Roll Call

Those Senators who voted in the affirmative were: Baruth, Bongartz, Brennan, Brock, Chittenden, Clarkson, Collamore, Cummings, Gulick, Hardy, Harrison, Hashim, Heffernan, Lyons, Major, Mattos, Perchlik, Plunkett, Ram Hinsdale, Vyhovsky, Watson, Weeks, Westman, White, Williams.

Those Senators who voted in the negative were: *Beck, *Douglass, *Hart, Ingalls, Norris.

*Senator Beck explained his vote as follows:

S. 69 has a lot of potential to address a real problem. I look forward to a more fully developed bill before we adjourn.

*Senator Douglass explained his vote as follows:

The harms are very real, and I am an advocate for addictions among our population.

I do not believe that this bill will accurately identify minors. We were told multiple times that age verification methods are very difficult, if not impossible, to implement.

The Attorney General is directed to adopt rules for age verification, but prioritize user privacy and accessibility over the accuracy of the age verification.

I want to solve the digital addictions problem, and I was initially excited to see this bill, but passing will hold off our attention on crafting a bill that will work as intended.

*Senator Hart explained his vote as follows:

I objected because the bill was mirrored off a bill in California, when we should have created a bill here in the Senate that protects our kids from over use of social media.

Thereupon, third reading of the bill was ordered.

Third Reading Ordered

S. 50.

Senator Williams, for the Committee on Natural Resources and Energy, to which was referred Senate bill entitled:

Sec. 3. 9 V.S.A. chapter 63, subchapter 11 is amended to read:

Subchapter 11. ~~Pregnancy Services Centers~~ Health Care Services

§ 2491. FINDINGS; LEGISLATIVE INTENT

~~(a) Findings.~~ The General Assembly finds that:

~~(1) Centers that seek to counsel clients against abortion, often referred to as crisis pregnancy centers or limited-services pregnancy centers, have become common across the country, including in Vermont. Accurate information about the services that a limited-services pregnancy center performs, in addition to forthright acknowledgement of its limitations, is essential to enable individuals in this State to make informed decisions about their care. This includes individuals being informed of whether they are receiving services from a licensed and qualified health care provider at a limited-services pregnancy center, as this allows individuals to determine if they need to seek medical care elsewhere in order to continue or terminate a pregnancy.~~

~~(2) Although some limited-services pregnancy centers openly acknowledge in their advertising, on their websites, and at their facilities that they neither provide abortions nor refer clients to other providers of abortion services, others provide confusing and misleading information to pregnant individuals contemplating abortion by leading those individuals to believe that their facilities offer abortion services and unbiased counseling. Some limited-services pregnancy centers have promoted patently false or biased medical claims about abortion, pregnancy, contraception, and reproductive health care providers.~~

~~(3) False and misleading advertising by centers that do not offer or refer clients for abortion is of special concern to the State because of the time-sensitive and constitutionally protected nature of the decision to continue or terminate a pregnancy. When a pregnant individual is misled into believing that a center offers services that it does not in fact offer or receives false or misleading information regarding health care options, the individual loses time crucial to the decision whether to terminate a pregnancy and may lose the option to choose a particular method or to terminate a pregnancy at all.~~

~~(4) Telling the truth is how trained health care providers demonstrate respect for patients, foster trust, promote self-determination, and cultivate an~~

environment where best practices in shared decision-making can flourish. Without veracity in information and communication, it is difficult for individuals to make informed, voluntary choices that are essential to one's sense of personal agency and autonomy.

~~(5)(2)~~ Advertising strategies and educational information about health care options that lack transparency, use misleading or ambiguous terminology, misrepresent or obfuscate services provided, or provide factually inaccurate information are a form of manipulation that disrespects individuals, undermines trust, broadens health disparity, and can result in patient harm.

~~(b) Intent.~~

~~(1) It is the intent of the General Assembly to ensure that the public is provided with accurate, factual information about the types of health care services that are available to pregnant individuals in this State. The General Assembly respects the constitutionally protected right of each individual to personal reproductive autonomy, which includes the right to receive clear, honest, and nonmisleading information about the individual's options and to make informed, voluntary choices after considering all relevant information.~~

~~(2) The General Assembly respects the right of limited-services pregnancy centers to counsel individuals against abortion, and nothing in this subchapter should be construed to regulate, limit, or curtail such advocacy.~~

(a) It is an unfair and deceptive act and practice in commerce and a violation of section 2453 of this title for any ~~limited-services pregnancy center person~~ to disseminate or cause to be disseminated to the public any advertising about the health care services or proposed services performed at that center in this State that is untrue or clearly designed to mislead the public about the nature of the services provided. The failure of a health care professional certified, registered, or licensed under Title 26 of the Vermont Statutes Annotated to conduct or to ensure that health care services, information, and counseling at the limited-services pregnancy services center are conducted in accordance with State law and professional standards of practice may constitute unprofessional conduct under 3 V.S.A. § 129a and 26 V.S.A. § 1354.
