent with such reforms.

(A) Implement by rule, pursuant to 3 V.S.A. chapter 25, methodologies for achieving payment reform and containing costs that may include the participation of Medicare and Medicaid, which may include the creation of health care professional cost-containment targets, reference-based pricing, global payments, bundled payments, global budgets, risk-adjusted capitated payments, or other uniform payment methods and amounts for integrated delivery systems, health care professionals, or other provider arrangements.

* * *

(5) Set rates for health care professionals pursuant to section 9376 of this title, to be implemented over time beginning with reference-based pricing as soon as practicable, but not later than hospital fiscal year 2027, and make adjustments to the rules on reimbursement methodologies as needed.

(6) Approve, modify, or disapprove requests for health insurance rates pursuant to 8 V.S.A. § 4062, taking into consideration the requirements in the underlying statutes; changes in health care delivery; changes in payment methods and amounts, including implementation of reference-based pricing; protecting insurer solvency; and other issues at the discretion of the Board.

(7) Review and establish hospital budgets pursuant to chapter 221, subchapter 7 of this title, including establishing standards for global hospital budgets that reflect the implementation of reference-based pricing and the total cost of care targets determined in collaboration with federal partners and other stakeholders or as set by the Statewide Health Care Delivery Plan developed pursuant to section 9403 of this title, once established. Beginning not later than hospital fiscal year 2028, to the extent that resources are available, the Board shall establish global hospital budgets for one or more Vermont hospitals that are not critical access hospitals. Sec. 3. 18 V.S.A. § 9376 is amended to read:

§ 9376. PAYMENT AMOUNTS; METHODS

(a) Intent. It is the intent of the General Assembly to ensure payments to health care professionals that are consistent with efficiency, economy, and quality of care and will permit them to provide, on a solvent basis, effective and efficient health services that are in the public interest. It is also the intent of the General Assembly to eliminate the shift of costs between the payers of health services to ensure that the amount paid to health care professionals is sufficient to enlist enough providers to ensure that health services are available to all Vermonters and are distributed equitably.

(b) Rate-setting.

(1) The Board shall set reasonable rates for health care professionals, health care provider bargaining groups created pursuant to section 9409 of this title, manufacturers of prescribed products, medical supply companies, and other companies providing health services or health supplies based on methodologies pursuant to section 9375 of this title, in order to have a consistent reimbursement amount accepted by these persons. In its discretion, the Board may implement rate-setting for different groups of health care professionals over time and need not set rates for all types of health care professionals. In establishing rates, the Board may consider legitimate differences in costs among health care professionals, such as the cost of providing a specific necessary service or services that may not be available elsewhere in the State, and the need for health care professionals in particular areas of the State, particularly in underserved geographic or practice shortage areas.

(2) Nothing in this subsection shall be construed to:

(A) limit the ability of a health care professional to accept less than the rate established in subdivision (1) of this subsection (b) from a patient without health insurance or other coverage for the service or services received; or

(B) reduce or limit the covered services offered by Medicare or Medicaid.

(c) Methodologies. The Board shall approve payment methodologies that encourage cost-containment; provision of high-quality, evidence-based health

services in an integrated setting; patient self-management; access to primary care health services for underserved individuals, populations, and areas; and healthy lifestyles. Such methodologies shall be consistent with payment reform and with evidence-based practices, and may include fee-for-service payments if the Board determines such payments to be appropriate.

(d) Supervision. To the extent required to avoid federal antitrust violations and in furtherance of the policy identified in subsection (a) of this section, the Board shall facilitate and supervise the participation of health care professionals and health care provider bargaining groups in the process described in subsection (b) of this section.

(e) Reference-based pricing.

(1)(A) The Board shall establish reference-based prices that represent the maximum amounts that hospitals shall accept as payment in full for items provided and services delivered in Vermont. The Board may also implement reference-based pricing for services delivered outside a hospital by setting the minimum amounts that shall be paid for items provided and services delivered by nonhospital-based health care professionals. The Board shall consult with health insurers, hospitals, other health care professionals as applicable, the Office of the Health Care Advocate, and the Agency of Human Services in developing reference-based prices pursuant to this subsection (e), including on ways to achieve all-payer alignment on the design and implementation of reference-based pricing.

(B) The Board shall implement reference-based pricing in a manner that does not allow health care professionals to charge or collect from patients or health insurers any amount in excess of the reference-based amount established by the Board.

(2)(A) Reference-based prices established pursuant to this subsection (e) shall be based on a percentage of the Medicare reimbursement for the same or a similar item or service or on another benchmark, as appropriate, provided that if the Board establishes prices that are referenced to Medicare, the Board may opt to update the prices in the future based on a reasonable rate of growth that is separate from Medicare rates, such as the Medicare Economic Index measure of inflation, in order to provide predictability and consistency for health care professionals and payers and to protect against federal funding pressures that may impact Medicare rates in an unpredictable manner. The Board may also reference to, and update based on, other payment or pricing systems where appropriate.

(B) In establishing reference-based prices for a hospital pursuant to this subsection (e), the Board shall consider the composition of the

communities served by the hospital, including the health of the population, demographic characteristics, acuity, payer mix, labor costs, social risk factors, and other factors that may affect the costs of providing care in the hospital service area, as well as the hospital's role in Vermont's health care system.

(3)(A) The Board shall begin implementing reference-based pricing as soon as practicable but not later than hospital fiscal year 2027 by establishing the maximum amounts that Vermont hospitals shall accept as payment in full for items provided and services delivered. After initial implementation, the Board shall review the reference-based prices for each hospital annually as part of the hospital budget review process set forth in chapter 221, subchapter 7 of this title.

(B) The Board, in collaboration with the Department of Financial Regulation, shall monitor the implementation of reference-based pricing to ensure that any decreases in amounts paid to hospitals also result in decreases in health insurance premiums. The Board shall post its findings regarding the alignment between price decreases and premium decreases annually on its website.

(4) The Board shall identify factors that would necessitate terminating or modifying the use of reference-based pricing in one or more hospitals, such as a measurable reduction in access to or quality of care.

(5) The Green Mountain Care Board, in consultation with the Agency of Human Services and the Vermont Steering Committee for Comprehensive Primary Health Care established pursuant to section 9403b of this title, may implement reference-based pricing for services delivered outside a hospital, such as primary care services, and may increase or decrease the percentage of Medicare or another benchmark as appropriate, first to enhance access to primary care and later for alignment with the Statewide Health Care Delivery Strategic Plan established pursuant to section 9403 of this title, once established. The Board may consider establishing reference-based pricing for services delivered outside a hospital by setting minimum amounts that shall be paid for the purpose of prioritizing access to high-quality health care services in settings that are appropriate to patients' needs in order to contain costs and improve patient outcomes.

(6) The Board's authority to establish reference-based prices pursuant to this subsection shall not include the authority to set amounts applicable to items provided or services delivered to patients who are enrolled in Medicare or Medicaid.
