The Senate proposed to the House to amend House bill, entitled

An act relating to stormwater management

The Senate proposed to the House to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. 10 V.S.A. § 1264 is amended to read:

§ 1264. STORMWATER MANAGEMENT

* * *

(c) Prohibitions.

* * *

(7) In accordance with the schedule established under subdivision (g)(3) of this section, a person shall not discharge stormwater from impervious surface of three or more acres in size without first obtaining an individual permit or coverage under a general permit issued under this section if the discharge was never previously permitted or was permitted under an individual permit or general permit that did not incorporate the requirements of the 2002 Stormwater Management Manual or any subsequently adopted Stormwater Management Manual. The Secretary shall provide notice to all owners of property subject to the permit required under this subdivision.

(d) Exemptions.

* * *

(2) No permit is required under subdivision (c)(1), (5), or (7) of this section and for which a municipality has assumed full legal responsibility as part of a permit issued to the municipality by the Secretary. As used in this subdivision, "full legal responsibility" means legal control of the stormwater system, including a legal right to access the stormwater system, a legal duty to properly maintain the stormwater system, and a legal duty to repair and replace the stormwater system when it no longer adequately protects waters of the State. Notwithstanding the provisions of 24 V.S.A. § 3254 to the contrary, when a municipality assumes or has assumed full legal responsibility for a stormwater system, the municipality may assess municipal special assessment fees on users of the stormwater system provided that a majority of the property owners subject to the special assessment fee consented and the fee assessed is a fair apportionment to the user of the cost of the improvement in accordance with the benefits the user received.

* * *

(g) General permits.

* * *

(3) Within 120 days after the adoption by the Secretary of the rules required under subsection (f) of this section, the Secretary shall issue a general permit under this section for discharges of stormwater from impervious surface of three or more acres in size, when the stormwater discharge previously was not permitted or was permitted under an individual permit or general permit that did not incorporate the requirements of the 2002 Stormwater Management Manual or any subsequently adopted Stormwater Management Manual. Under the general permit, the Secretary shall:

(A) Establish a schedule for implementation of the general permit by geographic area of the State. The schedule shall establish the date by which an owner of impervious surface shall apply for coverage under this subdivision

(3). The schedule established by the Secretary shall require an owner of impervious surface subject to permitting under this subdivision to obtain coverage by the following dates:

(i) for impervious surface located within the Lake Champlain watershed, the Lake Memphremagog watershed, or the watershed of a stormwater-impaired water on or before October 1, ~~2023~~ 2028; and

(ii) for impervious surface located within all other watersheds of the State, ~~no~~ not later than October 1, ~~2033~~ 2038 or not later than five years after a binding stormwater-specific waste-load allocation has been established for that watershed, whichever occurs first.

(B) Establish criteria and technical standards, such as best management practices, for implementation of stormwater improvements for the retrofitting of impervious surface subject to permitting under this subdivision (3).

(C) Require that a discharge of stormwater from impervious surface subject to the requirements of this section comply with the standards of subsection (h) of this section for redevelopment of or renewal of a permit for existing impervious surface.

(D) Allow the use of stormwater impact fees, offsets, and phosphorus credit trading within the watershed of the water to which the stormwater discharges or runs off.

(1) the Commissioner of Environmental Conservation or designee;

(2) a representative of the Vermont League of Cities and Towns, appointed by the Speaker of the House;

(3) a representative of a municipality subject to the municipal separate storm sewer system (MS4) permit, appointed by the Committee on Committees;

(4) a representative of a municipality with a population under 2,500 persons, appointed by the Speaker of the House;

(1) review current statutory authority for the development of regional stormwater utility districts comprised of multiple municipalities, including identifying any potential disincentives or obstacles to utility formation;

(2) propose an approach the State could use for implementing a regional stormwater utility that would allow the utilities to assume liability and responsibility for compliance with water quality laws, including how a utility could assume responsibility for:

(A) securing the permitting of properties subject to the three-acre stormwater permit; and

(B) achieving the phosphorus reduction targets for the three-acre stormwater permitted properties within the utility district;

(3) review and recommend cost-effective and equitable approaches for regional level revenue raising and distribution of project funding for the purpose of stormwater controls to meet total maximum daily load plans (TMDLs) including:

(A) consider prior revenue-raising recommendations made in the 2017 Clean Water Report from the Office of the State Treasurer;

(D) recommend whether and how a regional stormwater utility can allocate resources and cost-effectively and equitably achieve pollutant reduction measures that are not fully achieved by regulated sites, as might be articulated in a regional stormwater management plan; and

(E) recommend whether and how a regional stormwater utility could improve the management of parcel-based issues in a more cost-effective and equitable manner, such as how a regional utility could address regulation of stormwater systems lacking a homeowners' association or other accountable

entity or how a regional utility could improve management of upstream properties that drain into stormwater systems subject to permitting;

(4) recommend whether stormwater permitting for municipalities or others could be streamlined to improve the application process, permit renewal, or fee requirements;

(5) propose how statute should be amended to implement any of the recommendations of the Study Committee, including stormwater management planning for purposes of overall regional phosphorus pollutant reductions; and

(6) estimate a cost to operate proposed regional stormwater utility districts.

(d) Assistance. The Study Committee shall have the administrative, technical, and legal assistance of the Department of Environmental Conservation.

(e) Report. On or before January 15, 2027, the Study Committee shall submit a written report to the House Committees on Environment and on Government Operations and Military Affairs and the Senate Committees on Natural Resources and Energy and on Government Operations with its findings and any recommendations for legislative action.
